Introduction

President’s Welcome...

Start your future at BMCC! Whether you want to earn a degree or a certificate, to complete your high school education, to improve your English proficiency, or perhaps to take some self-improvement courses, we have classes to meet your needs. If you work during the day, you may want to look at our expanding list of night and weekend offerings. We also are improving our list of distance education courses so we can better serve students throughout northeastern Oregon. With our new online enrollment system, you can register for classes without leaving home.

Don’t let a lack of money stop you from enrolling; we have financial assistance experts to help you obtain loans and show you how to apply for grants and scholarships that you might not have to repay. You will be pleased to see how helpful people are at BMCC. From our front-line staff to our faculty and administrators, the people you will meet at BMCC all want you to succeed. If you think your math or writing skills are a bit rusty, don’t worry; we have tutors to work with you so you can quickly become ready for college-level work.

Remember, a college certificate or degree will add tens of thousands of dollars to your wallet over your lifetime, so the time and energy you devote to your education are really worthwhile. Give us a call today, and let us help you succeed.

John H. Turner
President
Phone: 541-278-5950
Email: jturner@bluecc.edu

Vision Statement

Blue Mountain Community College will be the leading educational and training institution in eastern Oregon.

Mission Statement

Blue Mountain Community College will realize its vision by providing high-quality programs for college preparation, college transfer, professional/technical training, workforce development, and self-improvement that will strengthen the economy and provide opportunities for personal and professional growth.

BMCC provides dynamic and innovative programs and delivery methods in response to the changing needs of our customers: the students, businesses, industries and communities of eastern Oregon.

Strategic Plan and Goals

On October 15, 2003, the Blue Mountain Community Board of Education adopted a new strategic plan. This plan is designed to unfold over the next five to ten years and will accomplish the goals listed below. BMCC will:

Focus on student success in a premiere learning environment and:

- Enhance student support
- Increase access through innovative delivery methods and systems (fiscal and regional)
- Increase resources for financial growth and stability
- Strengthen the institution through assessment and planning
- Enhance relevant and comprehensive curriculum
- Develop employees to their highest potential
- Grow community partnerships
- Integrate and expand marketing and recruitment
Getting Started

☑ YOUR CHECKLIST

How to begin your education at BMCC

At Blue Mountain Community College (BMCC) we have an open-door admission policy, which means that students will be admitted to BMCC as long as they can benefit from our instruction. Follow these steps to get started and refer to the BMCC Website or catalog where you will find more detail.

For your convenience, we have online admissions. The following will show you step-by-step how to get started. This whole process can be accomplished in one or two days, with the exception of getting financial assistance and attending a Timberwolves Introduction, scheduled during the last few weeks before classes begin.

☐ Apply for admission – online or in person. At the BMCC Website, click on Student WolfWeb, then New Student Admission. Complete your personal information, remembering to choose your degree intent. Make note of your student ID# and the password you choose. When you start to complete the admission forms, if you get a message saying that a record could not be created because a record already exists with that SSN, then that means that you are already in the system and you just need to login using your SSN or student ID# and your month and day of birth as your password, and then update your personal information. (See page 14 of the catalog for more information). If that doesn’t work, you will need to work with the Service Center; call 279-5759.

☐ Request transcripts. If you have attended college prior to coming to BMCC and you are degree-seeking, you need to request that an official transcript be sent to BMCC. When you make your request, you will also need to complete a “Transcript Evaluation Request” form. To access this form, go to the BMCC Website, College Resources, Forms for Students, and print a “Transcript Evaluation Request.” Send the completed form to BMCC. BMCC will hold your request for 30 days. If all transfer transcripts are not received by that date, your request will be returned to you.

☐ Take the placement test for math, reading, and writing. Because we have mandatory placement in math and writing, whether you are degree-seeking or not, the placement test or completion of the prerequisite course is required before registering for a math or writing class. Check the BMCC Website for hours of testing at the BMCC sites. If you have already placement-tested at another college or have taken math and/or writing classes at another college, you can go to the BMCC Website, College Resources, Forms for Students, and print a “Transfer Prerequisite Override” form. Fax to 541-278-5885; mail to BMCC, PO Box 100, Pendleton, OR 97801; or deliver the completed form, along with the placement test or an unofficial transcript, to BMCC. Within 24 hours of receipt, we will have the override in the system so you can register for your math or writing class online.

☐ Apply for financial assistance. Applying online for FAFSA is much quicker, and you can track the status of your application online. Before you can submit your application you will need to request a PIN number, which can take a couple of days. All this can be done at www.fafsa.ed.gov. (If you are asked to pay a fee, you are on the wrong Website). You can also find other scholarships at BMCC’s Website by going to College Resources, then Scholarships.

☐ Meet with an advisor. Degree-seeking students are required to see an advisor before registering. You can make an appointment with your advisor by dropping by his/her office or by calling directly and asking for an appointment. If you do not have an advisor, or if you wish to change advisors, call Advising at 541-278-5931.

☐ Register for classes. Once you have seen an advisor, you can go online to www.bluecc.edu, click on Student WolfWeb, and login to your personal account. Once there, click on Register for Classes.

☐ Pay for classes. You must pay your bill for tuition and fees or make arrangements to pay by the end of the fifth day of classes (or the equivalent for differentially scheduled classes; see dates listed on your printed schedule of classes). You can pay your bill at any BMCC center or online by going to your personal account on the Student WolfWeb and paying with a credit or debit card.

☐ Purchase textbooks. Once you have registered for classes, you can go to the BMCC Bookstore on the main campus in Pendleton or go online to www.bluecc.edu and go to the bookstore in BMCC Quick Links. If your class is being offered at a BMCC center other than the main campus, you can purchase your books at that center.

☐ Attend a Timberwolves Introduction (TwI). Attend this mandatory, fun, hands-on, and informative session for new students: get to know the campus and resources, and learn how to be successful academically.
Blue Mountain Community College Degrees and Programs Offered

Blue Mountain Community College provides educational opportunities through the following programs:

**Lower-Division Collegiate Transfer Programs**

Associate of Arts Oregon Transfer (A.A.O.T.) Degree  
Associates of Science (A.S.) Degree  
Associate of General Studies (A.G.S.) Degree

**Professional Technical Programs**

Provide students with training to qualify them for work in specific fields. One-year certificates and/or two-year associate of applied science degrees are offered in the following areas:

- Accounting  
- Administrative Assistant; General, Legal, Medical  
- Agriculture Business, Production, Crops, Livestock  
- Business Administration and Management  
- Civil Engineering Technology  
- Dental Assisting Technician  
- Diesel Technology  
- Drafting Technology  
- Early Childhood Education  
- Hospitality, Tourism and Management  
- Human Services  
- Industrial Technology Apprenticeship  
- Marketing  
- Nursing  
- Office Assistant: General, Medical  
- Paraeducator  
- Retail Management

**Business and Industry Programs**

Provide business and industry training customized to meet the needs of students and the specific needs of local businesses, organizations, and government agencies, includes the Small Business Development Center (SBDC).

**College Preparatory Programs**

- Adult Basic Education (ABE)  
- Adult High School Diploma (AHSD)  
- General Educational Development (GED)  
- English as a Second Language (ESL)  
- JOBS Program  
- College Preparation courses

**Inter-College Partnerships**

- CUESTE: Teacher Education Program with Eastern Oregon University  
- Eastern Oregon Collaborative Colleges Council with Treasure Valley Community College and Eastern Oregon University  
- Medical Laboratory Technician (MLT) Program with Wenatchee Valley Community College  
- Radiologic Technology with Linn-Benton Community College  
- Oregon State University Dual Admission

**Accreditation Statements**

BMCC is a public, two-year, coeducational college accredited through the Northwest Commission on Colleges and Universities, 8060 165th Avenue N.E., Suite 100, Redmond, WA 98052, phone: 425-558-4224.

The college is approved by both the state and federal Veterans Administration to offer education and training under the various public laws pertaining to financial assistance to veterans.

The nursing program is accredited by the Oregon State Board of Nursing.

The dental assistant program is accredited by the American Dental Association.

The emergency medical technician classes are accredited by the Oregon Department of Education.
Welcome to BMCC

At Blue Mountain Community College, you can begin your educational journey and go just about anywhere from here. You can transfer to a university and earn a four-year degree through our partnership arrangements, obtain professional skills for a new career, enrich your life with a special interest class, or upgrade your employability. It is all available at Blue Mountain Community College, where we are committed to each student’s success.

Who We Are

Since we first opened our doors forty-five years ago, thousands of students have received degrees from our institution. We annually serve more than 850 full-time students and more than 11,000 students who take classes on a part-time basis.

Training outstanding citizens and leaders is a continuing priority for our faculty. Our full-time and part-time faculty members are the heart of our institution. At BMCC, all classes are taught by highly qualified experts in their subjects, not by teaching fellows or graduate assistants. Most instructors hold master’s or doctoral degrees in their discipline and/or vocational certificates in their area of expertise. In addition, instructors have a broad range of experience in their subject areas that makes classroom and laboratory instruction applicable to the real world. The faculty and staff at Blue Mountain offer you a personal approach to your education. Our classes are small, yet dynamic, allowing for individualized attention and mastery of the subject, as well as for personal success. This personal approach to education extends beyond the classroom to include a variety of distance education options. Without leaving their homes, students may enroll in many course offerings through video courses, home study, our online Website, or live interactive television.

The BMCC service area covers approximately 18,000 square miles. Morrow, Umatilla, and Baker counties constitute BMCC’s tax district; and Wallowa and Grant counties contract with BMCC for educational services. Coordinators based in communities throughout the area, including Pendleton, Milton-Freewater, Hermiston, Boardman, Baker City, Ione, John Day, and Enterprise, assess their communities’ needs and build a schedule each term that addresses those needs. This approach keeps us linked to our communities and provides the localized service that they need.

Our History

Blue Mountain Community College was established on July 1, 1962, after winning an overwhelming five-to-one vote of confidence by the residents of Umatilla and Morrow counties.

The college opened its doors in September of that same year. Vocational-technical courses were initially taught at Pendleton’s John Murray Junior High School, while college transfer programs were added a year later. In 1965, Blue Mountain Community College moved to its present campus high on the north hill overlooking Pendleton. Within ten years, the original construction plans for the college were completed. In September 1992, the college purchased Columbia Hall in Hermiston to accommodate a growing student population in western Umatilla County. In October 1993, the college created a center in Milton-Freewater by leasing the former US Bank Building. In 1994, the Milton-Freewater Continuing Education Office and Basic Skills Center moved to the same location.

Fall term 1995 marked the beginning of BMCC’s distance education program. While the college had offered telecourses for a number of years, newer mediums such as videotapes, the Internet, and ED-NET expanded the options of potential students who were bound by constraints of time or location.
In November 1998, the voters in Morrow and Umatilla counties passed a bond measure for facility expansion in district growth areas. The bond financed expansion of the centers in Hermiston and Milton-Freewater and the opening of the BMCC Morrow County center in Boardman. The Pendleton campus expansion included new technical agriculture buildings, a new science and technology building, and the remodeling and upgrading of older facilities.

Another ballot measure in March 2000 annexed Baker County into the BMCC district. Classes at BMCC Baker County began in the fall of 2000.

Blue Mountain Community College celebrates its 45th anniversary in the fall of 2007. Activities will honor the leaders—board of education members, presidents, faculty, staff, alumni, and community—whose vision made our college grow.

Living in Eastern Oregon

The communities of northeastern Oregon offer many cultural, historical, and recreational attractions. Pendleton hosts two symphonies that attract musicians from throughout the region. Hermiston’s Desert Arts Council sponsors numerous concerts and cultural events. The Arts Center of Pendleton, the first regional arts center in eastern Oregon, offers gallery exhibits and emphasizes arts education. The Tamástslikt Cultural Institute of the Confederated Tribes of the Umatilla Indian Reservation highlights a living history exhibit of regional Native American customs and culture. County museums preserve and present local histories, and the National Historic Oregon Trail Interpretive Center near Baker City commemorates our place on the Oregon Trail.

Many communities in the six counties served by the college have unique seasonal festivals and historic architecture that reflect the spirit and history of the region. The world-famous Pendleton Round-Up celebrates the heritage of the West every September with rodeo competitions, community events, and pageants. This cowboy sport is also enjoyed at county fairs and other festivals throughout the region. The Hermiston Watermelon Festival, Baker City’s Miners’ Jubilee, and Milton-Freewater’s Muddy Frogwater Festival are a few of the many popular events that showcase local products and community pride.

Bordered by the Blue Mountains, the Columbia River, and rolling crop land, our district abounds in recreational attractions. The local area offers an abundance of year-round recreational sites, including state and national parks. The Umatilla National Forest, under the jurisdiction of the U.S. Forest Service, provides more than a million acres of wilderness recreation opportunities. Skiing, snowboarding, fishing, hiking, rafting, and hunting are outdoor activities available to BMCC students, local residents, and visitors.

Eastern Oregon has four distinct seasons with a very livable climate. Sun-filled summers see temperatures ranging from 73 to over 100 degrees, while winters average 33 degrees. Humidity is low, averaging 45 to 50 percent. Our dry climate produces about 13 inches of rain each year. We occasionally have snow for winter fun.
With two sites in Baker City, on Baker Street and in the National Guard Armory, BMCC Baker County offers a variety of:

- College credit classes
- Job skills workshops
- College preparatory classes including adult basic education, adult high school diploma and credit recovery, general educational development (GED) preparation, and English as a second language (ESL)
- Customized training for business and industry
- Emergency medical training, first aid, and certain occupational certifications
- Personal enrichment courses

Students have the opportunity to take classes at the local sites, or they may choose to take advantage of the distance education programs, which allow students to complete their classes using the Internet, videotapes, independent study, interactive television (ITV), or workbooks. Using a combination of on-site and distance education, students may complete their A.A.O.T. degree at the Baker County center.

The Small Business Development Center also has a representative at BMCC Baker County. For additional information or to schedule a tour, please contact the BMCC Baker County office.

The Oregon JOBS program (a welfare-reform contract with the Oregon Community Human Services Department) and the Small Business Development Center have representatives housed at the Hermiston center. For additional information or to schedule a tour, please contact the BMCC Hermiston office.

Although students have the opportunity to take advantage of the distance education classes using the Internet, videotapes, independent study, ITV, or workbooks, students at BMCC-Hermiston may complete their A.A.O.T. through courses offered entirely at the center. A multi-year pattern of courses allows students to complete their associate's degree as part-time students. Some classes are offered during daytime hours, and some are scheduled as evening classes to accommodate working students with a variety of schedules.

The Oregon JOBS program is available at Milton-Freewater. For additional information or to schedule a tour, please contact the BMCC Milton-Freewater office.
BMCC Grant County

835-B S. Canyon Boulevard
John Day, OR 97845
Phone: 541-575-1550
Fax: 541-575-2920
Email: getinfo@bluecc.edu

BMCC Grant County focuses on building relationships with community organizations, local businesses, and area schools to serve the citizens of Grant County. This site provides support services for students to access the many courses offered at BMCC via Internet, videotapes, independent study, ITV, or workbooks. A small slate of on-site college credit courses, community enrichment, and job training courses are also available, in addition to certified nursing assistant (CNA) and emergency medical technical (EMT) training.

Adult basic education offerings in Grant County include adult basic education, adult high school diploma and credit recovery, and GED preparation. For additional information or to schedule a tour, please contact the BMCC Grant County office.

BMCC North Morrow County

300 N.E. Front Street
Boardman, OR 97818
Phone: 541-481-2099
Fax: 541-481-3990
Email: bmccnorthmorrow@bluecc.edu

BMCC North Morrow County serves the westernmost region of the college district. The center offers a variety of:

- Job skills workshops
- College preparatory classes, including adult basic education, adult high school diploma and credit recovery, GED preparation, and ESL courses
- Customized training for business and industry

Students have the opportunity to take classes at the local site, or they may choose to take advantage of the distance education classes, which allow students to complete their classes using the Internet, videotapes, independent study, ITV, or workbooks. Using a combination of on-site and distance education, students may complete their A.A.O.T. degree at the Boardman center. Classes are offered at BMCC Boardman during both day and evening hours.

To assist in local employers’ training needs, the customized training administrator is available to meet with them at their convenience to develop training programs. Programs can be housed at job-sites or at the Boardman center and may utilize several methods of delivery including face-to-face, online, ITV, and self-study. For additional information or to schedule a tour, please contact the BMCC North Morrow County office.

BMCC South Morrow County

P.O. Box 21
Ione, OR 97843
Phone: 541-422-7040
Fax: 541-422-7015
Email: bmccsouthmorrow@bluecc.edu

BMCC South Morrow County, located in Heppner, provides support services for students in the Heppner, Lexington, and Ione areas to access the many courses offered at BMCC through the Internet, videotapes, independent study, ITV, or workbooks. A small slate of on-site community enrichment and job training courses are also available. For additional information or assistance, please contact the BMCC South Morrow County office.

BMCC Wallowa County

107 S.W. 1st
Enterprise, OR 97828
Phone: 541-426-4109
Fax: 541-426-6059
Email: getinfo@bluecc.edu

Established in 1989 and located in Enterprise, BMCC Wallowa County provides learning opportunities to the residents of Wallowa county, including:

- College credit classes
- Job skills workshops
- College preparatory classes including adult basic education, adult high school diploma and credit recovery, GED preparation, and ESL courses
- Customized training for business and industry
- Personal enrichment courses

Students have the opportunity to take classes at the local site, or they may choose to take advantage of distance education programs, which allow students to complete their classes using the Internet, videotapes, independent study, ITV, or workbooks. For additional information or assistance, please contact the BMCC Wallowa County office.
Distance Education

What is Distance Education?
Distance education is any kind of learning in which students and the instructor are separated by time and/or place. It can be delivered using various methods or technologies, including:

Online Courses: Course offerings are provided over the Internet, with instructors located at either BMCC or another Oregon community college (host/provider). Tests are conducted either online or at a BMCC location.

Telecourses: Classes are presented primarily on DVD. Students use textbooks and interact with the instructor either online or through postal services. Tests usually are proctored at a BMCC location.

Videoconferencing: Classes originate from another site but are real in time and place. Classes are offered through interactive television or Web-based software (Elluminate Live). Students may meet at a designated BMCC site and interact with the instructor and students at other sites.

Guided Instruction: Courses are taught through the mail only, with materials presented on paper in the form of study guides and textbooks (no videotapes). Students contact the instructor in writing or through telephone discussions.

Who Benefits From Distance Education?
The time-bound student, whose job or education schedule conflicts with the times when classes are offered on campus.

The distance-bound student, who lives far from where classes are offered.

The home-bound student, who cannot leave home for physical, emotional, or family reasons such as caring for the young, sick, or elderly.

Those whose work schedules prevent them from finding blocks of time to participate in classes.

Those who seek to advance themselves in their current career or to prepare for a new career.

Who Should Take Distance Education Classes?
Self-motivated learners
Time- or place-bound learners
Technically astute learners

Registering for Distance Education Classes:
Student services and financial assistance information for distance education students—such as admissions, enrollment, registration, advising, book purchases, and payment—are the same as for any other classes offered at BMCC, noted elsewhere in this catalog. Please see the Getting Started section on page 4 for more information. For registration information and a list of courses, go to www.bluecc.edu and click on the Student WolfWeb link.

Financial Assistance for Distance Education:
Online students may be eligible to receive financial assistance. Complete the Free Application for Federal Student Aid (FAFSA) form, available online at www.fafsa.ed.gov. BMCC’s federal school code is 003186. Check page 21 of this catalog or our Website for more financial assistance information.

