

Cost of Attendance Budget

The BMCC Financial Aid Office establishes yearly standard student budgets as a basis for awarding financial aid funds. The following budgets are based on full-time enrollment for fall, winter, and spring term. The budget is prorated for less than full-time attendance.

By definition, full time is 12 or more credits in a term. However, for purposes of establishing a budget, full time costs have been calculated based on 15 credits per term, which has been shown to be the average credit load for full time students at BMCC.

The Cost of Attendance (COA) Budget is the estimated cost of attendance at BMCC. The COA is not an exact statement of what it will cost to attend, nor is it necessarily what will be offered in awards. It is merely an estimate of expenses and the ceiling, or maximum, a student can be awarded in aid.

A budget adjustment can be requested if documented acceptable expenses that are not included in this budget exists, such as extensive medical costs. Budget adjustments are automatically made by the Financial Aid Office for programs of study with special budgetary needs such as Diesel Technology and Nursing. For any COA budget questions, contact the Financial Aid office at 541-278-5759 or email at FinancialAid@bluecc.edu.

The COA is based on the following average direct and indirect costs:

Tuition and Fees: Set annually by BMCC’s Board of Education. (*Direct cost*)

Books and Supplies: An estimate of average costs for the academic year. (*Direct cost*)

Room and Board: An estimate of average costs based on double occupancy and off-campus housing. Students living at home will have this amount pro-rated. (*Indirect cost*)

Personal and Transportation: An estimate of possible expenses for personal items, clothing, recreation, and travel. (*Indirect cost*)
