***Initial stipends are processed the last business day before the start of a term (for all students who have been awarded financial aid and have a credit balance).**

Any subsequent stipends will be processed every Wednesday throughout the term, provided that BMCC is open.

¹ *FTB stipends (refunds) may be delayed due to processing issues. Originations are sent for approval to the Department of Education when loans are created. Actual stipends can be rejected due to issues that arise after the origination is approved.*