Paying for Distance Education Classes:
Blue Mountain Community College’s distance education classes are assessed at the current tuition and fees listed in the Schedule of Classes published each term and online at www.bluecc.edu. There is an additional distance education class fee for each class.

Purchasing Distance Education Textbooks:
Students can order books online with a credit card at www.bookstore.bluecc.edu, or students can call the bookstore at 541-278-5733 or send a fax to 541-278-5842. Students taking an online course provided by another Oregon community college (host/provider) may order books by contacting the BMCC bookstore. Links to host/provider colleges can be found on the Distance Education page of our Website, click on OCCDL.

Library Services:
Many library services and electronic databases are available online to all students, whether on or off campus. Go to www.bluecc.edu/library for information on library services.

Technical Help and Support: *
The Office of Distance Education is located on the Pendleton campus in Pioneer Hall, Room154. The email address is Distance_Ed@bluecc.edu.

Additional information and services are on the Distance Education page of our Website. There students will find tutorials, frequently asked questions, self-assessment tests, and the hardware and software required to take online classes. Students can view current term class information on the distance education Webpage.

*If you are enrolled in another Oregon community college course, you must contact the technical support services at that community college. You can find links on the Distance Education page of our Website; click on OCCDL.
Blue Mountain Community College supports students in their right to actively question and seek constructive change in the college environment.

The college endorses the airing of views, opinions, and concerns in and around BMCC through verbal and visual means. Any kind of conduct that restrains either the freedom of expression or the freedom of movement of others who may not agree, or that is disruptive to college operations in any way, is completely unacceptable in a community based on reason and intelligence.

The Student Rights, Responsibilities, and Code of Conduct document outlines requirements and sanctions regarding the above statement. Students wishing to review or receive a complete copy of the Student Rights, Responsibilities, and Code of Conduct document may obtain a copy from the offices of the Executive Vice President, the Vice President of Instruction, the Department of Enrollment Management, and the Associated Student Government; and at the reserve desk in the college library. This statement is also online at www.bluecc.edu.

Student Right-to-Know Information

In compliance with the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), Blue Mountain Community College discloses completion/graduation rates and transfer rates to all current and prospective students. Rates are based on fall-term enrollment of full-time (12 term credits), first-time, and degree- or certificate-seeking undergraduates. Students are counted as graduates or as transfer-outs if they graduated or transferred within 150 percent of the normal time for completion or graduation. Rates do not include part-time credit students, students who have attended college elsewhere before attending BMCC, students who began their studies in a term other than fall, or students not seeking degrees. For further information, contact the Department of Enrollment Management at 541-278-5759.
Statement of Non-Discrimination and Grievance Procedure

It is the policy of the Blue Mountain Community College Board of Education and School District that there will be no discrimination or harassment on the grounds of race, color, sex, marital status, religion, national origin, age or disability in any educational programs, activities or employment. Persons having questions about equal opportunity and nondiscrimination should contact the Executive Assistant to the President at BMCC, PO Box 100, 2411 NW Carden, Room P-103 in Pioneer Hall, Phone 541-278-5951 or TDD 541-278-2174.

The college has adopted a grievance procedure providing for prompt and equitable resolution of student and employee complaints alleging any discrimination based on sex or disability. To view this procedure, go to www.bluecc.edu, College Resources, H R Resources.

Drug and Alcohol Statement

Blue Mountain Community College is legally required and morally committed to the prevention of illicit drug use and abuse of alcohol by both students and employees.

The college reinforces this message through various publications that delineate our policy and procedures on this issue: Students Rights and Responsibilities, the student Handbook, all employee handbooks, and various college procedures. These items are available to students through the Department of Enrollment Management and to employees via the StaffWeb or the Office of Human Resources.

Family Educational Rights and Privacy Act

The college abides by and honors all state and federal laws pertaining to the privacy and confidentiality of directory information and academic records. If they choose to do so, students have the right to restrict access to specific information.

The Family Educational Rights and Privacy Act of 1974 (FERPA) grants students certain rights, privileges, and protections relative to individually identifiable student educational records that are maintained by BMCC. Specifically:

- FERPA allows colleges to disclose your directory information without consent. If you do not want this information released, you must notify the nearest BMCC office and complete and sign a non-release form.

- Directory information includes names, majors, dates of attendance and degrees, honors and awards conferred and athletic participation (the height and weight of team members).

- Students have the right to inspect and review their own individual educational records. Students have the right to challenge information contained in individually identifiable educational records.

- Students’ educational records (with the exception of directory information) will be released to third parties only with the written consent of the student.

For more information or to exercise your rights contact the Associate Vice President of Enrollment Management at 541-278-5759.
General Information

Admission Policies
Blue Mountain Community College has an open-door admission policy. In general, students may enroll provided they:

- Are eighteen years of age or older, or
- Are legally emancipated, or
- Have graduated from an accredited high school, or
- Have completed a general educational development (GED) certificate or an adult high school diploma, and
- Have the ability to benefit from instruction.

A student who is under eighteen years of age and no longer attending high school, who has not graduated from an accredited high school or completed a GED, and who wishes to attend BMCC may enroll by providing the following:

- A letter from a high school administrator stating that the student has been released from compulsory school attendance under the provisions outlined in ORS 339.030, and
- An assessment by a BMCC advisor regarding the student’s ability to benefit from the instruction desired, and
- A parental sign-off on any enrollment or registration document that obligates the student financially, and
- An acknowledgement that the student will be in a classroom situation with other adults and without the same protections and rules of the K-12 system.

Students under the age of eighteen and still attending high school who wish to take a class or two for personal enrichment or for credit at their high school may do so with parental sign-off on the financial obligations incurred. Students wishing to take classes for high school credit should check with their high school administration to ensure that the credits taken will transfer in the way they intend.

Students under the age of sixteen may be conditionally admitted only with individual instructor approval. The student’s parents must meet with the student and the advisor. The ability to benefit is determined each term until the student reaches the age of sixteen. For returning students, the determination may be made with the additional involvement of the Associate Vice President of Enrollment Management. A student may be denied admission or continuing enrollment if it is determined at any step of the process that the student cannot benefit from the instruction desired.

Home-schooled students are welcome to enroll in classes and attend BMCC under the same conditions as other students. Families with questions about admission for their home-schooled children should contact admissions in Pendleton at 541-278-5759.

Oregon Residency Requirements
A student’s residency status determines the tuition rate for classes. The college has three tuition schedules: in-state, out-of-state, and international. For purposes of determining tuition rates and receiving state reimbursement, BMCC is required by law to establish a residency policy.

In-State Criteria (student must meet at least one):
- The student has maintained a permanent address in Oregon for at least 90 continuous days prior to the first day of the term.
- The student is a resident of Washington, Idaho, Nevada, Montana, or California.
- The student or a member of the immediate family holds title to or is otherwise purchasing property that is claimed as a permanent Oregon residence.
- The student or parents of a dependent student filed an income tax statement with the Oregon Department of Revenue for the most recent reporting year.
- The student is a veteran who established residency in Oregon within one year of separation or discharge from the service.
- The student is a dependent of parents or legal guardians who have established permanent residency within Oregon.

Documents (student must provide at least two):
- An Oregon hunting or fishing license that was issued at least ninety days before the beginning of the term.
- A copy of deed of title, mortgage agreement, or recent county property tax statement indicating ownership or purchase by the student or the immediate family. If ownership is by anyone other than the student, a document verifying the relationship between the student and an owner must be presented.
- A current Oregon voter precinct card.
- A copy of a signed Oregon income tax statement filed during the latest reporting year or payroll records from an Oregon firm indicating ninety continuous days of residency in Oregon.
- A copy of an official Oregon high school transcript or GED scores earned in the state of Oregon.
- A copy of a current Oregon driver’s license (front and back of license).

Out-of-State
Students who list their permanent addresses outside of Oregon must pay out-of-state tuition, with the exception listed above. This includes students who list their parents’ address as outside Oregon and who are claimed as dependents by their parents on their income tax report. Alaska residents who wish to receive the Alaska Permanent Fund Dividend while attending BMCC must maintain their out-of-state residency status.
International

Students who are citizens of another country and are attending BMCC on a student visa will pay the international tuition rate.

A student may petition for residency if at least one of the following criteria is met and two of the following documents are provided as proof. Petitions must be made in writing. Requests should be submitted, along with at least two of the documents listed below to admissions for approval.

Admission Procedures

Degree and Certificate Programs

All students seeking a degree or certificate are required to follow this procedure:

- Create a student account by logging into the Student WolfWeb from BMCC’s Website at www.bluecc.edu and complete the demographic information page or submit a completed BMCC Registration form to the BMCC Service Center or a local BMCC site.
- Request OFFICIAL transcripts from all colleges attended and have them sent to the BMCC Service Center.
- Complete the BMCC placement test. Transfer students who have not successfully completed a college or university level math and writing course will be asked to take the BMCC placement test.

Transfer Students:

A Transcript Evaluation Request form must be submitted upon entry to Blue Mountain Community College. An evaluation is then performed on all transfer credits earned at other institutions, and the student is notified by the Registrar in writing which courses will be accepted into the program for which the student is seeking.

Courses completed from other colleges will be included in the cumulative grade point average (GPA) computation if they fulfill requirements for graduation, including core courses and any appropriate electives. Courses not used will not be counted in the cumulative GPA. Courses accepted towards degree requirements will not be listed on the students BMCC transcript.

BMCC’s offers a number of limited-entry programs. Each program has special admissions requirements that must be met before a student can be admitted. Students entering BMCC are not guaranteed acceptance into those programs. The admission requirements may change annually depending upon Oregon state regulations and BMCC policies. For the most current admissions policy information and deadlines, please contact admissions, the academic department, or consult BMCC’s Website.

International Admissions

Blue Mountain Community College welcomes international students and provides an affordable education in a safe, comfortable environment. To be considered for admission, an international student must:

1. Complete the Student WolfWeb Registration form
2. Complete an International Student Application form
3. Pay a $25 (U.S.) non-refundable application fee
4. Submit an official TOEFL score report (minimum 213 computer-based score or 550 paper-based).

Additional requirements to be met for admission (to obtain an I-20 visa) include:

- Show proof of adequate funds for the student’s studies;
- Provide a complete set of documents for all of the student’s previous and current studies, and
- Provide proof of health insurance;

Students must be enrolled full-time (12 or more credits) and successfully complete 12 or more credits each term to remain in good standing with the U.S. Citizenship and Immigration Services (USCIS).

For more information, or to receive an international student application packet, please contact admissions; email getinfo@bluecc.edu; or visit the International Student Admissions page on BMCC’s Website. Students will be notified by mail after all of the application materials are received and verified.

Non-Degree Admissions

Students wishing to enroll for courses at BMCC but not obtain a degree or certificate are required either to:

- create and use their on-line Student WolfWeb account to enroll; or
- submit a completed BMCC Registration form to their local BMCC site.

Every student, whether degree-seeking or not, who intends to take a credited math or writing course is required to take the math or writing placement test. Placement in these courses is mandatory. Students who have completed a math or writing course are exempt from this rule; however, students who have been out of school for two or more years are encouraged to take the math or writing placement test or to meet with the instructor before enrolling in a math or writing course.

Placement Testing

Placement testing is mandatory if you intend to take a math or writing course and have not already taken a math or writing course at a college or university. BMCC uses the COMPASS placement test, which is a self-paced, computerized test designed to determine the student’s level of academic ability. The scores are used to assist you and your advisor in placing you in the correct course.

If you have taken either a math or writing course from a college or university, you will need to provide the Advising and Testing Center with a copy of your unofficial grade transcript to determine proper placement in math and or writing courses at BMCC.

Placement tests are administered in the Advising and Testing Center at the main campus in Pendleton and at BMCC Hermiston, BMCC Milton-Freewater, BMCC Baker,
and BMCC Boardman. Dates and times for testing are posted on the college Website. There is no cost to the student for this service.

The placement test may be taken in whole or in part more than once, if desired. Scores are uploaded regularly and are used by your academic advisor in helping you plan an appropriate course schedule and are not used to determine admittance to the College.

If you disagree with the placement recommendation in reading or writing you may be referred to the appropriate academic department for further placement advising and possible further testing. Should you disagree with your math placement after retesting one time, you may request to take a challenge test.

To request a placement test with accommodations due to a disability please contact the Associate Vice President of Enrollment Management at 541-278-5774.

Adult Basic Education (ABE) and General Educational Development (GED) Admissions

These programs are open to non-high school graduates who are at least sixteen years of age and not enrolled in high school. Students who are sixteen and seventeen years of age must provide the college with a release from the high school district in which they reside according to O.R.S. 339.030. For more information, contact the Department of College Preparatory Programs at 541-278-5795.

Registration Information

Certificate- and degree-seeking students are required to register online using the Student WolfWeb link found on BMCC’s Website at www.bluecc.edu. Students who do not have access to the Internet or who need assistance in registering for courses may visit any BMCC location to register in-person.

Students are encouraged to register before the first day of classes each term. Courses may be added up through the end of the fifth day of the term or the equivalent for classes that begin after the first week of the term. For more information on registration dates and timelines, see the calendar found in this catalog or visit www.bluecc.edu.

For special registration assistance due to a disability, please contact the Associate Vice President of Enrollment Management at 541-278-5774.

Degree-Seeking Students

Both new and returning degree-seeking students should make an advising appointment with an academic advisor. To make an appointment, call the Advising and Testing Center in Pendleton at 541-278-5931 or contact the BMCC location closest to you. Students may also contact their advisor or academic department directly to set up an advising appointment.

The advising process will include information regarding registration for classes.

Non-Degree Seeking Students

Students wishing to enroll in courses at BMCC but not obtain a degree or certificate may register online using the Student WolfWeb link found on BMCC’s Website at www.bluecc.edu. Students who do not have access to the Internet or who need assistance in registering for courses may visit any BMCC location to register in-person. You are considered to be registered when the college receives your completed registration unless the college notifies you that the course(s) you registered for are full or cancelled.

Course Numbers

Courses with decimal points in them and courses with numbers below 100 are not college transfer courses. All lower division transfer courses and professional/technical non-transfer courses are taught as college-level classes. Generally, courses with letter prefixes apply toward degrees and certificates, and courses with 100 and 200 numbers are college transfer courses; those numbered 200 to 299 are considered sophomore-level courses.

Credits

In order to earn an associate’s degree in two years, you should enroll for an average of 16 college-level credits in fall, winter, and spring terms. If remediation or college preparatory courses are required, the number of credits each term would increase accordingly. Work for 16 credit hours involves about forty-eight hours of scholastic productivity each week during the term. Curriculum and program requirements described in this catalog provide more information on the program or degree of your choice.

Students participating in intercollegiate athletics must complete and pass at least 12 credit hours each term for eligibility purposes. Students are encouraged to visit with their coaches for detailed eligibility requirements.

Attendance

Blue Mountain Community College believes that it is the student’s obligation to attend and participate in classes and that there is a direct correlation between participative attendance in a course and successful completion. Individual courses may have their own attendance policies. The college has instituted an administrative withdrawal process for the first five days of class each term. If you are not in attendance the first day of class you will be contacted by someone from the academic department to inquire whether you plan to attend the rest of the term. If the answer is no, you may be administratively dropped from the class; however, administrative withdrawal is a privilege and is not guaranteed. If you cannot be contacted, you may be left in the class and remain enrolled, and thus be responsible for tuition and fees. For this reason, if you are not intending to continue in classes you must not assume that you will be automatically dropped for non-attendance. To drop a course or courses, you can go online, or contact the college for
Points No Pass
The student may, at his or her discretion, elect to withdraw or drop courses without record. If you wish to withdraw completely from the college (that is, from all classes) you may do so by completing an add/drop form or by going to your online Student WolfWeb account. Withdrawals made by the deadline listed on the academic calendar will result in no academic grade.

If you are receiving financial aid refer to the Financial Assistance section of the catalog for further information regarding the effects of doing a complete withdraw.

NOTE: A student who is registered is considered to be in attendance. Withdrawing from any or all classes leaves a W on your transcript. Non-attendance or non-payment does not constitute official withdrawal, nor does it release you from the obligation to pay for your course or courses.

**Auditing Classes**
You may register as an auditor to attend or to survey classes at a reduced tuition rate. If an audit is desired, you must make this selection at the time you register. You may not change to audit status after the end of the “drop period.” Auditors attend class regularly but are not required to participate fully in the class activities (e.g., taking tests or doing homework). Classes taken under audit status do not count as credits attempted in financial aid calculations, and the AU status does not count in calculating GPAs. The audit indicator AU may not be requested or given as a grade, because it indicates a registration status, not an evaluation.

**Withdrawing from Classes**
After the fifth day of the term (or the equivalent days of terms for classes of varying length), you may withdraw from a class by completing an add/drop form or by going to your online account on the Student WolfWeb. You may withdraw from a course without receiving an academic grade if the withdrawal is made by the deadline listed on the academic calendar. See the Glossary in this catalog for distinctions between dropping and withdrawing from classes.

If you wish to withdraw completely from the college (that is, from all classes) you may do so by completing an add/drop form or by going to your online Student WolfWeb account. Withdrawals made by the deadline listed on the academic calendar will result in no academic grade.

If you are receiving financial aid refer to the Financial Assistance section of the catalog for further information regarding withdrawals.

Students receiving financial aid need to refer to the Financial Assistance section of the catalog for further information regarding withdrawals.

**Academic Information**

### Grading System
The quality of student work is measured by a system of grades and by computed grade-point averages. All assigned courses, regardless of curriculum, are included when determining a cumulative grade-point average while attending BMCC.

The grading system consists of the following:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
<td>Superior</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
<td>Above Average</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
<td>Average</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
<td>Inferior</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
<td>Failing</td>
</tr>
<tr>
<td>INC</td>
<td>0</td>
<td>Incomplete</td>
</tr>
<tr>
<td>P</td>
<td>0</td>
<td>Pass</td>
</tr>
<tr>
<td>NP</td>
<td>0</td>
<td>No Pass</td>
</tr>
<tr>
<td>R</td>
<td>0</td>
<td>Course Repeated</td>
</tr>
<tr>
<td>W</td>
<td>0</td>
<td>Withdrawal</td>
</tr>
</tbody>
</table>

All marks except A, B, C, D, and F are disregarded in the computation of grade point averages; however, some of these disregarded marks will affect financial aid and athletic eligibility.

**GRADE POINT AVERAGE (GPA)**
Your grade point average (GPA) is calculated as follows: take the number of points from the table above for each grade that you received and multiply it by the number of credits for that course; then repeat the process for each course in which you received a grade of A, B, C, D, or F. Add all of the results together and then divide by the total credit hours in which grades A, B, C, D, or F were received. Note: If a course is repeated, only the most recent grade is used in computing the GPA unless the course is designated as repeatable in the Course Descriptions section of this catalog.

**INC (Incomplete Grade)**
The instructor may assign an incomplete grade when the quality of work done by the student is satisfactory but the course has not been completed for reasons acceptable to the instructor. At least sixty percent (60%) of the course work must be completed for an incomplete grade to be given. An incomplete grade must be made up within a maximum of one calendar year from the date that the incomplete appears on the grade report; however, the student and instructor may choose a shorter time in which to complete the course work. Incomplete Grade Contracts are submitted at the time grades are submitted and do not require the student’s signature. The Office of Enrollment Management will maintain and monitor those contracts for the college. If the instructor does not contact the Office of Enrollment

Please contact the Service Center in Pendleton for further information at 541-278-5759, or send an email to: getinfo@bluecc.edu.
Management in writing to provide the final grade earned by the student by the contract deadline date, the alternative grade indicated on the contract will automatically be entered into the student’s permanent record. It is the student’s responsibility to complete the work agreed upon and the instructor’s responsibility to submit the final grade earned in a timely manner to the Office of Enrollment Management.

