

The Blue Mountain Community College Den (Food Insecurities)

The Den will remain open to all BMCC students.

Our process may look a little different than in the past, but, be assured we will do all that we can for our campus community to keep our students supplied with all that they need during this tumultuous time.

The process will now be as follows:

1. Contact BMCC at the Resource Number (541)278-5965
2. We will respond as quickly as possible and we will reach out to each student to determine their needs.
3. We will then fill the student's orders and schedule a time for pick up.
4. Students will not need to exit their vehicle, BMCC staff will transport the items out to their car to minimize contact.
5. The Den will limit the number of items provided to each student to 10 items.
6. As usual, if any student has questions or concerns, our staff will respond by phone, text or email.
7. If any of our students are struggling emotionally due to the current events we will be able to set up phone or Zoom appointments to share concerns or provide counseling remotely.
