

# DATA CENTER TECHNICIAN

## Training students to work in today's data centers

Today's data centers contain tens of thousands or even hundreds of thousands of computer servers linked by powerful networks. A data center technician installs, maintains, and repairs a data center's computer and network systems. Many of the largest technology employers in the country are hiring data center technicians right here in this region (see map pg 2).

BMCC developed the one-year Data Center Technician certificate in partnership with local employers. Students completing this one-year certificate are fully prepared for employment in this rapidly-growing industry.

## Career Opportunities with Local Industries:

- ◆ Data Center Technician
- ◆ IT Support Technician
- ◆ Systems Administrator

## Estimated Salary

Starting Wage: \$15 - \$25/hour and higher

## Certificate

Data Center Technician Certificate (46 credits)

## Course Delivery

Live lectures, labs, and practicums in the partner data center technology companies

# DATA CENTER TECHNICIAN

## Data Center Technician Certificate

### Term 1

#### SUMMER TERM

- COM100 - Human Communication
- CS109 - Academic Planning for Data Center Tech
- CS145 - Introduction to PC Hardware and Software
- CS179A - Introduction to Networking I
- CS180 - Computer Science Practicum

### Term 2

#### FALL TERM

- CS140L - Introduction to Linux Administration I
- CS179B - Introduction to Networking II
- CS180 - Computer Science Practicum
- CS279 - Network Management II

### Term 3

#### WINTER TERM

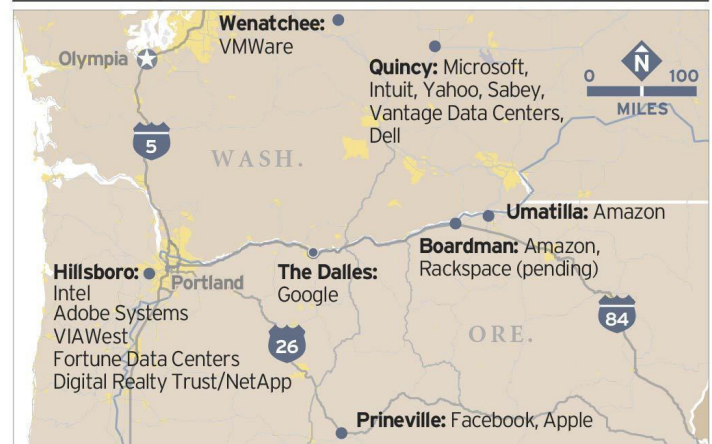

- CS240L - Introduction to Linux Systems Administration
- CS280 - Cooperative Work Experience
- CS282 - Computer Science Colloquium

## Get Started

- ♦ Apply for admission today at [bluecc.edu/DataCenter](http://bluecc.edu/DataCenter)

### Some large Northwest data centers

DAN AGUAYO/THE OREGONIAN