P/NP (Pass/No Pass)
Students who wish to use the P/NP option must adhere to the following regulations:

- Elect to do so by the end of the fourth week of the term. Once a student declares the P/NP grading option, no changes in grading can be made.
- Submit an application for the P/NP grading option to the Office of Enrollment Management.

A student may apply a maximum of 12 program or elective credits with a grade of P toward a degree at BMCC. This number would include both those pass grades earned in regular BMCC classes and those earned from another college or university. This number does not include either pass grades earned in course work with obligatory pass grades or advanced placement credits transcripted as pass.

The P/NP option is not available in courses being repeated by the student, in courses required for a degree, or in courses in the core area required for an associate of arts degree (pass grades would be accepted in advanced placement test credit.).

The P grade denotes a level of accomplishment of C or better.

Pass grades from other institutions will be examined on an individual basis. If the Associate Vice President of Enrollment Management determines that the course meets or exceeds BMCC requirements, then credit may be granted.

Students planning to transfer to four-year schools should determine the policy of that school before electing the P/NP option at BMCC.

In computing credits earned and grade point average, the pass/no pass option would be considered as follows:

- The pass credits will be transcripted as credits earned and will not be computed in the grade point average.
- The no pass credits will show on the transcript as credits attempted and will not be computed in the grade point average.

R (Course Repeated)
Assigned when a student has repeated a course.

W (Withdrawal)
A grade of W indicates that the student followed the formal withdrawal procedure and withdrew from the course during the term. This grade is not used in computing GPA.

A W grade is not punitive. It simply indicates what occurred: the student withdrew from the course and therefore received no grade.

Enrollment Status
In addition to the above grades, a student’s enrollment status may be entered on a grade report or transcript. These include AU (audit), CIP (course in progress), H (Adult High School Diploma variable-hour courses), and MSG (missing grade).

AU (Audit)
This is NOT a grade. It is an enrollment status and must be declared at the time of registration for the course. (See page 16 for more information.)

CIP (Course in Progress)
CIP is an enrollment status to be used when a course is scheduled to continue from one academic term into the next. The CIP is not a terminal grade but is, rather, a state of progress to be used until the ending date of the class. At the time a course is scheduled to conclude, the CIP status will be replaced by a grade.

H (Adult High School Diploma variable hour courses)
H will be used in the Adult High School Diploma system to indicate a variable-hour course that the student has not finished in a particular term.

MSG (Missing Grade)
A grade designation of MSG, or a blank, indicates that the course grade is missing for some reason. Please contact your instructor to ensure that the grade was submitted to the Office of Enrollment Management.

Grade Appeal Process
The responsibility for assigning grades rests with the individual instructor, who uses his or her best judgment in accordance with what is deemed fair, given the requirements of the course and the work performed by the student.

When a student believes that he or she has been awarded an inappropriate grade by an instructor, the first step is to appeal the grade to that instructor in a timely manner, usually within one term. If satisfaction is not received, the next step is to appeal to the Vice President of Instruction.

Grade changes may be made up to one year after the end of the term the course or courses were taken. Once a grade has been assigned, the only acceptable reason for grade changes are instructor or college error. Students turning in late assignments are not normally entitled to grade upgrades after the end of the term and should work with the instructor before the end of the term to use the INC process instead.

Grade Point Average (GPA)

Renewal Policy
Students who have previously attended BMCC and have earned poor grades often feel discouraged about trying again. In order to encourage these students, Blue Mountain Community College has established a GPA renewal policy.
BMCC students who return to BMCC after an absence of at least two years and who subsequently pass two academic quarters of work of at least 12 credit hours each quarter with a 2.00 GPA or better, may petition the registrar to implement the GPA renewal policy. If the petition is accepted, grades for the term chosen, and all terms prior to the term chosen, will be changed to no credit (NC). All courses previously taken will remain on the transcript, but the grade point average will be adjusted. A notation will appear on the transcript indicating that the GPA renewal policy was implemented. All courses included in the GPA renewal policy are still counted as attempted for the purposes of federal financial aid eligibility.

This policy may be used only once. Students must be enrolled at the time that the policy is implemented. Any courses taken at another college and transferred to BMCC are not subject to the provisions of this policy and are not included in this policy.

**Final Examinations**

Final examinations are given at the close of each term. Students are required to take final examinations at the regularly scheduled time. Final examination schedules are available online on the academic calendar found in this catalog or at www.bluecc.edu. If unusual circumstances warrant taking final examinations at another time, the student must make prior arrangements with the instructor.

**Academic Achievement Recognition**

Blue Mountain Community College recognizes exceptional academic achievement of students at the end of each term and at graduation.

Honor Roll, Dean’s List, and President’s List
Students may attain honors status each term by qualifying for the Honor Roll, the Dean’s List, or the President’s List. In all cases, students must have completed 12 or more credits at BMCC with grades of A, B, C, or D and have a resulting GPA for the term of 3.00 to 3.39 for Honor Roll, 3.40 to 3.84 for the Dean’s List, and 3.85 or higher for the President’s List. The grades of P, NP, INC, and W do not count toward academic achievement.

Only courses taken at BMCC count towards academic achievement. Only term GPAs, not cumulative GPAs, are counted for these recognitions.

Honors at Graduation
Students with exceptional academic qualifications may graduate from BMCC with honors or high honors. This applies to all college academic and professional/technical degree and certificate programs. To qualify, students must have attended at least two terms and have earned at least 24 credit hours at BMCC. Students must have a cumulative GPA of 3.40 to 3.84 for honors designation and a cumulative GPA of 3.85 or higher for high honors designation.

NOTE: Only the courses used for graduation will be counted in the cumulative GPA calculation. The calculation is performed on all courses completed the term before graduation.

**Academic Notification: Warning/Probation/Suspension**

Degree or Certificate seeking students’ transcripts will be reviewed each term for both academic success and for persistence which could result in being placed on academic notification for the following reasons:

- The student’s term GPA falls below 2.00
- The student’s cumulative GPA falls below 2.00
- The student does not successfully complete over 75% of the credits or courses taken in a term

A student is notified in writing by the Student Success and Retention staff each term if placed on academic warning, academic probation, or academic suspension.

**ACADEMIC WARNING CRITERIA**

- The first term in which the student’s term GPA falls below 2.00,

**ACADEMIC PROBATION CRITERIA**

- The student receives a cumulative GPA between 1.50 and 2.00 (depending on the total attempted credits; refer to the Academic Success chart, pg. 19), and/or
- The student does not successfully complete at least 75% of the credits taken in the term (depending on the total attempted credits; refer to the Persistence chart, pg. 19)

**LEVEL 2 ACADEMIC PROBATION CRITERIA**

- The student receives a cumulative GPA below 1.85 (depending on the total attempted credits; refer to the Academic Success chart, pg. 19), and/or
- For a second consecutive term, the student does not successfully complete at least 75% of the credits taken depending on the total attempted credits (refer to the Persistence chart, pg. 19)

**ACADEMIC SUSPENSION CRITERIA**

- If for a second consecutive term, the student remains on Level 2 Academic Probation status, or
- If the student has a cumulative GPA of below 2.00 for three consecutive terms

While suspended, students may not register for classes or participate in activities reserved for students. Students have the right to appeal their suspension to the Associate Vice President of Enrollment Management or designated staff. The written appeal should be submitted on the Academic Appeal form available on the BMCC Website.

If the appeal is denied and the suspension is ruled valid, the student has the right to appeal the decision through BMCC’s chief academic officer, the Vice President of Instruction. The Office of Student Success and Retention can provide further clarification on the appeal process.
Prior Learning Credits

The purpose of awarding credit for prior learning is to acknowledge and validate knowledge, skills, and competencies acquired by students through experience. With the exception of cooperative work experience (CWE) credits (see page 29), students receiving alternate credits are not eligible for state or federal aid for those credits.

The maximum number of credits that may be earned through credit for prior learning (a combination of credit by examination, advanced placement [AP], and military credit) is no more than 25 percent of the credits needed for a certificate or degree.

Credit by Examination: Currently enrolled students may obtain credit for certain courses by satisfactorily passing a comprehensive examination or series of examinations. A student may not obtain credit by examination for a course at a lower level than one in which he or she has already demonstrated competency. Some courses are not eligible for this program. Students wishing to obtain credit in this manner must pay a fee in addition to any other tuition and fees that the student may have paid in that quarter. The Office of Instruction, at 541-278-5969, has all forms and makes all arrangements for credit by examination. Students are limited to 15 credits by examination.

Advanced Placement (AP) Test: Students may earn credits in certain courses by taking tests administered by the Advanced Placement (AP) Program of the College Board. The Office of Enrollment Management will determine the exact number of credits in cooperation with the appropriate instructional department. Scores must be in the range of 3 to 5 to earn any credit. AP credits are transcripted with a P grade. All accepted AP credits are reflected on BMCC transcripts. Please contact the Registrar’s Office at 541-278-5759 or email getinfo@bluecc.edu for more information.

Military Credit: Military credit will be evaluated according to American Council of Education guidelines. Typically, credit is considered only when it is equivalent to regular course offerings. Military credits are restricted to a maximum of 12 credits.

Department-Based Prior Learning Credit: Departments have the ability to award prior learning credits. Please contact your academic department for more information.
Transfer Credits

Transferring Credits to BMCC
Students wishing to transfer credits to BMCC should complete an Academic Transcript Evaluation Request form, which can be found on our Website at www.bluecc.edu, at the Service Center on the Pendleton campus, or at any BMCC location. To evaluate credit transfers, the college requires official transcripts from other colleges.

Transferring Credits from BMCC
Up to 120 lower division transfer credit hours earned at a community college may transfer and be accepted toward graduation requirements by colleges and universities of the Oregon University System (OUS): University of Oregon, Oregon State University, Portland State University, Eastern Oregon University, Western Oregon University, Southern Oregon University, and Oregon Institute of Technology.

Discuss transferability of courses with both your academic advisor and the school to which you wish to transfer in order to facilitate a smooth transition from BMCC to a four-year institution.

Appeal of Graduation Requirements
A student wishing to request a course substitution be made to meet program requirements must first discuss this request with his or her advisor. If appropriate, the advisor will complete the necessary paperwork and submit it for signature to the instructor of the course involved, and then to the registrar.

If the instructor of the class involved and the registrar accept or deny the substitution, the information will become a part of the student’s permanent record.

If the above parties do not agree on acceptance or denial, the form will be sent to the Vice President of Instruction for final approval or denial, and the information will then become a part of the permanent records.

Students and their advisors will receive written notification of the decision made within two weeks of the date the request was received by the registrar.

Graduation
As a student, you are responsible for fulfilling the requirements for graduation and should work with your advisor to ensure that you complete degree or certificate requirements.

As a candidate for graduation, you must complete an Application for Graduation form at least two terms before the term in which you expect to complete your program requirements (refer to the academic calendar in the catalog for specific deadline dates). Your academic advisor will assist you in the completion of the graduation application and degree worksheets (check-off sheets) if needed. Completed forms are to be submitted to the Registrar’s Office.

Upon the college’s receipt and processing of the completed Application for Graduation form and applicable fee, you will be sent a graduation report (a list of courses still needed for graduation) and directions for viewing your completed degree audit through our Web-based degree audit (Conclusive Systems) system. Your advisor will be notified by email that the degree audit has been completed, and both you and your advisor will be asked to notify the Registrar’s Office should there be any discrepancies. A graduation file will be established for you at that time. Your degree audit becomes your official degree check-off for graduation purposes.

Degrees and certificates become official when recorded on your transcript, and diplomas will be mailed to you within two months after final grades have been posted and reviewed. Diplomas will be mailed to the address listed on your application for graduation.

If you do not graduate in the term identified on your Application for Graduation form, the Registrar’s Office will identify your final graduation requirements and communicate them to you and your advisor in writing. Your graduation file will be retained with the active files for a period of one (1) year from your intended date of graduation, as long as you and or your advisor remain in contact with the office.

If, you have not graduated after one year, your application will be returned to your student file and you will be required to reapply for graduation and pay the graduation fee again.

If you graduate with more than one degree, a separate Application for Graduation form must be filed for each degree. If you receive all degrees within one term you will only be required to pay one fee. If your degrees are not granted within one term, you will have to pay a separate fee for each degree.

If you plan to complete your program requirements during summer term, you may participate in commencement exercises held the preceding June, however you will not receive any earned honors distinction in the program or during the ceremony.

Additional Guidelines:
BMCC reviews and updates degree requirements annually. Please note that some of the requirements for graduation may change if your studies are interrupted by two or more years or if a course of study extends beyond five years. Depending upon the college certificate or degree you may be asked to complete updated requirements.

The following table outlines which catalog you may use in determining degree requirements for graduation.
If you are currently pursuing a BMCC degree program that is suspended by the college and you are involved in the “teach-out” of that program, you have up to three years from the date of the program suspension to obtain that degree. Following the three-year period, if you have not satisfied your degree requirements for that certificate/degree but still wish to obtain a certificate/degree, you must either apply your earned credits to a different BMCC program or transfer them to another institution.

If you had previously enrolled in the suspended certificate/degree program but have not yet received that certificate/degree and are not involved in the “teach-out,” you are no longer eligible to receive that certificate/degree once the program is suspended. You must either apply your earned credits to a different BMCC program or transfer them to another institution.

### College Costs

#### Tuition and Fees

Tuition and fees are subject to BMCC Board of Education policy and may be changed at any time. Please refer to our Web page at www.bluecc.edu or call the college at 541-278-5759 to obtain current rates.

Students are considered to be full-time when they are enrolled for 12 credit hours or more.

In-State Residents: For tuition purposes, Oregon residents and residents of California, Idaho, Montana, Nevada, and Washington are charged at the in-state resident rate of $63.50 for each credit hour, beginning with the fall term of the 2007-08 academic year.

Out-of-State Residents: The tuition rate for out-of-state students (other than the states listed above) is $190.50 for each credit hour, beginning with the fall term of the 2007-08 academic year. If out-of-state students obtain Oregon residency, they may be eligible to receive a tuition credit during the first term in which they are an Oregon resident, not to exceed fifty percent of the tuition that they paid the previous term. For more information contact the cashier in the Office of Enrollment Management.

International Students: The tuition rate for international students is $190.50 for each credit hour, beginning with the fall term of the 2007-08 academic year.

Senior Citizens: The tuition rate for a resident who is sixty-two years of age or older is fifty percent of the regular tuition rate for all credit classes. Course fees for non-credit classes and customized training are a $25 flat fee. Additionally, all other course, laboratory, or access fees apply. Normal registration procedures are required.

In all above categories, certain courses may require a laboratory or physical education fee in addition to tuition. Fees are listed in the Schedule of Classes where applicable. In general, the fees applied are as follows:

- **Adult High School Diploma and Credit Recovery Fee:** $30 for each half-credit each term plus a $20 book fee.
- **Agriculture Course Fee:** $30 each term if any agriculture class is taken; limit of one fee per student each term.
- **Art Class Fee:** certain courses are assigned a fee of up to $30; fees are listed in the Schedule of Classes where applicable.
- **Athletic Insurance Fee:** $140 each academic year (intercollegiate sports).
- **Audit Course Fee:** One-half of regular tuition.
- **Dental Student Fee:** $100 each term.
- **Distance Education Course Fee:** $85 for each distance education course.
- **Dual Credit Fee:** transcription fee of $10 each credit.
- **Graduation Fee:** $30 (includes diploma).
- **Late Add Fee:** $100.00 in addition to tuition charges and all other class fees.
- **Music Fee:** $15 class piano / class voice.
- **Music Fee:** $80 private lessons.
- **Nursing Student Fee:** $200 each term.
- **Official Transcript Fee:** $5 for each transcript
- **Physical Education Fee:** $10 for each course.
- **Prior Learning Credit:** (up to 12 credits) one-half of regular tuition plus applicable course fees.
- **Returned Check Fee:** $35 for each occurrence.
- **Science Laboratory Fee:** $10 for each hour of laboratory per week.
- **Security Fee:** $3 each term for students taking 1 or more credits.
- **Special Examination Fee:** varies (charges are based on the nature of the examination).
- **Special Program (ABE, GED, or ESL) Fee:** $25 one time, each term.
- **Student Access Fee:** $15 each term for students taking 1 or more credit hours.
- **Student Activity Fee:** $1.50 for each credit hour.
- **Tech Fee:** $1 per credit for credit classes, $1 per course for non-credit classes.

In addition to the fees listed above, certain courses and services (such as computer-aided drafting, emergency
medical technician, and industrial maintenance technology) may have additional fees associated with them. Students should check the Schedule of Courses to determine specific fees.

Payment of the stipulated fees by full-time and part-time students registered for academic credit entitles them to all services maintained by the college for the benefit of students. These services include use of the college student union, computer laboratories, library, laboratory and course equipment, materials in connection with courses for which the students are registered, and admission to some events sponsored by the college. No reduction in fees is made for students who do not intend to avail themselves of these services.

Paying Tuition

Tuition and fees are payable in full by cash, check, or credit card (Visa or MasterCard) by the fifth class day, or the equivalent percentage of days of terms or classes of varying length. Students may also use financial aid funds or third-party agency funds to pay their tuition and fees if they are eligible for these funds. Payments can be made at any location, by mail, or through the Student WolfWeb.

Tuition Installment Plan: BMCC’s tuition installment payment plan is designed to assist students in paying their tuition and fees by setting a reasonable timetable and structure for payment. Students may sign up for this plan at the business office window at the Pendleton campus, at the front office at the centers, or through the BMCC Website. An agreement is not binding for the college until a representative of the business office has signed the completed form. Upon such signature, BMCC will return a copy of the signed document to the student. The plan will consist of a down payment of $100 plus a $20 processing fee. The balance of tuition and fees will be paid in two installments due at the fourth and eighth week of the term (or equivalent for terms of varying length). Late fees of $15 will be charged for each late payment.

Late Payment Fees: Students who have not paid or made payment arrangements by the end of the fifth class day in each term, or the equivalent days of classes of varying length will be assessed late fees. The fee is 3% of the balance due assessed monthly until the balance is paid. The minimum charge is $10 and the maximum charge is $75 per term.

Tuition Refund Policy

Students who withdraw from courses and who have complied with regulations governing withdrawals are entitled to certain tuition refunds depending on the time of withdrawal. Tuition refunds are calculated as follows:

- First five class days or the equivalent day of terms or classes of varying length: 100 percent.
- After the first five class days or the equivalent day of terms or classes of varying length: 0 percent.

Financial Assistance

Federal School Code: 003186

Federal and State Aid

Blue Mountain Community College’s Student Financial Assistance Office is located in Morrow Hall on the Pendleton campus and can be accessed through the Service Center. Please check our Website for hours of operation. Students can contact the Students Financial Assistance Office by phone at 541-278-5790 or by email at finaid@bluecc.edu. The financial assistance staff is available to students in applying for and receiving the following sources of financial aid:

- Federal and state aid
- Certification of a veteran’s education benefits
- Student employment
- BMCC tuition scholarships (athletic, music, drama, and skills challenge)
- Emergency loans (available on a very limited basis and as funding allows)

BMCC participates in the following types of federal and state aid:

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Academic Competitiveness Grant (ACG)
- Federal Work Study
- Federal Family Education Loan (FFEL, Federal Stafford Subsidized and Unsubsidized)
- Federal PLUS (Parent Loans for Undergraduate Students)
- Oregon Opportunity Grant

Applying for Federal and State Aid: Students must file a FAFSA (Free Application for Federal Student Aid) form annually in order to receive federal and state aid. Students may apply online at www.fafsa.ed.gov or may complete and submit a paper application. Be sure to include BMCC’s Federal School Code (003186) so that BMCC receives the FAFSA information. Applying online can reduce the amount of time for processing financial aid by approximately three weeks. Note: January 1 is the first day of the financial aid application period for the next academic year.

Disbursement of Aid: Students will receive the balance of their financial aid, if they have a credit balance on their student account, in the mail. Checks are mailed out approximately eight days after the start of the term (typically mailed on the Tuesday following the first week of classes with the exception of summer term, which cannot be disbursed until July 1). For actual disbursement dates, please check the financial assistance page on our website at www.bluecc.edu.

Aid-Ineligible Courses: Students need to be aware that, depending upon which degree they are seeking, there may be courses that are deemed aid-ineligible. For a current list of aid-ineligible courses by degree or certificate, refer to the financial assistance pages of the BMCC website at www.bluecc.edu.
Mid-Year Transfer Students: A student who transfers to BMCC during a given academic year and who received financial aid at the previous college should contact the BMCC Student Financial Assistance Office as soon as possible. In most cases, the student’s federal and or state aid award at BMCC will be reduced by the amount of aid that he or she received at the previous college.

Tackling Courses at BMCC AND another Institution (Co-enrolled): Students planning to take courses from BMCC and another college in the same term must complete a consortium agreement and a transfer-course evaluation form. The consortium agreement is valid for one academic year; however, students must complete the transfer-course evaluation form for each term and for each college from which the student plans to take courses. To obtain forms and additional information regarding co-enrollment, contact the Student Financial Assistance Office at 541-278-5790 or email finaid@bluecc.edu.

Second Degree: Students who have received an associate’s, bachelor’s, or master’s degree and who wish to receive financial aid from BMCC must complete a length of time (LOT) appeal and submit it, along with appropriate documentation, to the Student Financial Assistance Office. Students will be notified in writing of the decision made within two weeks. The appeal process does not guarantee an award.

Total Withdrawal and Return of Federal Aid: When students withdraw from or quit attending all classes before completing more than 60.01 percent of the term for which they are eligible, aid will be recalculated based upon the percent of the term completed. For example, if a student withdraws after completing only thirty percent of the term, the student will have “earned” only thirty percent of the federal aid received (other than Federal Work Study). The student and/or BMCC must return (repay) the remaining seventy percent of the federal funds he or she received to the federal government. This policy applies to all students receiving federal Title IV aid who withdraw, drop out, or are suspended from BMCC. Types of federal Title IV funds that students can receive while attending BMCC included in this policy are: Federal Pell Grant, FSEOG, ACG and FFEL (Federal Stafford Loans).

For additional information regarding this policy and for more detailed information about financial aid, please visit BMCC’s website at www.bluecc.edu or contact the Student Financial Assistance Office.

Other Financial Assistance

Foundation Scholarships

The Blue Mountain Community College Foundation offers scholarships to both full- and part-time students. Scholarship information and scholarship applications are posted on the college Website, www.bluecc.edu. Most full-time scholarships are awarded during spring term for the next academic year. Scholarships for part-time students may be available each term. An applicant must be enrolled before a scholarship can be awarded. Stipulations concerning financial need, credit hours, grade point average, and area of study may apply.

The BMCC Foundation posts information on its scholarships as well as information that it receives from local civic groups; fraternal organizations; and state, regional and national agencies. For further information, contact 541-278-5775.

BMCC High School Student Tuition Scholarships

Blue Mountain Community College has scholarships available to students graduating from each of the high schools located in our tri-county area. Scholarship applications are made available at each of the area high schools in February and have a March deadline. Students should contact their high school counselors for further information.

Emergency Loans

BMCC’s emergency loan procedure is designed to assist students with direct educationally related costs (books and supplies) in the period between the start of classes and financial aid disbursement. A student may, in very rare instances, receive an emergency loan without the benefit of forthcoming financial aid. Applicants must demonstrate a need that is unanticipated in nature or is the result of an unanticipated expense. If a student is receiving financial aid, he or she must demonstrate a need that cannot be deferred until the day of financial aid disbursement. For assistance with this process, please contact a staff member at any BMCC location or email finaid@bluecc.edu.

Book Vouchers

The book voucher program is designed to help students with financial aid awards in excess of their tuition and fees, to purchase texts and materials for classes in the period between the start of classes and financial aid disbursement. Such students may obtain book vouchers at the BMCC Service Center located in Morrow Hall on the Pendleton campus. Students who are not able to travel to the Pendleton campus may work with the staff at the BMCC location where they are attending classes. Bookstore charges will be applied to the student’s account and deducted from available financial aid. In no case will a student be allowed to charge beyond the amount available on his or her student account.

Student Employment

BMCC has a variety of positions open to students throughout the year. Please contact the Student Financial Assistance Office, at 541-278-5790 or finaid@bluecc.edu, for additional information, to view open positions, and apply for jobs. Students will be required to attend a new student employee orientation session and complete all required paperwork before employment begins. For information including the Student Employment Handbook, and a list of available positions, go to www.bluecc.edu.

Veterans’ Educational Benefits

BMCC’s certifying official for veterans’ affairs is located in the Student Financial Assistance Office in Morrow Hall on the Pendleton campus.
**General Information about applying:** In order to receive Veterans Administration (VA) educational benefits veterans must:

- Take the BMCC placement test to determine proper course placement before enrollment
- Be assigned an academic advisor
- Be pursuing a BMCC degree or certificate

To begin receiving educational benefits, veterans must complete the following steps:

(Chapter 30)—Discharged from Active Duty
Apply for education benefits (Form 1990) online at http://vabenefits.vba.va.gov/vonapp/main.asp

Once the online application has been completed, the veteran must provide the office with all of the following completed documents:
- Copy of the veteran’s DD-214
- BMCC enrollment certification information form
- BMCC veteran’s student rights and responsibilities form

(Chapter 1606)—Reserves
Apply for education benefits (Form 1990) online at http://vabenefits.vba.va.gov/vonapp/main.asp

Once the online application has been completed, the veteran must provide the office with all of the following completed documents:
- Copy of the Veteran’s Notice of Basic Eligibility (NOBE)
- BMCC enrollment certification information form
- BMCC veteran’s student rights and responsibilities form

(Chapter 35)—Dependents’ Education Assistance
Apply for survivors and dependents education benefits (Form 5490) online at http://vabenefits.vba.va.gov/vonapp/main.asp

Once the online application has been completed, the dependent/survivor must provide the office with all of the following completed documents:
- BMCC enrollment certification information form (to include the VA file number of the veteran)
- BMCC veteran’s student rights and responsibilities form

The BMCC enrollment certification information and BMCC veteran’s student rights and responsibilities forms can be found on the Financial Assistance page of BMCC’s Website.

Note: other documentation may be required depending on the VA chapter. The veterans’ clerk may certify a veteran’s enrollment for up to one academic year. A new enrollment certification form must be completed each year. Contact the veterans’ clerk at 541-278-5790 or email finaid@bluecc.edu for more information.

Send completed information to the veterans’ clerk at BMCC, P.O. Box 100, Pendleton, OR 97801. Please allow two to three weeks for processing and certification of your enrollment to the VA. Upon receipt of the certification, the VA may take additional time to process your payments. Typically, students are paid monthly for the prior month’s enrollment. For example, you will receive payment in the month of October for September class days, and in November you will receive payment for October. Tuition will be due before you receive your first VA payment. If you are unable to pay your tuition in full by the due date, you may set up a tuition installment plan with the BMCC Business Office or before the due date. If you cannot make any payments, late fees will be added to the cost of your tuition if you do not drop the courses by the specified date. Tuition due dates are posted on our Website, in the student handbook, and at various locations at the Pendleton campus and the college locations.

**Additional Information About Veterans’ Benefits:**

The following rules apply to non-punitive grades. Benefits will not be paid for a grade of audit (AU). If a grade of incomplete (INC) is given, the veteran has one year from that date to complete the class and receive a letter grade.

**Program Changes:** Veterans who will be changing their degree program must contact the veterans’ clerk immediately. A request for change of program form must be completed and the change must be submitted to the VA.

**Transfer Students:** Students must provide official grade transcripts from all colleges or postsecondary schools previously attended. Transcripts should be sent to: Blue Mountain Community College, Office of Enrollment Management, P.O. Box 100, Pendleton, OR 97801.

It is the responsibility of the veteran to request a transcript evaluation from the Office of Enrollment Management at the Pendleton campus. In addition, a Change of Program form must be completed and returned to the veterans’ clerk. The veterans’ clerk will forward all changes to the VA. The VA clerk may certify up to one term in a pending status while awaiting completion of the transcript evaluation. If the evaluation has not been completed by the end of that term, no further certification will be made until the completed evaluation has been received.

**Advance Pay Request:** Veterans who need financial aid to begin classes may request advance pay for the first term. Requests must be made four to six weeks before the beginning of the term. With advance pay, veterans are paid for the first two months of the term; however, the VA pays based on the number of days that the veteran was enrolled for a given month. For example, if fall term begins the last week of September, the advance paycheck would be for part of September and all of October. The advance check is sent directly to the BMCC Business Office.

**Certification Periods:** The VA clerk will certify based on BMCC’s official academic calendar. Some courses vary in length. The VA clerk will certify enrollment according to each course’s beginning and ending dates, which may affect the rate of pay. If you have questions, please contact the VA clerk.

**Pay Table:** Rates of pay depend on the veteran’s chapter and his or her enrollment level. BMCC will inform the VA of any changes during the term, which may result in adjustments to the monthly allowance. It is the veteran’s responsibility to report any changes to the veterans’ clerk.
Pay rates are updated each year, usually in October. Veterans may be eligible for additional tuition assistance, or "kickers." The VA can provide information regarding additional eligibility. Additional information and the current pay table are available at www.gibill.va.gov or at the Veterans Administration by calling 1-888-442-4551.

Other Assistance to Veterans
In addition to certifying standard veterans' benefits, BMCC offers the following benefits to veterans and their spouses:

Returning Veterans Enrollment Incentive: Available to any member of the armed services currently on active duty or honorably discharged within the last eighteen months. Veterans who qualify will have the first year of tuition for credited classes discounted by fifty percent. This benefit does not cover books, supplies, and fees, unless they are funded by the Montgomery GI Bill or tuition assistance.

Tuition Waiver for Spouses of Deployed Military Personnel: This benefit pertains to military spouses and dependents of military personnel deployed with units of Army /Air National Guard and other military services. Applicants need to provide orders or other verification from the branch of service of eligibility to BMCC's veterans' certifying official. The Oregon State Military Education Department can assist in the process of verifying deployment orders and dependency issues. Qualifying students are charged tuition at $30 for each credit up to 12 credits, with a minimum class load of 6 credits. For any credits taken above 12, the student pays full tuition.

For additional information, please contact the Student Financial Assistance Office at 541-278-5790 or by email at finaid@bluecc.edu.

Services and Programs for Students

Academic Services

Testing Services
Testing services are available at all BMCC locations. Services will vary by site. Contact the BMCC location nearest you for schedules, appointments, and details.

The Advising and Testing Centers provide placement-testing services to help a diverse student population successfully achieve their educational goals. The Advising and Testing Centers also provide test-proctoring services for distance education students, special accommodations testing, and GED testing. In addition, the Advising and Testing Center on the Pendleton campus provides testing services for a variety of tests for professional licenses and certifications. Information on other testing services is available upon request.

Academic Advising
The Academic Advising Philosophy at Blue Mountain Community College states, "Academic advising is a collaborative process through which advisors assist students with timely, meaningful educational planning that is compatible with the students' life goals. The advisor serves as teacher and guide in an interactive partnership with the student. Advising encourages students to think critically, seek out resources, and develop action plans."

As a student success strategy, BMCC requires all degree-seeking students, whether full- or part-time, to work with an advisor to plan and develop his or her academic career path. Advisors work with students to help ensure they are taking classes that apply to their chosen degree plan and that are appropriate for the students' level of readiness and preparedness for a variety of courses. Advisors also help students navigate the complex world of degree audits, graduation, academic support systems, and transfer information.

An advisor will be assigned to students seeking a degree; however, academic advising is available for every student at BMCC, whether degree-seeking or not, to help them effectively plan to meet their educational goals. There is an advisor for every academic program at BMCC. Students planning to transfer to a four-year college or university can find catalogs, applications, scholarship information, and other helpful information from all Oregon University System schools and other colleges in the Pacific Northwest by contacting the Advising and Testing Center at the Pendleton campus or by visiting the BMCC Library.

To see an advisor, you can call or stop by the Advising and Testing Center in Pendleton (Morrow Hall, room 118), call 541-278-5931 in Pendleton or contact the location nearest you to have an advisor assigned. You can set up appointments directly through your assigned advisor or the locations can set them up for you.

Timberwolves Introduction

Timberwolves Introduction (TwI) is a mandatory six-hour workshop for all new and transfer students. TwI introduces students to academic culture, purpose, expectations, success, and transfer. Advisors work with students to help ensure they are taking classes that apply to their chosen degree plan and that are appropriate for the students' level of readiness and preparedness for a variety of courses. Advisors also help students navigate the complex world of degree audits, graduation, academic support systems, and transfer information.

An advisor will be assigned to students seeking a degree; however, academic advising is available for every student at BMCC, whether degree-seeking or not, to help them effectively plan to meet their educational goals. There is an advisor for every academic program at BMCC. Students planning to transfer to a four-year college or university can find catalogs, applications, scholarship information, and other helpful information from all Oregon University System schools and other colleges in the Pacific Northwest by contacting the Advising and Testing Center at the Pendleton campus or by visiting the BMCC Library.

To see an advisor, you can call or stop by the Advising and Testing Center in Pendleton (Morrow Hall, room 118), call 541-278-5931 in Pendleton or contact the location nearest you to have an advisor assigned. You can set up appointments directly through your assigned advisor or the locations can set them up for you.
Bookstore

The BMCC Bookstore is located adjacent to the library in Pioneer Hall at the BMCC campus in Pendleton and provides services to all students at all BMCC locations. Bookstore products and services include new and used textbooks, study aides, calculators, school and art supplies, sundries, and stamps. The Bookstore also offers a wide selection of clothing, gifts, snacks, and beverages. Academic pricing on computer software is also available to those who qualify.

Textbooks are also made available at our locations in Baker City, Milton-Freewater, and Hermiston for classes held at those locations. If you are taking classes at any other location and have questions about textbook purchases, please contact the location directly.

Please contact the bookstore if you need information on book refund and buy-back policies.

For your convenience, the bookstore provides a website at www.bookstore.bluecc.edu for ordering textbooks online. For more information or questions regarding the site, please contact the Bookstore at 541-278-5733.

Food Service

Food service is available on the Pendleton campus between 10:00 a.m. and 2 p.m., Monday through Friday, during days on which classes meet. Special open and close times will be posted in the cafeteria.

Library and Media Services

The BMCC Library and Media Center plays a vital role in the teaching and learning process. Through its various services, the center connects people, technology, and resource collections for student success in academics and in the pursuit of lifelong learning goals.

Located in Pioneer Hall on the Pendleton campus, the library provides a physical space for BMCC students, staff and faculty, and the general public to use a carefully selected collection of books, audio and video tapes, DVDs, periodical titles, and newspaper subscriptions. Students may browse current journals, magazines, and regional newspapers. Individual carrels accommodate quiet study while mezzanine rooms provide for small group work and media listening/viewing sessions. Computer workstations and networked study carrels for laptops are available along with a copier and laser printer.

The library’s Web-based homepage expands its collection and the availability of library services to students. Here, research is guided by links to subscription-based indexes, full-text databases, request forms, study aids, and tutorials. To find the homepage, students should go to www.bluecc.edu. The online public catalog provides rapid identification of media and print holdings at BMCC, other schools, and public and academic libraries in eastern Oregon. BMCC library cards, available to all students, allow students to gain additional services, including access to Web-based journal and newspaper databases, electronic reserves, and direct online requesting for materials not in the BMCC library. Librarians and staff are available for reference assistance and course-related research instruction. Also see our “Ask a Librarian” feature on the library homepage.

Regardless of when and where students participate in courses, the Library and Media Center is available to retrieve and evaluate information in a society that places increasing importance upon these skills. For more information, call 541-278-5916.

Services for Students with Disabilities

The Office of Enrollment Management is committed to providing equal access to all qualified students with disabilities who qualify with proper documentation. Providing reasonable services to students with disabilities to remove barriers to physical spaces and program access is an important goal at BMCC. Faculty and staff are informed, understanding, and supportive.

Students may request services at any time and are expected to provide appropriate documentation of their disability(-ies) at the time of the initial request. Those requiring assistance with any step of the process for services for disabilities or with any process on campus (such as admissions and
Stresses academic, personal and athletic excellence. Emphasizes the value of teamwork. Creates a positive, lasting memory of BMCC for each student. Strengthens success and available on... available on-line at www.bluecc.edu. Instructors may refer students who need tutoring to the Department of College Preparatory Programs or students may come to the department on their own initiative. Students who want to be peer tutors must apply to the Department of College Preparatory Programs and subsequently be approved by the instructor. The number of peer tutoring positions is dependent upon instructor approval and available funding.

TRiO Student Support Services

TRiO/Student Support Services works with students to provide comprehensive academic support. Nationwide, students who are part of a TRiO program tend to have higher GPAs and earn more credits than those who are not involved with TRiO. The TRiO program at BMCC offers a student computer lab, professional and peer tutoring, advising and four-year transfer assistance, workshops on study strategies and time management, book and calculator loans, snacks, and a place to meet other BMCC students.

To qualify, you must be a U.S. citizen, seeking a degree, and meet at least one of the following criteria: be a first-generation student (neither parent graduated with a bachelor’s degree), have low income, or have a documented disability.

For more information or to see if you might qualify, drop by the TRiO offices on the Pendleton campus in Morrow Hall, Room M141, or call 278-5853. The application is also available on-line at www.bluecc.edu.

Co-Curricular Activities

Athletics

BMCC participates in both the Northwest Athletic Association of Community Colleges (NWAACC) and the National Intercollegiate Rodeo Association (NIRA). The NWAACC is the parent organization for thirty-six community colleges in Oregon and Washington. BMCC sponsors athletic teams under the NWAACC, including women's volleyball, men's and women's basketball, women's softball, and men's baseball. The BMCC rodeo team competes in the NIRA Northwest Region with universities and colleges from Oregon, Washington, and Idaho. NWAACC and NIRA colleges provide a variety of academic and vocational offerings as well as many enrichment activities for their students.

Under the guidance of BMCC's coaches and athletics director, student athletes will be part of an athletic program that:

- Stresses academic, personal and athletic excellence.
- Strengthens success-producing traits such as dedication, discipline, focus, integrity, communication, organization, and leadership.
- Emphasizes the value of teamwork.
- Creates a positive, lasting memory of BMCC for each athlete.

BMCC has been active in the rodeo world almost since the college was founded. Our men's and women's rodeo teams compete in intercollegiate rodeos throughout the Northwest and nationally. The team has enjoyed great success over the years by winning numerous regional championships and by winning the national championship in 1987 and the national reserve championship in 1999. The BMCC rodeo team has produced many regional and national champions who have gone on to participate in the Professional Rodeo Cowboys Association (PRCA) and become world and national PRCA champions.

Students interested in becoming part of the Timberwolves' pride and spirit are encouraged to contact the BMCC Athletics Department or team coach.

Clubs

BMCC offers a variety of student activities that enhance the cultural atmosphere of the Pendleton campus and provide educational, recreational, social, and leadership opportunities for interested students. For more information contact the Associated Student Government (ASG) in Pioneer Hall on the Pendleton campus.

Housing

Students living away from home must assume responsibility for housing arrangements. BMCC does not provide on-
Student Ambassadors

BMCC student ambassadors represent various regions, programs, issues, and interests of the student body. They participate in recruitment events and college fairs, visit high schools, give campus tours, contact potential students, and represent BMCC to the community.

The student ambassadors’ primary function is to provide leadership, assistance, and information to prospective BMCC students. The program is an exciting opportunity that helps students develop their leadership skills, while making lifelong friends. An ambassador can make a difference in a prospective student’s outlook by giving him/her information about transition into college life and how to make the most out of their college experience.

In exchange for weekly service, student ambassadors receive tuition waivers and leadership training. Ambassador selection is made spring term for the following academic year. For more information contact the Office of Recruitment at 541-278-5936.

Student Government

Blue Mountain Community College has an active student government that is supported through the Office of Enrollment Management. The Associated Student Government (ASG) is responsible for planning various cultural, governmental, and entertainment events as well as contributing to college governance committees. The executive committee of the ASG consists of the president, vice president, secretary, treasurer, club coordinator, publicity director, and outreach liaison officer. The remaining members of the ASG are student senators. BMCC students interested in becoming an active member of ASG should contact an executive committee member at 541-278-5948 or by email at asgbmcc@bluecc.edu. All BMCC students are encouraged to become involved.

Music

The Department of Music offers opportunities for students to participate in a myriad of award-winning performing ensembles, including choir, vocal jazz ensemble, the College Community Jazz Band, and two local symphonies. Students may take inexpensive lessons in guitar, piano, and voice, and avail themselves of opportunities to develop musicianship and songwriting skills. Departmental offerings also include survey courses in traditional Western European art music and the history of jazz, rock, and country music. A small vocal ensemble is available to perform for local service groups and at area schools. For more information about this program, please call the music department at 541-278-5944.

Publications

Wolf Echoes is the campus newsletter written, edited, and managed by the Associated Student Government. Students interested in contributing information or articles may contact the ASG publicity officer at 541-278-5948 or by email at: asgbmcc@bluecc.edu.

College Preparatory (CP) Programs

The Department of College Preparatory Programs is located in Morrow Hall Room 135 on the Pendleton campus. The hours of operation are Monday through Friday 8:00 a.m. to 5:00 p.m.

The CP department includes the following program areas: adult basic education (ABE), general educational development (GED) preparation, adult high school diploma (AHSD), English as a second language (ESL), college preparation courses, and the tutoring program. CP also offers the following transfer courses: HD100 College Survival and Success, HD110 Career Planning, and HD109 Academics Planning. For more information about any of these programs, call 541-278-5803 or go to www.bluecc.edu.

Adult Basic Education (ABE)

The ABE program serves students who are at least sixteen years of age and not enrolled in school. Students who are sixteen and seventeen must have a release from the high school district in which they reside. Students in the ABE program must take CASAS tests as part of the entry requirements and demonstrate functioning skills below the post-secondary level.

ABE instruction is available for students interested in improving basic skills in reading, writing, and/or math. ABE programs operate at the following BMCC locations: Pendleton, Hermiston, Baker City, Milton-Freewater, Boardman, Enterprise, and John Day.

Adult High School Diploma (AHSD)

The AHSD program is designed for students who choose to fulfill all credit and competency requirements deemed necessary for a high school diploma in Oregon. Students can earn credits by attending approved college courses.
Students earning an AHSD through BMCC may participate in the BMCC commencement exercises held in June. Before beginning the program, students must submit high school transcripts to the BMCC Service Center in Pendleton to be evaluated. Students must work closely with their advisor and the CP department to ensure that college credits count toward the AHSD.

**English as a Second Language (ESL)**

ESL instruction is offered for people for whom English is not their primary language. They can receive instruction in oral communication, adult survival skills, and English reading and writing skills. ESL courses are available at the following BMCC locations: Pendleton, Hermiston, Milton-Freewater, Boardman, and Baker City.

**General Educational Development (GED)**

GED preparation is available for students who are studying to pass the battery of GED tests. Instruction is available in reading, writing, and math either in the classroom or via distance education. GED preparation courses are available at the following BMCC locations: Pendleton, Hermiston, Milton-Freewater, Boardman, and Enterprise, and John Day.

The GED certificate is earned when the student receives passing scores on the five parts of this standardized exam. A school release is required before an individual under eighteen years of age may attempt the test. Information on testing and school release may be obtained from the BMCC Advising and Testing Center in Pendleton at 541.278.5931.

Students earning a GED may participate in the BMCC commencement exercises held in June.

**JOBS Program**

JOBS (Job Opportunities and Basic Skills) for Oregon’s Future is a community-based program designed in response to federal legislation to provide an opportunity for families on public assistance with children to obtain education, training, and employment that will allow them to become self-sufficient.

As the prime contractor for this program, BMCC offers basic skills, pre-employment skill development, work simulation, and work experience to participants at sites in Pendleton, Hermiston, and Milton-Freewater. The basic emphasis is for individuals to improve academic skills and, if appropriate, earn a GED. Work-readiness activities are offered in a variety of settings to facilitate self-awareness and job-readiness skill development, which will empower the participant and encourage independence. For more information, please call 541-276-9050, extension 229.

**College Preparation Courses**

College preparation courses include language arts, math and writing. Students are placed in college preparation courses by the scores they have received on the COMPASS placement exams. Students can also decide independently to take college preparation courses to improve their basic skills knowledge. In addition, students can be referred by their instructors based upon the student’s performance in class. College preparation courses are offered at the following BMCC locations: Pendleton, Hermiston, Milton-Freewater, and Baker City.

**Academic Partnerships**

**Business Partnerships**

**Apprenticeships**

Blue Mountain Community College oversees the training of more than 100 apprentices under contract with the Oregon Bureau of Labor and Industry (BOLI). Employers are encouraged to contact BOLI for apprenticeship benefits and requirements. A list of almost ninety apprenticeship trades can be found at www.boli.state.or.us/apprenticeship/aptrng.html. For more information and BOLI contacts, call 541-278-5854. You may also contact the BMCC Office of Instruction at 541-278-5930. More information can also be found on page 53 of this catalog.

**Cooperative Work Experience (CWE)**

Students may earn college credit for cooperative work experience (CWE) related to their occupational goal. Such work experience must take place at work sites approved by the college and be monitored by the course instructor. The experience may be in business, industry, agriculture, or education, or with public service agencies that are willing to enter into work experience agreements with the college.

To find out more about the CWE program, check with the course instructor, your advisor, or contact the Office of Enrollment Management.

**Customized Training Services**

Each business has unique education and training needs. BMCC’s customized training team can meet those needs with everything from existing courses to custom-designed programs. Examples include staff training on the use of the Internet for ordering tools and supplies, GED preparation between shifts, and job-specific skills taught by on-site experts. BMCC’s Department of Customized Training has made training possible and cost-effective for both large and small businesses.
National certification programs in office software, customer service, and ammonia refrigeration are three examples of customized training available to keep pace with technology. Whether you are processing insurance claims or manufacturing recreational vehicles, BMCC’s customized training team can help make your employees more skilled and your organization more competitive. For more information, go to our Website at www.bluecc.edu or call us toll-free at 888-441-7232.

Farm Business Management Program
BMCC’s Farm Business Management (FBM) Program is designed to help farmers and ranchers with the management aspect of their business. The program is flexible and adaptable to serve the unique needs of each farm and ranch business client, who may enter classes or arrange individual sessions at any time of the year for various lengths of time. The benefits of this program include individualized instruction in an applied learning environment and access to low-cost courses through extended campus sites.

The FBM program provides instruction in accurate record keeping and accounting, information-based decision making, and projecting and analyzing costs of production. The program introduces user-friendly business tools and provides support for implementing management plans and strategies. The FBM program meets the requirements for some agriculture lenders. For more information please contact an agriculture advisor at 541-278-5845 or the department secretary at 541-278-5868.

Small Business Development Center
BMCC’s Small Business Development Center was created in 1984 to help start-up and established businesses under a federal partnership with community colleges and universities throughout the United States. There are now more than twenty centers in Oregon and more than 1,000 located throughout the United States.

Whether you are starting a new business or growing an existing one, make the Small Business Development Center your first stop. Located at our Pendleton and Hermiston offices, our SBDC staff offers free, confidential counseling by experienced business professionals; learning and reference materials; workshops and courses; and free high-speed Internet access and videoconferencing.

Do you already own an established business? Join our Small Business Management (SBM) Program. You will get expert, one-on-one help with finance, marketing, human resources, operations, and product development. The program creates an environment in which owners can freely discuss their common and individual opportunities and challenges. A wide variety of businesses have participated during the SBM program’s twenty years of operation.

Contact us today toll-free at 888-441-7232; in Pendleton at 276-6233; or in Hermiston at 564-0921 extension 3341. You can also email us at sbdc@bluecc.edu or check our website at www.bluecc.edu.

High School Partnerships
In cooperation with many high schools and the local education service district (ESD), BMCC offers a state approved dual-credit program. Students at a public high school that has an articulation agreement with BMCC may meet the educational requirements of both the high school and a college-level BMCC course if they are enrolled for dual credit. This challenging course work offers students the opportunity to begin a college transcript while still enrolled in high school. Dual-credit courses and credits appear on a BMCC transcript as though they were taken at a Blue Mountain Community College site. Dual-credit courses normally transfer to four-year institutions in the same way as any other BMCC course work. Not all courses are available at every high school. High school students may check with their high school counselors and teachers for course availability, costs, and other requirements, or they may check with the ESD for further information. Students should also check with the college to which they wish to transfer, if they want to ensure that dual-credit course work will transfer.

In conformance with the Oregon “Expanded Options” legislation, BMCC’s dual-enrollment program offers students at participating high schools the ability to take BMCC classes and earn credit toward high school graduation and a college degree at the same time. Much of the cost of the college classes is covered by the high school until the student graduates from high school. Each high school will set its own criteria for entry into the program and will monitor student progress. College-level credits earned will be transcripted through BMCC and are transferable to other colleges.

To clarify, students taking dual credit coursework take classes at their high school from high school instructors approved by the college to teach college coursework. Students participating in the expanded options program course at the college from college instructors with other college students, and the high school pays some or all of the related costs in accordance with the agreement on file between the two organizations. Details may be obtained from the students’ local high school; their local ESD; or the Office of Enrollment Management at BMCC.

Inter-College Partnerships
CUESTE: Teacher Education Program
CUESTE (pronounced “quest”) stands for Curriculum of Undergraduate Elementary School Teacher Education. Eastern Oregon University (EOU) and BMCC work together to bring the CUESTE program to students through the local community college district.

Students seeking elementary teacher licensure need to complete a major in multidisciplinary studies, a minor in an academic area or course of study, and a minor in elementary education. The completion of these requirements leads to a bachelor’s degree (science or art) in multidisciplinary studies, a minor in elementary education, and licensure as a teacher with certification in elementary grades and primary.

BMCC offers the first two years of the associate of arts transfer (A.A.O.T.) degree, and EOU provides the last two
years of the elementary education degree at BMCC’s Pendleton campus. Two full-time EOU education professors are in residence at BMCC’s Pendleton campus to advise students, teach classes, and coordinate EOU and BMCC processes. (Please note: Much of the major course work for secondary teaching certification may be acquired through distance education courses available from EOU and BMCC. However, the secondary education component needs to be completed on EOU’s campus in La Grande.)

CUESTE is a highly prescriptive program that entails several key elements:

1. Multidisciplinary Studies Degree. This degree requires students to have core courses, experiences, and competencies in social science, humanities, natural sciences, mathematics, creative arts, and music. This degree requires a total of approximately 120 credit hours of BMCC classes. Students also earn their A.A.O.T. from BMCC when completing these requirements.

2. Academic Minor, Course of Study, or Endorsement Preparation. This component requires a minimum of 30 credit hours in a field of study or interest that is limited to those disciplines that are traditionally taught in elementary schools. Currently, EOU is offering an ESOL/Literacy Course of Study track which includes 15 credits of lower division (100/200 level) courses in an academic area and 15 credits of upper division (300/400 level) courses. In some cases, the 15 lower division credits can be worked into the 120 credit hours of the multidisciplinary studies degree mentioned above. When students are within 100 credit hours of finishing the CUESTE program requirements, they may apply to EOU’s CUESTE program.

To receive a license to teach in Oregon, students must complete their bachelor’s degree and a teacher licensure program (CUESTE at EOU) and successfully pass the standardized tests as outlined by the Teacher Standards and Practices Commission (TSPC). For more information regarding the CUESTE program call 541-278-5802.

Eastern Oregon Collaborative Colleges Council (EOCCC)

BMCC, Treasure Valley Community College (TVCC), and Eastern Oregon University (EOU) have worked together in several academic disciplines to improve articulation opportunities for students, allowing them to share lower division course work among BMCC, TVCC, and EOU; to transfer those credits to EOU; and to complete upper-division courses at EOU culminating in a four-year degree.

For more information on the co-enrollment process, please contact the Office of Enrollment Management in Morrow Hall or call 541-278-5759.

Medical Laboratory Technician (MLT) Program

(Limited entry program)

Blue Mountain Community College has partnered with Wenatchee Valley College (WVC) in Washington State, and with Interpath Labs, a local business, to offer an associate of technical sciences degree. BMCC offers the program’s first-year courses, and WVC offers the second-year courses through interactive television broadcast to the BMCC Pendleton campus. Students are able to stay in eastern Oregon while working toward their degree. Interpath Labs works with BMCC to place students in clinical settings, which is required as part of the curriculum. Students completing the program receive their degree from WVC.

Using state-of-the-art diagnostic equipment and procedures, medical laboratory technicians analyze blood samples in hospitals, laboratories, and clinics to determine the nature and cause of suspected illnesses. Even though the medical laboratory technician position ranks twenty-third out of 250 in a recent job satisfaction survey, there are not nearly enough MLTs to meet the nation’s health care needs.

For more information about this exciting educational opportunity, visit either BMCC’s website at www.bluecc.edu or Wenatchee Valley’s MLT site at http://www.wvc.edu/directory/departments/medlabtech/default.asp. Students may also contact a BMCC advisor at 541-278-5876 for information.

Radiologic Technologist

Blue Mountain Community College, Linn Benton Community College (LBCC), St. Anthony Hospital, St. Elizabeth Hospital, and Blue Mountain Hospital have partnered to offer an associate of general studies degree, and a certificate in diagnostic imaging. BMCC offers the program’s first-year courses, and LBCC offers academic and clinical education through a variety of learning technologies including the Blackboard Web-based learning management system, streamed video and audio files, email, Web conferencing, and lab practice with clinical mentors. Clinical education is provided in a variety of settings and prepares the student for work as an entry-level radiologic technologist. Students are able to stay in eastern Oregon while working toward their degree. Students completing the program receive their degree from LBCC.

The purpose of this program is to prepare students to work in the partner-college service district. Students prepare to practice as proficient, multi-skilled professionals in culturally diverse health care settings; to demonstrate outcomes required by the American Registry of Radiologic Technologists (ARRT) and program guidelines; and to apply for and successfully complete ARRT certification examinations.

For more information about this educational opportunity, visit http://www.linnbenton.edu/diagnosticimaging/index.html or contact a BMCC advisor at 541-278-5876 for information.

Oregon State University Dual Admission

Through an agreement with Oregon State University (OSU), BMCC students may be jointly admitted to BMCC and OSU and eligible to enroll concurrently at both institutions. There is a joint application process for eligible students; the admission deadline is one week before the start of classes of each term based on OSU’s academic calendar. Students enrolled in the program are required, as a condition of admission, to agree that their student records will be shared between and available to each institution. For more information on this program, contact BMCC’s Office of Enrollment Management.
Career Pathways

What are Career Pathways?
Career pathways are broad categories of career options that share similar characteristics and employment requirements that call for many common interests, strengths, and competencies. There are six broad career pathways; within each of those are three to six career clusters that narrow down even further to specific career focus areas.

How do I use this information?
As early as high school, students are starting to look at career pathways to identify the classes that they need to take to prepare themselves for employment. Those same career pathways are being used by BMCC students to identify career opportunities supported by the degrees and certificates gained at BMCC.

The following information describes each of those six career pathways and gives you information to help decide whether or not that is the path for you. As you look through the BMCC catalog you may notice the career pathway icons to which that degree or certificate is related. Use these tools to help you plan your college experience and career preparation. By having a plan, you can give purpose to your learning.

ARTS, INFORMATION AND COMMUNICATIONS
Careers in this category are related to the humanities and the performing, visual, literary, and media arts.

Are you a creative thinker? Are you imaginative, innovative, or original? Do you like to communicate ideas? Do you like to make crafts, draw, play a musical instrument, take photos, or write stories? Then this career pathway may be for you!

We offer the following areas of emphasis to help you succeed in this career pathway:

<table>
<thead>
<tr>
<th>Area of Emphasis</th>
</tr>

THE AREAS OF STUDY SHOWN IN BOLD ARE AVAILABLE TO ENHANCE YOUR TRANSFER TO A FOUR-YEAR INSTITUTION
INDUSTRIAL AND ENGINEERING SYSTEMS

Careers in this pathway are related to technologies necessary to design, develop, install, and maintain physical systems.

Are you mechanically inclined and practical? Do you like reading diagrams and blueprints or drawing building structures? Are you curious about how things work? Then this career pathway may be for you!

We offer the following areas of emphasis to help you succeed in this career pathway:

- Chemistry
- Civil Engineering
- Computer Science
- Diesel Technology
- Drafting Technology
- Geography
- Industrial Technology
- Mathematics
- Physics
- Psychology

HUMAN RESOURCES

Careers in this category are related to economic, political, and social systems.

Do you like to work with people to solve problems? Is it important to you to do something that makes things better for other people? Do you like helping people? Then this career pathway may be for you!

We offer the following areas of emphasis to help you succeed in this career pathway:

- Anthropology
- Criminal Justice
- Early Childhood Education
- Economics
- Education—Elementary
- Education—Secondary
- English
- Foreign Language
- Geography
- Health
- History
- Hospitality
- Management
- Human Services
- Mathematics
- Paraeducator
- Physical Education
- Psychology
- Retail Management
- Sociology
- Tourism
- Geography
- Industrial Technology
- Mathematics
- Physics
- Psychology

AG, FOOD AND NATURAL RESOURCES SYSTEMS

Careers in this category are related to the environment, natural resources, and agriculture.

Are you practical or curious about the physical world, plants, and animals? Do you enjoy outdoor activities? Then this career pathway may be for you!

We offer the following areas of emphasis to help you succeed in this career pathway:

- Agriculture Business
- Agriculture Production
- Anthropology
- Biology
- Geography
- Geology
- History
- Human Services
- Industrial Technology
- Mathematics
- Physical Education
- Psychology
- Sociology
- Tourism

HEALTH SERVICES

Careers in this pathway are related to the promotion of health and the treatment of disease.

Do you like to care for the sick or to help them stay well? Are you interested in disease and how the body works? Do you enjoy reading about science and medicine? Then this career pathway may be for you!

We offer the following areas of emphasis to help you succeed in this career pathway:

- Admin Asst—Medical
- Admin Asst—Office
- Biology
- Chemistry
- Dental Assistant
- Health
- Nursing
- Office Asst—Medical
- Physical Education
- Pre-Dental, Med,
- Pharmacy, and
- Veterinary
- Psychology

THE AREAS OF STUDY SHOWN IN BOLD ARE AVAILABLE TO ENHANCE YOUR TRANSFER TO A FOUR-YEAR INSTITUTION
Degrees and Certificates

BMCC reviews and updates degree requirements annually. Students should note that some of the requirements for graduation may change if their studies are interrupted by two or more years or if a course of study extends beyond five years (see page 19). Depending upon the academic program, a student may be asked to complete updated requirements in order to earn a certificate or degree.

Statement of Student Outcomes

Through the course offerings necessary to attain a degree, BMCC strives to provide all graduates with the following core competency skills:

- Written and oral communication
- Critical thinking and problem solving
- Community, cultural, and diversity awareness
- Information and technology literacy
- Workplace, wellness, and ethical responsibility

To ensure the educational breadth necessary to acquire these core competencies, degree candidates must complete work in general education and other specific requirements related to each degree.

Transfer Options

ASSOCIATE OF ARTS OREGON TRANSFER (A.A.O.T.) degree, a non-designated block transfer degree designed for the student who intends to transfer to a four-year college or university within the Oregon University System (OUS). Students need to work closely with an academic advisor to plan a course of study at BMCC.

ASSOCIATE OF SCIENCE (A.S.) degree, a non-designated college transfer degree designed for students whose program requirements do not fit A.A.O.T. degree patterns. This degree does not always “block transfer” to Oregon colleges.

OREGON TRANSFER MODULE (O.T.M.), a one-year module designed to complete a portion of students’ general education requirements and is transferable to any OUS institution. Upon transfer of credits, the receiving institution may specify additional course work that is required for a major or degree requirements or to make up the difference between the O.T.M. and the institution’s total general education requirements.

This module is an excellent choice for the student who is planning to transfer to a four-year institution and either is undecided on a major or will be majoring in a program of study with specific lower division requirements that are not offered at BMCC. With the one-year module, a student can complete most general education requirements and then transfer to the four-year institution, where he or she can complete the remaining lower division requirements.

Transfer courses offered at BMCC parallel freshman and sophomore courses offered by four-year colleges and universities. Students planning to seek a degree at a specific four-year college or university should familiarize themselves with the requirements of the proposed major program at that college or university. BMCC advisors are available to assist students in this planning process.

In addition to the requirements of a major, OUS institutions require that the student earn credit hours in each of the major academic divisions: arts and letters (language, literature, and the arts), the social sciences, sciences and mathematics, and writing. These are typically referred to as general education requirements, or general university requirements. Students at BMCC who complete the A.A.O.T. as outlined will meet these OUS lower division general education requirements.

Specific departmental requirements at OUS institutions can be found in the catalog of the college or university to which the student intends to transfer. OUS institutions generally will accept up to 120 credit hours of lower division course work from Oregon’s community colleges.

Degree and Certificate Options

ASSOCIATE OF APPLIED SCIENCE DEGREE (A.A.S.), awarded to students who complete the requirements of a two-year designated program as outlined in the college catalog.

ASSOCIATE OF GENERAL STUDIES DEGREE (A.G.S.), a non-designated non-transfer two-year degree that consists of both professional/technical and college transfer courses.

CERTIFICATES OF COMPLETION, awarded to students who complete the requirements of a specific curriculum of less than two academic years.

Planning for the undecided student

Students who are undecided about their educational goals should meet with an advisor. The associate of arts Oregon transfer (A.A.O.T.), associate of science (A.S.), associate of general studies (A.G.S.) degrees and Oregon transfer module (O.T.M.) offer the opportunity to explore several fields of study to help determine special interests and aptitudes. To meet with an advisor, call 541-278-5958 or email getinfo@bluecc.edu
## Transfer Options

### Associate of Arts Oregon Transfer (A.A.O.T.) Degrees

The associate of arts Oregon transfer (A.A.O.T.) degree is a two-year program. Students enrolled in this program must successfully complete a minimum of 90 credit hours. The A.A.O.T. degree will transfer to any Oregon University System (OUS) institution where students may complete requirements for a four-year baccalaureate degree.

The A.A.O.T. is a non-designated degree. Students planning on transferring to a four-year institution may want to choose an emphasis with the A.A.O.T. in order to meet the lower division requirements of their chosen major at the four-year institution. In that case, students should consult with their advisors to determine the additional classes recommended by that department as part or all of the 32 credits of electives indicated below. General education requirements are designed to meet the core competencies outlined by the Statement of Student Outcomes on page 34.

The following A.A.O.T. requirements are based on information available as this catalog goes to press and are subject to change. Before enrolling, students should review a current catalog or meet with an advisor of the college to which they plan to transfer to ensure course and program compatibility.

*Students must choose courses from at least two disciplines (different prefixes), with no more than nine credits from one discipline (prefix).

**Students must take 12 credits in biological or physical science classes with laboratory components. Courses that meet the laboratory requirement are identified by a plus symbol on page 39-42 and in the Course Description section on pages 63-97 of this catalog.

***These courses must be completed with a grade of “C” or better.

- Required grade for transfer may vary by course and by accepting institution.
- Elective courses that are considered college-level transfer courses are listed on pages 39-41 and are designated by a bullet (^) in the Course Description section of this catalog.
- A maximum of 12 credits of college-level professional/technical courses may be used as electives in the A.A.O.T. degree. Approved professional/technical courses are listed on pages 40-41 and are designated by a triangle (>): in the Course Description section of this catalog.
- A maximum of 12 physical education activity (PE 185) credits may be counted as electives in the A.A.O.T. degree.
- A maximum of 12 pass (P) program or elective credits may count toward an A.A.O.T. degree.
- A cumulative grade point average of 2.00 or better must be maintained for graduation. Students transferring to a four-year college or university should check the grade point average requirement at that institution.
- Students must attend Blue Mountain Community College at least two terms and complete a minimum of 24 BMCC credits in order for BMCC to award an A.A.O.T. degree.
The associate of science degree (A.S.) is a two-year college transfer program. Students enrolled in this program must successfully complete a minimum of 90 credit hours. The A.S. will transfer to any Oregon University System (OUS) institution but does not always "block transfer," nor will it necessarily complete the general education requirements of that university.

The A.S. is a non-designated degree. Students planning to transfer to a four-year institution may want to choose an emphasis with the A.S. in order to meet the lower division requirements of their chosen major at the four-year institution. In that case, students should consult with their advisors to determine the additional classes recommended by that department as part or all of the 44 credits of electives indicated below. General education requirements are designed to meet the core competencies outlined by the Statement of Student Outcomes on page 34.

The following A.S. degree requirements are based on information available as this catalog goes to press and are subject to change. Before enrolling, students should review a current catalog of the college to which they plan to transfer to ensure course and program compatibility.

* These courses must be completed with a grade of “C” or higher.

The above arts and letters (humanities) course requirements are in addition to the writing requirements.

Required grade for transfer may vary by course and by accepting institution.

A maximum of 12 physical education activity (PE 185) credits may be counted as electives in the A.S. degree.

A maximum of 12 pass (P) program or elective credits may count toward an A.S. degree.

A cumulative grade point average of 2.00 or better must be maintained for graduation. Students transferring to a four-year college or university should check the grade point average requirement at that institution.

Students must attend Blue Mountain Community College at least two terms and complete a minimum of 24 BMCC credits in order for BMCC to award an A.S. degree.
The Oregon transfer module (OTM) is a one-year module designed for transfer to any college or university in the Oregon University System. Upon transfer, the receiving institution may specify additional coursework that is required to complete major or degree requirements or to make up the difference between the OTM and the institution's total general education requirements.

The module is 45 credits, the equivalent of three academic quarters. The course work must be chosen from courses approved for the A.A.O.T. degree. All courses must be passed with a grade of C- or better and must be worth at least 3 credits (quarter system). Students must have a minimum cumulative GPA of 2.00 at the time the module is posted.

This module is an excellent choice for the student who is planning to transfer to a four-year institution and either is undecided on a major or will be majoring in a program of study with specific lower division requirements that are not offered at BMCC. With the one-year module, a student can complete the majority of his or her general education requirements and then transfer to the four-year institution to complete the remaining lower division requirements.

</tr>
</tbody>
</table>

Science/Math/Computer Science must include at least one biological or physical science with a lab. Electives must be chosen from the “Introduction to Discipline” areas.

NOTE: Students indicating the O.T.M. as their only degree intent are not eligible for financial aid.

Transfer courses parallel freshman and sophomore courses offered by four-year colleges and universities. Students normally transfer at the end of the sophomore year to junior standing at the school of their choice.

BMCC offers credits transferable to four-year colleges and universities. Students planning to seek a degree at a specific four-year college or university should familiarize themselves with the requirements of the proposed major program at that college or university. BMCC advisors are available to assist students in this planning process.

In addition to the requirement of the major, OUS institutions require that the student earn credit hours in each of the major academic divisions: arts and letters (language, literature, and the arts), the social sciences, sciences and mathematics, and writing. These are typically referred to as general education requirements, or general university requirements. Students at BMCC who complete the A.A.O.T. as outlined will meet these OUS lower division general education requirements. Specific departmental requirements at OUS institutions can be found in the catalog of the college or university to which the student intends to transfer. OUS institutions generally will accept up to 120 credit hours of lower division course work from Oregon’s community colleges.

Degree and Certificate Options

Associate of Applied Science (A.A.S.) Degrees

These degrees are two-year designated professional/technical programs requiring a minimum of 93 credits. Each degree listed on the following pages includes program requirements and general education requirements designed to meet core competencies which meet state requirements for writing, speech, mathematics/computer science, human relations, and general education.

General A.A.S requirements include:

**Communications:**
- Writing .................................................................................................................. 3 - 9 Credits
  - WR 060 – WR 227 or BA 214
  - Speech .................................................................................................................... 3 - 9 Credits
  - SP 100 – SP115

**Computation:**
- Mathematics/Computer Science ........................................................................... 3 - 9 Credits
  - MTH 025 or higher or BA104, BA105
  - CS 120 or above or BA131

**Human Relations:**
- Humanities (except Speech) or Social Science
  - Courses selected from page 39 and/or
  - BA 285, HD 100, RD 120

**TOTAL GENERAL EDUCATION REQUIREMENTS** .................................................. 18 Credits

**Professional/Technical Courses** .......................................................................... 75 Credits

Refer to program descriptions in the catalog for course selection and minimum requirements.

**TOTAL MINIMUM CREDIT REQUIREMENT** .......................................................... 93 Credits

- A maximum of 12 pass (P) program or elective credits may count toward an A.A.S. degree.
- A cumulative grade point average of 2.00 or better must be maintained for graduation.
- Students must attend Blue Mountain Community College at least two terms and complete a minimum of 24 BMCC credits in order for BMCC to award an A.A.S. degree.

See the degree descriptions on the following pages for program specific recommendations. Program requirements are subject to change, so please consult an advisor.
A.A.S./Accounting

Business and Management

Intended Program Outcomes:
This two-year program leading to an A.A.S. degree in accounting offers students the opportunity to develop an advanced understanding of accounting principles. Learning experiences in this program are designed to assist the student in realizing the following outcomes:

- Use of current computer technologies, especially spreadsheet and accounting software, to perform the duties within a business setting.
- Balance and reconcile financial information to ensure accuracy of information.
- Analyze financial data in order to understand it and to use the data to make decisions.
- Use reconciliation processes when working with data to identify and correct errors.
- Prepare professional financial statements and other reporting documents.
- Preparation for licensure process within the state of Oregon to prepare tax returns.
- Ability to effectively seek and respond to accounting-related opportunities for increased responsibilities and professional advancement.
- Understand the various business functions as they contribute to the success of an organization.

Employment possibilities include bookkeeper, accounting clerk, payroll clerk, accounting associate, cost accountant, financial accountant or tax accountant. Jobs are available in business, industry, government agencies, service industries and banks. At least 99 credit hours of course work must be satisfactorily completed in order to receive this degree.

A.A.S./Administrative Assistant

Business and Management

Intended Program Outcomes:
This program leading to an A.A.S. degree in administrative assistant offers students the opportunity to develop top-level office skills. Learning experiences in this program are designed to assist the student in realizing the following outcomes:

- Use current and emerging word processing technologies to produce organizational documents and presentation materials.
- Meet or exceed the current speed and accuracy requirements for typing and 10-key operation in the industry.
- Individually and collaboratively manage multiple office tasks, prioritizing and reprioritizing in response to changing demands.
- Assess the image that is expected of office personnel in a specific industry group; reflect those expectations in personal appearance, professional, conduct, and personal hygiene.
- Produce clear, concise, and mechanically correct written documents.
- Model effective customer service interactions.
- Seek and respond to opportunities for increased responsibilities and professional advancement.
- Understand office functions as they contribute to sound business practices and procedures.
- Perform the general office procedures of filing, equipment operation, mail distribution, phone calls, and tasks requiring basic math calculations (like inventory).

At least 96 credit hours of course work must be satisfactorily completed in order to receive this degree.

A.A.S./Agriculture Business

Intended Program Outcomes:
This two-year Associate of Applied Science Degree program in Agriculture/Business will prepare the student for a career in the broad field of agri-business or in support areas of production agriculture by providing the necessary knowledge in the following areas:

- Industry-related employment skills
- Animal science (techniques, issues, technology, trends)
- Crop science (techniques, issues, technology, trends)
- Agriculture-related business practices
- Agricultural operations (safety, mechanical technology)

Opportunities are available in sales of equipment, fertilizer and chemicals, agricultural credit, record keeping and other areas. Many of the business and agriculture courses may be transferred to other four-year colleges. It is suggested that students wishing to transfer review school catalogs to assure transferability. Following is a typical program schedule. An individual student’s schedule may be different. Students should contact their agriculture advisor for approved electives. At least 94 credit hours of course work must be satisfactorily completed in order to receive this degree.

A.A.S./Agriculture Production

Intended Program Outcomes:
This two-year Associate of Applied Science Degree program in Agriculture/Production: Crops will prepare the student concerned with the raising of an agriculture crop commodity by providing the necessary knowledge in the following areas:

- Industry-related employment skills
- Animal science (techniques, issues, technology, trends)
- Crop science (techniques, issues, technology, trends)
- Agriculture-related business practices
- Agricultural operations (safety, mechanical technology)

The curriculum includes a balanced selection of courses in the areas of crops, mechanics and business. If a student wishes to specialize in a particular area, course selection can be made by working closely with his/her advisor. Individual student’s schedule may be different. At least 100 credit hours of course work must be satisfactorily completed in order to receive this degree.

**A.A.S./Agriculture Production:**

### Livestock Option

**Ag, Food and Natural Resources Systems**

**Intended Program Outcomes:**
This two-year Associate of Applied Science Degree program in Agriculture/Production: Livestock will prepare the student concerned with the raising of an agriculture livestock commodity by providing the necessary knowledge in the following areas:
- Industry-related employment skills
- Animal science (techniques, issues, technology, trends)
- Crop science (techniques, issues, technology, trends)
- Agriculture-related business practices
- Agricultural operations (safety, mechanical technology)

The curriculum includes a balanced selection of courses in the areas of crops, livestock, mechanics and business. If a student wishes to specialize in a particular area, course selection can then be made from a list developed by working closely with his/her advisor. An individual student’s schedule may be different. At least 108 credit hours of course work must be satisfactorily completed in order to receive this degree.

A.A.S./Business Administration

Business and Management

Intended Program Outcomes:
This two-year Associate of Applied Science Degree program will prepare the student to either transfer to an Oregon University System institution on a course-by-course basis, or be effective in the workplace in the following areas:
- Establish and promote a collaborative work environment where all voices are heard and valued as they contribute to shared goal,
- Work within the ethical, legal, and regulatory parameters of the industry,
- Calculate, compile, and analyze financial records to make practical business decisions,
- Attract, screen, hire, train, and supervise personnel,
- Select and integrate appropriate current and emerging technologies to support business functions,
- Use critical thinking skills to solve business problems,
- Exhibit work behaviors that maximize opportunity for continued employment, increased responsibilities, and business success,
- Assist in the design, implementation, and continuous assessment of business strategies based on consumer needs and market changes,
- Lead a work unit in a direction that aligns with stated organizational vision, mission, and values.

The program offers a combination of online and on-campus instruction along with cooperative work experience to give students a look at day-to-day experiences and decisions in the business world. For students also interested in an AAOT degree, see the information on general electives below. Program requirements are subject to change. Please consult with an advisor. At least 98 credit hours of course work must be satisfactorily completed in order to receive this degree.

A.A.S./Civil Engineering Technology

Industrial and Engineering Systems

Intended Program Outcomes:
This 2-year program will prepare the student to either transfer to a four-year degree program in Construction Management, or be effective as a technician on a civil engineering team in the workplace in the following areas:
- Concrete design
- Applied Structural Design Methods
- Applied Technology (Production software, CAD, GIS)
- Communication Skills (Writing, presentation techniques)
- Property Surveying
- Professional (Estimating, proposal development)

Students with appropriate math/science aptitude can complete the Civil Engineering/Construction Technology curriculum in two years at BMCC. Students desiring to transfer to four-year engineering programs are encouraged to complete the engineering transfer program requirements. At least 95 credit hours of course work must be satisfactorily completed in order to receive this degree.

* Items noted with an asterisk satisfy Boise State University articulation requirements.

Note: Students completing this degree program must meet the general education requirements listed for the associate of applied science degree in this catalog. Electives must be approved by a program advisor.
A.A.S./Diesel Technology

Intended Program Outcomes:
This two-year A.A.S. degree will prepare graduates with the necessary skills and knowledge to enter the Diesel Mechanics Heavy Equipment field with the following capabilities:

- Service, diagnose and repair Diesel Engines
- Service and repair Suspension and Steering
- Service and replace Brakes
- Diagnose and repair Electrical/Electronic Systems
- Safe Shop Practices
- Written and oral communication skills in dealing with customer service and report writing
- Ability to use math in problem solving
- Ability to effectively use the computer to find information, create documents and send correspondence
- Understand and service basic hydraulic systems
- Ability to perform basic arc and oxy-acetylene welding

This two-year program leads to an Associate of Applied Science Degree, and is designed to prepare graduates to meet job entry requirements for a variety of jobs in the field. The curriculum provides classroom work and practical experience in the lab. In addition to HEAVY TRUCK this program offers training in AGRICULTURAL and HEAVY EQUIPMENT. At least 99 credit hours of course work must be satisfactorily completed in order to receive this degree.

A.A.S./Drafting Technology

Intended Program Outcomes:
This two-year A.A.S. degree program in drafting technology will prepare the student to be effective as a drafting/CAD (computer-aided drafting) technician in the workplace in the following areas:

- Applied structural detailing
- Applied construction monitoring
- Applied technology (production software, CAD, geographical information systems/GIS)
- Communication skills (writing, presentation techniques)
- Property surveying
- Contract documents, estimating

Students with appropriate math and visualization skills and good attention to detail can complete the drafting technology curriculum in two years at BMCC. At least 96 credit hours of course work must be satisfactorily completed in order to receive this degree.

A.A.S./Early Childhood Education

Human Resources

Intended Program Outcomes:
This two-year A.A.S. degree program in Early Childhood Education (ECE) will prepare students for entry into the ECE field by providing them with the requisite knowledge and skills in the following areas:

- Organization
- Critical thinking
- Regulatory systems
- Community resources
- Special Needs
- Assessment and observation
- Guidance and classroom management
- Child development
- Cultural diversity
- Environments
- Curriculum
- Developmentally appropriate practices

A minimum of 93 credits is required for this degree. A grade of C or better is required in all ECE coursework. The student is required to complete a criminal history check prior to enrollment in ECE 161/ECE 163: Practicum or ECE 280: Cooperative Work Experience (CWE).

About the Program:
The Early Childhood Education (ECE) program prepares students to work with young children from birth through eight years of age and their families in a variety of settings including child care centers, family child care settings, preschools, Head Start programs, school age programs, home visiting and parent education programs. It is planned to accommodate both full- and part-time students, including those currently employed in the field.

The Associate of Applied Science (AAS) degree in Early Childhood Education is based on the Guidelines for Preparation of Early Childhood Professionals from the National Association for the Education of Young Children (NAEYC). It is a comprehensive program that qualifies the student to become a lead teacher in a child care facility licensed by the Oregon Child Care Division, a teacher in a Head Start program, a home visitor in the human services field, among other professional roles. Some courses in the program may not transfer to other institutions. Students intending to transfer should select electives that meet the AAOT requirements. It is strongly recommended that students seek advisor assistance prior to and throughout their BMCC educational experience.

Required core courses (26 credits):

A.A.S./Hospitality Management

Business and Management

Human Resources

Intended Program Outcomes:
This two-year program will prepare the student to either transfer to an Oregon University System institutions on a course-by-course basis, or be effective in a career as manager in the hospitality and tourism industries by having the requisite knowledge in the following areas:

- Identify, understand and apply market appropriate professional guest service standards to deliver competitive guest experiences to diverse cultural groups.
- Identify specific hospitality industry functions and their required procedures and legal techniques.
- Identify techniques for successfully managing human resources and human relations in business.
- Analyze financial statements, isolate potential problems, and identify appropriate corrective action to control and manage the critical revenue and cost centers.
- Demonstrate the ability to solve mathematical problems commonly encountered in hospitality related business setting.
- Utilize the technical/computer skills for keeping business records and preparing financial statements.
- Develop skills for human relations activities for day-to-day business operations.
- Write effective routine, routing, and persuasive styles of written communication.
- Employ effective verbal communications in a variety of settings.
- Develop skills for social/professional aspects of conducting business with individuals and groups.

Prepare marketing and presentation documents for marketing of business.

Prepare general documents related to career searches and job applications. Students who complete this type of degree can have a competitive advantage in applying for management positions. In addition, the prospect for students to gain the confidence and necessary business skills to develop tourism/hospitality entrepreneurship opportunities is enhanced. For students also interested in an AAOT degree, see the information on general electives below. Program requirements are subject to change. Please consult with an advisor. At least 92 credit hours of course work must be satisfactorily completed in order to receive this degree.

A.A.S./Human Services

Human Resources

Intended Program Outcomes:
This degree is designed to prepare students for entry-level professional positions in a variety of social service agencies, with the following specific outcomes, while preparing them to transfer to institutions offering additional degrees. An informal transfer agreement exists with a local, four-year institution offering a bachelor’s degree in social work.

- Understand the nature of human systems: individual, group, organizations, community and society, and their interactions.
- Understand the conditions which promote or limit optimal functioning and classes of deviations.
- Skill to identify and select effective interventions to promote growth and goal attainment.
- Skill to planning, implement and evaluate interventions.
- Ability to select interventions congruent with values of clients, employing agency, the human service profession and one’s self.
- Skills in oral and written communication, interpersonal relations, and other related skills in order to effectively and efficiently plan and implement service delivery.

This two-year A.A.S. degree program in human services is designed to prepare students for entry-level professional positions in a variety of social service agencies, including substance abuse treatment programs, detention facilities, rehabilitation/treatment programs, habilitation/training programs, nursing homes, employment/training service agencies, educational institutions, welfare agencies, and crisis intervention programs. Students enrolled in this program will successfully complete a minimum of 94 credit hours.

A.A.S./Industrial Technology

Industrial and Engineering Systems

Blue Mountain Community College is discontinuing the Associate of Applied Science degree in Industrial Technology as of August 31, 2008 (end of summer term).

Beginning September 1, 2008, Blue Mountain Community College will replace the former degree with three industry separate AAS degrees in Electrical Technologies, Industrial Manufacturing, and Mechanical Technologies. Certificates of Completion in those areas will also be awarded.

To complete the AAS degree in Industrial Technology and Apprenticeship all of the following requirements must be met by August 31, 2008.

1. Have achieved journey-level status in a skilled occupation.
2. Complete a minimum of 24 credit hours at Blue Mountain Community College.
3. Complete general education requirements for an Associate of Applied Science degree. (See page xx of this catalog.) General education requirements are designed to meet the core competencies outlined by the Statement of Student Outcomes on page 28.
4. Compile a total of 93 credits. You may be awarded up to 24 credits for journey-level status.

If you have questions about the completing the AAS degree in Industrial Technology and Apprenticeship that will be available for completion only through August 2008 or about the new AAS degrees that will begin in September 2008, please call 541-278-5554.

In addition to tuition, estimated costs for students who complete the entire program will vary. Contact the Financial Aid Office at 541-278-5970 to find out if you qualify for help with these costs.

Apprenticeship

Apprenticeship training as a method of vocational education is recognized by the Apprenticeship and Training Division (ATD) of Oregon Bureau of Labor and Industries (BOLI). It combines full-time, on-the-job work experience with trade-related theoretical instruction.

The instruction at Blue Mountain Community College is for people working in selected trades. Students generally are apprentices who are registered with ATD. They can also be journey-level men and women who wish to upgrade their skills or knowledge and others approved by local committees.

Blue Mountain Community College offers apprenticeship classes for the following occupations: inside electricians, plumbers, programmable logic controller technicians, limited maintenance electricians, limited manufacturing plant electricians, sign assembler/hangers.

If you are interested in becoming an registered in an Oregon State Apprenticeship program please contact the Oregon State Bureau of Labor and Industry Apprenticeship Training Division at 971-673-0761 or visit their website at http://www.oregon.gov/BOLI for program and entrance requirements.
A.A.S./Nursing: Registered Nurse (R.N.)

Health Services

Intended Program Outcomes:
This two-year applied science program will prepare the student to be effective in the workplace in the following areas:

- Basing nursing activities on practice as dictated by the theories and concepts from nursing and the natural and behavioral sciences, thereby effectively employing assessment and intervention skills, caring and relational skills for client advocacy, and teaching skills for health promotion and restoration.
- Working dependently and interdependently with qualified health professionals and members of the health team in defining, planning, implementing and evaluating the total health plan for individuals consistent with their graduating scope of practice. This includes employee skills in; communication; cultural respect; management, leadership, and teaching.
- Being accountable for his/her own decisions, judgments, and nursing practice through the use of critical thinking skills, moral and ethical responsibility, as well as by using accountability and responsibilities management skills.
- Exhibiting personal and professional growth by using critical thinking and knowledge integration skills to acquire new knowledge and new experiences with the continual expansion of scientific knowledge and technology.

Registered nurses (R.N.’s) use their knowledge, skills, and problem-solving abilities to help individuals, families, and groups with health needs. R.N. care for and work with people to help them become healthier or to regain health after illness or surgery. Nurses teach health practices to clients and other health care providers and frequently supervise the work of nursing assistants and practical nurses. R.N. ’s also administer medications and perform treatments for patients. Nurses work in a variety of settings, including hospitals, long-term care, schools, industry, clinics, and patients’ homes.

R.N. Program Admission Requirements
Students must complete the prerequisites and general education requirements before applying for admission to the program. Please refer to the nursing department pages on our website for current admission requirements and to access the admission application packets. Success in a nursing program requires that students be computer literate, use of word processing, spreadsheets and web searches.

This program is approved by the Oregon State Board of Nursing. The goal of the nursing department is to help students develop into competent nurses through a general education at the associate degree level in the natural and behavioral sciences. Students are provided an opportunity to learn and to practice nursing in a variety of health-care settings. Graduates of this program are eligible to take National Council Licensing Examinations (NCLEX-RN).

Pre-Nursing Requirements ( Must be taken before admission to the Nursing Program). Must be completed with a B or better grade. GPA requirement of 3.0.

(07-08 Curriculum pending approval by Oregon Dept of Education)
Human Resources

Intended Program Outcomes:
Students who complete the Associate of Applied Science: Paraeducator degree program will be prepared to enter the K-12 school system successfully as a paraeducator and will demonstrate the following outcomes:
- demonstrate appropriate strategies and techniques to provide instructional support to students of diverse populations, including but not limited to students with special needs, students from poverty, and ELL students;
- demonstrate attitudes and behaviors that are appropriate to meeting the needs of diverse populations;
- apply best practices in classroom management to optimize the potential for student learning;
- practice ethical and legal standards of conduct;
- apply technology effectively to support teaching and learning;
- demonstrate competence in core skill area: written and oral communication, problem-solving, critical thinking, reading, and mathematics;

This curriculum is an Oregon Department of Education statewide approved program that meets the requirements of the No Child Left Behind Federal Legislation for “Highly Qualified” status. The Paraeducator degree offers coursework designed for anyone interested in teaching and learning techniques or working as an educational assistant in the K-12 school system. The core curriculum offers instruction in basic teaching strategies in language arts/math/science, working with diverse, special needs populations, technology, classroom management, and practicum experience. In addition, general education courses in human relations, communication, and computation are incorporated. The curriculum is available through distance education courses as well as face to face courses. The Associate of Applied Science Degree for Paraeducators also satisfies the program specific courses in the Paraeducator Certificate.

Electives: Electives include any lower division credit or professional/technical course that meets A.A.O.T. transfer requirements. Students should take enough electives to meet the 93 total credits required.

Other Requirements: Students must have RD 35 or higher or competence as determined by the BMCC Education Department or the placement test. Total credits needed for the A.A.S. degree are 93.

(07-08 Curriculum pending approval by Oregon Dept of Education)
Associate of General Studies (A.G.S.) Degree

The associate of general studies (A.G.S.) degree is a non-designated degree that requires a minimum of 90 credit hours. The candidate for the A.G.S. must understand that the degree is not a transfer degree, although some or possibly all of the courses may be accepted by another institution. General education requirements are designed to meet the core competencies outlined by the Statement of Student Outcomes on page 34.

Certificates

The certificate of completion is awarded to those students who complete the requirements of a specific curriculum of less than two academic years and have a grade point average of at least 2.00 (C average).

The curriculum for a certificate of completion must include at least 9 credit hours of general education courses in the areas of written communication, oral communication, computation, and human relations. For specific program requirements, see the Program Description section of this catalog. Program requirements are subject to change. Please consult with an advisor for the most up-to-date information. Questions regarding suitability of any course should be directed to the Office of Enrollment Management at 541-278-5759 or by email at getinfo@bluecc.edu.

Accounting Technician Certificate

Business and Management

Intended Program Outcomes:
This one-year program leading to a certificate in accounting offers students the opportunity to develop a foundational understanding of accounting principles with an emphasis in applying that understanding to bookkeeping tasks. Learning experiences in this program are designed to assist the student in realizing the following outcomes:

- Use current computer technologies, especially spreadsheet and accounting software, to perform the duties within an accounting department.
- Balance and reconcile financial information to ensure accuracy of information.
- Use reconciliation processes when working with data to identify and correct errors.
- Prepare professional financial statements and other reporting documents.
- Model effective customer service interactions.
- Ability to effectively seek and respond to accounting-related opportunities for increased responsibilities and professional advancement.
- Understand the various business functions as they contribute to the success of an organization.

Employment possibilities include bookkeeper, accounting clerk, payroll clerk. Jobs are available in business, industry, government agencies, service industries and banks. At least 50 credit hours of course work must be satisfactorily completed in order to receive this certificate.

Dental Assisting Technician Certificate

Health Services

Intended Program Outcomes:
This one-year certificate program will prepare the student to be effective in the workplace in the following areas:

- Assist dentist with patient treatment
- Radiographic proficiency (exposure, processing, mounting & evaluation)
- Material manipulation (selection, classification, safe handling and disposal)
- Infection control (instrument & room processing to prevent disease transmission, OSHA compliance)
- Business office procedures (computer data entry, scheduling, records management)
- Employment readiness (professionalism, writing skills, ethics, legal & HIPAA procedures)

Upon successful completion of this program, a Certificate in Dental Assisting is awarded. Students must receive a “C” grade or above in all coursework to be considered as having successfully completed the program. The program is accredited by the American Dental Association’s Commission on Accreditation of Dental and Auxiliary Education Programs and by the Oregon Board of Dentistry. Graduating students are eligible to take the Dental Assisting National Board Examination.

Admission Requirements
Enrollment information is available from the Office of Enrollment Management in Morrow Hall on the BMCC Pendleton campus or online at the website listed below. Completed enrollment application materials will be accepted January 1 through the last Friday in April for admission for the following fall term. (Applications will not be held over for subsequent year’s admission.) Student must have completed or be enrolled in the prerequisite courses before applying for admission to the program. Please refer to the Office of Enrollment Management Website.

Courses within the dental assisting curriculum can be used as the professional/technical credits for the associate degree in general
Hospitality, Tourism, and Management Certificate

Business and Management

Human Resources

Intended Program Outcomes:
This one-year program introduces students to the field of the hospitality industry, including tourism, travel, and management. Online and classroom instruction, and cooperative work experience offers students a look into the day-to-day experiences at hospitality and tourism sites.

This certificate helps prepare students for future entry-level positions in management and introduces them to the professionalism necessary for business success and upward mobility in the hospitality and tourism industry.

Learning experiences in this program are designed to assist the student in realizing the following outcomes:

- Identify specific hospitality industry functions and their required procedures and legal techniques.
- Understand and apply market appropriate professional guest service standards to deliver competitive guest experiences to diverse cultural groups and throughout business and industry.
- Identify general business functions to maintain day-to-day operations.
- Demonstrate the ability to solve mathematical problems commonly encountered in hospitality related business setting.
- Utilize the technical/computer skills for keeping business records and preparing basic financial statements.
- Identify techniques for successfully managing human resources and human relations in business.
- Utilize various techniques for effect verbal and written communications.
- Prepare general documents related to career searches and job applications.

Employment Opportunities:
Graduates of this program may enter the hospitality industry working in such areas as hotel marketing, sales and operations, bed & breakfast, meeting and convention planning, special occasion planning, restaurant management, catering and banquet operations, and casino supervision.

At least 50 credits are required to complete the program.

Office Assistant Certificate

Business and Management

Intended Program Outcomes:
This one-year certificate program is designed to provide specialized training and skills for work as an office assistant. Emphasis is placed on the study of general office skills including practical experience on current equipment and software. The course work lays the foundation for a two-year Associate of Applied Science degree program for those students who want to continue their education.

- Use current and emerging work processing technologies to produce documents.
- Meet or exceed the current speed and accuracy requirements for typing and 10-key operation in the industry.
- Model effective customer service interactions.
- Perform the general office procedures of filing, equipment operation, mail distribution, phone calls, and tasks requiring basic math calculations.

At least 45 credit hours of course work must be satisfactorily completed in order to receive this certificate.

Office Assistant: Medical Option Certificate

Business and Management

Health Services

Intended Program Outcomes:
This one-year certificate program is designed to provide specialized training and skills for entry-level positions as receptionists and/or records clerks in medical offices. Emphasis is placed on the study of general office skills as well as medical office theories and policies, including practical experience on current equipment and software. The course work lays the foundation for a two-year Associate of Applied Science degree program for those students who want to continue their education.

- Use current and emerging work processing technologies to produce documents.
- Meet or exceed the current speed and accuracy requirements for typing and 10-key operation in the industry.
- Model effective customer service interactions.
- Perform the general office procedures of filing, equipment operation, mail distribution, phone calls, and tasks requiring basic math calculations.
- Use appropriate medical terminology with written and oral accuracy.

At least 47 credit hours of course work must be satisfactorily completed in order to receive this certificate.

Paraeducator Certificate
(previously Education Assistant)

Human Resources

Intended Program Outcomes:
Students who complete the Paraeducator Certificate will be
prepared to enter the K-12 school system successfully as a
paraeducator and will demonstrate the following outcomes:

- Demonstrate appropriate strategies and techniques to provide
  instructional support to students of diverse populations,
  including but not limited to students with special needs,
  students from poverty, and ELL students;
- Demonstrate attitudes and behaviors that are appropriate to
  meeting the needs of diverse populations;
- Apply best practices in classroom management to optimize the
  potential for student learning;
- Practice ethical and legal standards of conduct;
- Apply technology effectively to support teaching learning;
- Demonstrate competence in core skill area; written and oral
  communication, problem-solving, critical thinking, reading, and
  mathematics.

This curriculum is an Oregon Department of Education statewide
approved program that meets the requirements of the No Child Left
Behind Federal Legislation for “Highly Qualified” status. The core
curriculum offers instruction in basic teaching strategies in language
arts/math/science, working with diverse, special needs populations,
technology, classroom management, and practicum experience. In
addition, general education courses in human relations,
communication, and computation are incorporated. The curriculum
is available through distance education courses as well as face to
face courses. The Paraeducator Certificate also satisfies the
program specific courses in the Associate of Applied Science
Degree for Paraeducators.

General education requirements must total 9 credits. If
competency in WR 115 and MTH 60 is met with the placement test
or other means, students must take other general education
courses to total 9 total credits.

- WR 115 or higher ............................................. 3
- MTH 60 or higher ............................................. 4
- General education elective (may include speech, writing,
  math, computer science, or human relations classes) ........ 3

Program computer literacy requirements are met with the ED 235
Educational Technology. Program human relations requirements
are met with ED 258 Multicultural Education. ED 235 and 258
cannot count as general education courses.

Other Requirements: Students must have RD 35 or higher or
competence as determined by the BMCC Education Department or
the placement test. Total credits needed for the certificate are 50.

Practical Nursing (P.N.) Certificate

Health Services

Intended Program Outcomes:
This one-year applied science program will prepare the student to
be effective in the workplace in the following areas:

- Basing nursing activities on practice as dictated by the theories
  and concepts from nursing and the natural and behavioral
  sciences, thereby effectively employing assessment and
  intervention skills, caring and relational skills for client
  advocacy,
- Working dependently and interdependently with qualified health
  professionals and members of the health team in defining,
  planning, implementing and evaluating the total health plan for
  individuals consistent with their graduating scope of practice.
  This includes employee skills in; communication cultural
  respect,
- Being accountable for his/her own decisions, judgments, and
  nursing practice through the use of critical thinking skills, moral
  and ethical responsibility,
- Exhibiting personal and professional growth by using critical
  thinking and knowledge integration skills to acquire new
  knowledge and new experiences with the continual expansion of
  scientific knowledge and technology.

Licensed practical nurses (LPN’s) care for patients under the
direction of a registered nurse (R.N.), physician or dentist. LPN’s
collect information about the patient’s health, contribute to the plan
of care, and administer medications and other treatments. Practical
nurses work primarily in hospitals and long-term care facilities.
They may also work in medical or dental offices, in clinics, and for
stable patients in the community under supervision of an R.N.

P.N. Program Admission Requirements
Students must complete the prerequisites and general education
requirements before applying for admission to the program. Please
refer to the nursing department pages on our website for current
admission requirements and to access the admission application
packet. Success in a nursing program requires that students be
computer literate, use of word processing, spreadsheets and web
searches.

The P.N. program is approved by the Oregon State Board of
Nursing. The goal of the nursing department is to help students
develop into competent nurses through a general education
including courses at the practice nurse level and in the natural and
behavioral sciences. Students are provided an opportunity to learn
and to practice nursing in a variety of health care settings.
Graduates of this certificate program are eligible to take National
Council Licensing Examinations (NCLEX-PN°)

Pre-Nursing Requirements ( Must be taken before admission to
the Nursing Program and completed with a B or better grade)
GPA requirement of 3.0.

Retail Management
One Year Certificate

Business and Management

Human Resources

Intended Program Outcomes:
Learning experiences in this program are designed to assist the student in realizing the following outcomes:

- Define the different types of retail outlets and related principals for successful businesses.
- Illustrate unique, competitive marketing strategies for retailers including advertising, public relations and sales promotion packages.
- Demonstrate the ability to use the computer and information services for business related activities.
- Understand the principles and methods for human resource/human relations management.
- Demonstrate the ability to solve mathematical problems commonly encountered in hospitality related business setting.
- Utilize the technical skills for keeping business records and preparing financial statements.
- Write effective routine, routing, and persuasive styles of written communication.
- Employ successful verbal communication in a variety of settings.

Employment Opportunities
Graduates of this program may enter the grocery retail industry and may have a competitive advantage for management positions. This program works well for other retail industries for those individuals looking for entry-level to middle-level management positions.

At least 45 credits are required to complete the program.

Western Alliance of Food Chains (WAFC)
Retail Management Certificate
(less than one year)

**Business and Management**

**Human Resources**

**Intended Program Outcomes:**
Learning experiences in this program are designed to assist the student in realizing the following outcomes:

- Define the different types of retail outlets and related principals for successful businesses.
- Illustrate unique, competitive marketing strategies for retailers including advertising, public relations and sales promotion packages.
- Demonstrate the ability to use the computer and information services for business related activities.
- Understand the principles and methods for human resource/human relations management.
- Demonstrate the ability to solve mathematical problems commonly encountered in hospitality related business setting.
- Utilize the technical skills for keeping business records and preparing financial statements.
- Write effective routine, routing, and persuasive styles of written communication.
- Employ successful verbal communication in a variety of settings.

This certificate program focuses on developing core skills identified by the retail industry, as represented by the Western Alliance of Food Chains (WAFC). It is a program of study for current retail employees and for students who would like to become retail employees.

This program is recognized by retail employers and identifies skills through 10 courses that lead to professional growth, hiring, and advancement opportunities; it is a body of study that prepares the student for retail sales and management responsibilities.

Students who complete the program may be given preference in hiring, may be eligible for promotions, and may receive compensation to recognize their educational achievement.

**Employment Opportunities**
Graduates of this program may enter the grocery retail industry and may have a competitive advantage for management positions. This program works well for other retail industries for those individuals looking for entry-level to middle-level management positions.

At least 35 credits are required to complete the program.

AGM 131 AGRICULTURE SAFETY

COURSE LISTING

Credits - 3 Lecture - 2 Lab - 1

A basic course in agricultural safety covering hand and power tools, equipment, chemical and environmental safety. Students will develop safe working habits and identify and correct safety hazards.

AGRICULTURE SAFETY

EXPLANATION

Courses are grouped by area of study and listed alphabetically by letter prefix and course number. Courses numbered 100 and above are designed for transfer to other colleges for degree credit.

The title of the course is listed in all capital letters.

The course description briefly summarizes the course content.

Covering hand and power tools

Credits - 3 Lecture - 2 Lab - 1

The number of credits earned by taking the course is noted. Each lecture credit corresponds to one hour of instruction per week. Each lab credit equals 3 hours per week. Each other credit generally refers to 2 hours class time per credit.

Prerequisites are listed below course descriptions. A prerequisite is a course that must be completed before enrolling in the selected course. It is important to note prerequisites before registering.

Corequisites are courses that should be completed either before or while attending the selected course.

Courses offered at BMCC are listed in this section of the catalog. Not every course is offered every term. Use the schedule of classes to determine quarterly course offerings. Students who plan to transfer should consult with their program advisor to ensure course transferability.

Explanation of Course Designations:

Symbols are used to designate how courses fulfill various degrees

Symbol Definition:

(^) – A transferable course that can be used to fulfill undesignated elective requirements in the associate degree programs.

(*) – A transferable course that meets distribution (group) requirements in the:

Associate of arts Oregon transfer (A.A.O.T.) degree

Associate of science (A.S.) degree

Note: Courses meeting distribution requirements may always be used as electives in the transfer degrees.

(+1) – Courses that meet the laboratory requirement.

(>) – A maximum of 12 credits of college-level professional/technical courses may be used as electives in the A.A.O.T. and the A.A.S. degrees.

Questions regarding suitability of courses should be directed to the program advisor, Associate Vice President of Enrollment Management, or Vice President of Instruction.

Non-Designated Courses

Courses numbered 100 and above listed in this section of the catalog that have not received a designation mark as outlined above may or may not meet degree requirements or be transferable to other institutions. Questions regarding transferability of courses should be directed to the program advisor, Associate Vice President of Enrollment Management, or Vice President of Instruction.

Non-Transfer Courses

Courses with numerical designations less than 100 are not transferable to four-year institutions.
009.7251 - Small Business Management Practices I

The Small Business Management Program is organized to encourage fifteen established business owners to explore issues and options with other business owners and professionals in a confidential setting. Processes of analysis, problem solving, implementation, and evaluation are pursued in a structure of eleven class meetings and eleven individual business visits. SBM I is the first in the three-year program sequence. The three-year regular program is followed by the opportunity to participate in a limited enrollment alumni program.

009.7252 - Small Business Management Practices II

The Small Business Management Program II is organized to encourage established business owners who have completed SBM I to continue exploring issues and options with other business owners and professionals in a confidential setting. Processes of analysis, problem solving, implementation, and evaluation are pursued in a structure of ten class meetings and ten individual business visits. SBM II is the second in the three-year program sequence.

009.7253 - Small Business Management Practices III

The Small Business Management Program III is organized to encourage established business owners who have completed SBM II to continue exploring issues and options with other business owners and professionals in a confidential setting. Processes of analysis, problem solving, implementation, and evaluation are pursued in a structure of ten class meetings and ten individual business visits.

009.7254 - Small Business Management Practices IV

The SBM IV Program is organized to encourage established business owners who have completed the regular SBM Program to continue exploring issues and options with other business owners and professionals in a confidential setting. The SBM Alumni Program places even greater emphasis on projects related to individual company goals and strategies.

009.8011 - Farm Management/Records

This first-year, introductory course in farm business management focuses on the fundamentals of record keeping for farms and ranches. Farm business management starts with accurate record keeping, goal setting, and current agribusiness functions, the goal of this course.

009.8012 - Farm Management/Records and Analysis

This course will take the student through a step-by-step procedure to close out a complete year of farm business records. The course will emphasize tax planning, completing inputs to livestock and crop enterprises, and cash and liabilities accuracy.

009.8013 - Farm Management/Decisions

This course will help students refine their farm business data system and assist them in applying year-end procedures for farm business analysis. Students improve accuracy in the following: farm enterprise analysis, tax planning and filing, and cash and liabilities checks.

000.700.11 - Credit Retrieval – Information Skills

This course is an online module that enables students to obtain credits needed for high-school graduation outside of the regular high school program. Course content is designed to prepare students to be more successful in Information Skills upon completion. Students must be referred by their principal or counselor to attend program.

000.775.11 - Credit Retrieval - Workforce Skills

This course is an online module that enables students to obtain credits needed for high-school graduation outside of the regular high school program. Course content is designed to prepare students to be more successful in Workforce Skills upon completion. Students must be referred by their principal or counselor to attend program.

000.790.00 - Adult Basic Education Reading, Writing, and Math

This course provides instruction in reading, writing, and math to allow the student to become more efficient and gain a foundation for every day use.

000.790.12 - Adult Basic Education Mathematics

This course provides instruction and practice in the field of mathematics to allow the student to gain a foundation for functional use and everyday applications.

000.790.21 - Adult Basic Education Reading

This course focuses on exercises and skills that will enable students to increase their reading rate, comprehension, and efficiency.

000.790.22 - Adult Basic Education Mathematics-Intermediate

This course is a continuation from beginning ABE Math. It covers addition, subtraction, multiplication, and division.

000.791.15 - English Literacy Civics

This course is intended to integrate English literacy and civics education to immigrants and other limited English proficient populations so they may effectively participate in the education, work, and civic opportunities of this country.

000.791.31 - Citizenship

This course is intended to help immigrants study to become citizens of the United States. Students will be able to recognize, understand, and apply citizenship characteristics in every day life.

000.792.00 - English as a Second Language

This course is a multi-level course for students who are literate in their own language however they have the desire to improve their English Skills. Students will be periodically tested for progress.

000.792.21 - English as a Second Language 1

This course is for students who are barely literate or non-literate in their own language and speak very little English. Students will be periodically tested for progress.

000.792.31 - English as a Second Language 2

This course is for students who are barely literate or non-literate in their own language and speak very little English. Students at this level take the 27R or 28R CASAS Reading tests. These students score below 330 or SPL1 in the BEST Plus Oral test.

000.792.41 - English as a Second Language 3

This course is for students who are literate in their own language but have poor English translation skills. These students speak enough English to take care of daily situations. Students at this level have a CASAS Reading score between 200 and 210. They score below a 3 SPL in the BEST Plus Oral test.

000.792.51 - English as a Second Language 4

This course is for students who are literate in their own language and can independently translate English words. These students have high oral skills. They score at about a SPL 5 in the Best Plus Oral test. Their reading of life and employment skills rates between 210 and 215 in the CASAS Reading test.
000.792.66 - Introduction to English as a Second Language
This course is meant to introduce students to the ESL program. Students are educated on the program expectations, are informed of the program commitment, set academic and career goals and are introduced to the schools processes and procedures.

000.793.00 - GED Reading, Writing, and Math
This course is for students who are studying to pass the five parts of the GED exam. Students will be periodically tested for progress.

000.793.14 - Spanish GED
This course is for students who are studying to pass the GED exam in Spanish.

000.793.15 - GED Reading
This course is for students who are studying to pass the GED reading portion of the GED exam. Students will be periodically tested for progress.

000.793.16 - GED Writing
This course is designed for students who are studying to pass the GED writing portion of the GED exam. Students will be periodically tested for progress.

000.793.17 - GED Math
This course is designed for students who are studying to pass the GED math portion of the GED exam. Students will be periodically tested for progress.

000.793.66 - Introduction to GED
This course is meant to introduce students to the GED program. Students are educated on the program expectations, are informed of the program commitment, set academic and career goals and are introduced to the schools processes and procedures.

000.793.87 - Skills Tutor
Skills tutor is an online tutorial designed to supplement in class instruction. It is available to registered BMCC students.

000.793.99 - GED Lab
The GED lab is designed to supplement GED instruction in Reading, Writing and Math.

000.9101.11 - Credit Retrieval – Writing
This course is an online module that enables students to obtain credits needed for high-school graduation outside of the regular high school program. Course content is designed to prepare students to be more successful in Writing upon completion. Students must be referred by their principal or counselor to attend program.

000.9103.11 - Credit Retrieval - Reading
This course is an online module that enables students to obtain credits needed for high-school graduation outside of the regular high school program. Course content is designed to prepare students to be more successful in Reading upon completion. Students must be referred by their principal or counselor to attend program.

000.9112.11 - Credit Retrieval – Language Arts
This course is an online module that enables students to obtain credits needed for high-school graduation outside of the regular high school program. Course content is designed to prepare students to be more successful in Language Arts upon completion. Students must be referred by their principal or counselor to attend program.

000.9401.11 - Credit Retrieval – Science 1
This course is an online module that enables students to obtain credits needed for high-school graduation outside of the regular high school program. Course content is designed to prepare students to be more successful in Science 1 upon completion. Students must be referred by their principal or counselor to attend program.

000.9401.12 - Credit Retrieval – Science 2
This course is an online module that enables students to obtain credits needed for high-school graduation outside of the regular high school program. Course content is designed to prepare students to be more successful in Science 2 upon completion. Students must be referred by their principal or counselor to attend program.

000.961.11 - Credit Retrieval – Basic Math
This course is an online module that enables students to obtain credits needed for high-school graduation outside of the regular high school program. Course content is designed to prepare students to be more successful in Basic Math upon completion. Students must be referred by their principal or counselor to attend program.

000.961.12 - Credit Retrieval – Intermediate Math
This course is an online module that enables students to obtain credits needed for high-school graduation outside of the regular high school program. Course content is designed to prepare students to be more successful in Intermediate Math upon completion. Students must be referred by their principal or counselor to attend program.

000.9631.11 - Credit Retrieval – Algebra 1
This course is an online module that enables students to obtain credits needed for high-school graduation outside of the regular high school program. Course content is designed to prepare students to be more successful in Algebra 1 upon completion. Students must be referred by their principal or counselor to attend program.

>AGM131 - Agriculture Safety
Credits - 3 Lecture - 2 Lab - 1
A basic course in agricultural safety covering hand and power tools, equipment, chemical and environmental safety. Students will develop safe working habits and identify and correct safety hazards.

>AGM140 - Agriculture Engines
Credits - 3 Lecture - 2 Lab - 1
Students develop a practical understanding of the functioning, operation, and maintenance of the internal combustion engine, particularly as it is used in agricultural operations.

>AGM211 - Agriculture Construction and Surveying
Credits - 3 Lecture - 2 Lab - 1
Surveying, leveling and construction in agricultural applications. No Prerequisite.

>AGM221 - Metals and Welding
Credits - 3 Lecture - 2 Lab - 1
A basic course in welding using oxyacetylene torches and electric arc welding equipment emphasizing the development of skills and knowledge to safely and effectively accomplish practical repairs and fabrication in agricultural applications.

>AGM240 - Tractors
Credits - 2 Lecture - 1 Lab - 1
This course will acquaint students with agricultural tractors and their systems. Labs will be used extensively to develop student skills in operation and maintenance of tractors. Maneuvering, attaching, detaching, and using implements will be stressed.

>AGM241 - Agriculture Machinery
Credits - 3 Lecture - 2 Lab - 1
Tillage, planting, and harvest equipment used in Eastern Oregon agriculture covering economic factors, operation principles, adjustments, and maintenance of commonly used machines.

>AGM249 - Advanced Agricultural Shop
Credits - 2 Other - 2
Designed to build student skills in metalworking, woodworking, and agricultural mechanics with a laboratory element to allow time for in-depth practice as well as provide time for individual projects.
Course Descriptions

>AGM250 - Irrigation Systems Design
Credits - 3 Lecture - 2 Lab - 1
Designing drip, low pressure, and sprinkler irrigation systems with an emphasis on horticultural and field crop applications from pump to output nozzle.

>AGM251 - Irrigation Systems
Credits - 3 Lecture - 2 Lab - 1
Application of design skills learned in Irrigation Systems Design to actual in-field situations. Field trips will explore different applications of irrigation. Contemporary water issues will be discussed.
Recommended preparation: AGM250

>AGR101 - Agriculture Orientation
Credits - 1 Lecture - 1
The study of social, educational, and economic opportunities that are available on campus, in the community and in the agricultural industry. The student will plan his/her educational future and learn of different employment areas available upon graduation.

>AGR111 - Agriculture Computers
Credits - 3 Lecture - 2 Lab - 1
Application of personal microcomputers to farm and ranch situations. Use and evaluation of spread sheets, data bases, and word processing software are covered.

>AGR200 - Pre-Employment Seminar
Credits - 1 Lecture - 1
A class designed to assist the student in securing employment. Job-hunting techniques, interviewing skills, and the study of job related responsibilities and problems while advancing in a chosen career are major topics covered. A seminar format is used to encourage student participation.
Instructor approval required.

>AGR210 - Agriculture Accounting
Credits - 4 Lecture - 4
Simulation of ranch and farm record keeping including maintaining payroll, depreciation, cash flow and inventory records. Computer spreadsheets are used to assist in analysis of various farm/ranch enterprises.

>AGR211 - Agriculture Business Management
Credits - 3 Lecture - 2 Lab - 1
The study of the four basic assets needed to begin any farm or ranch business. Land, labor, capital, and management are evaluated to ascertain each component's ability to produce maximum economic returns.

>AGR221 - Agriculture Marketing
Credits - 3 Lecture - 3
The complex agriculture marketing process including study of the marketing system, marketing a specific farm commodity, and the importance of organization in marketing agricultural products.

>AGR226 - Agriculture Issues
Credits - 3 Lecture - 2 Lab - 1
Students will study current topics causing change in the agricultural industry. Students may research and report on trends as diverse as animal rights, chemicals and foods, land use, water rights, government subsidies, and others.

>AGR280 - Cooperative Work Experience
Credits - 1-8
Offered to agriculture students to work on-the-job in various agricultural fields to gain elective credits from BMCC. Also required in conjunction with several courses in our program. Instructor approval required.

>AGR296 - Production Problems
Credits - 4 Lecture - 4
Students will select an area related to agriculture and do a feasibility study or an economic analysis. Currently published figures will be used. The report will contain all information needed to make a justifiable and cost beneficial decision.
Instructor approval required.

>ANS031 - Basics of Horse Trimming and Shoewing
Credits - 1 Lab - 1
A course emphasizing horse hoof trimming, hoof care and basic shoeing. The course will be taught with hands-on experience for private horse owners and horse enthusiasts.

>ANS121 - Animal Science
Credits - 3 Lecture - 2 Lab - 1
Designed to familiarize students with the various phases of animal science and the modern livestock industry. Major subject areas discussed are: the livestock industry, livestock breeds, animal products, grading, and nutrition fundamentals. Labs involve students in hands-on experience and field trips.

>ANS122 - Animal Science
Credits - 3 Lecture - 2 Lab - 1
Approved practices in the modern livestock industry. Students gain technical knowledge in livestock reproduction, genetics, and modern breeds. Emphasis is placed upon performing skills commonly used by successful ranchers. Completion of ANS 121 preferred but not required.
ANS121 preferred not required.

>ANS196 - Special Studies
Credits - 1-3
Designed to provide interested and capable students with the opportunity to study special topics in the animal sciences.

>ANS211 - Animal Nutrition
Credits - 4 Lecture - 3 Lab - 1
Designed to develop an understanding of applied animal nutrition. This course will cover proteins, carbohydrates, lipids, vitamins, minerals, and the use of these nutrients by livestock. Rations will be balanced during the laboratory sessions. AGR 280 Cooperative Work Experience is required when enrolling in ANS 211.
Recommended preparation: ANS121
Corequisite: AGR280

>ANS212 - Animal Nutrition Recitation
Credits - 1 Lecture - 1
This class functions as a help session and a supplement for ANS 211 to enable students to become more proficient in balancing livestock rations. While many students can balance rations quickly and efficiently from the knowledge and skills gained in lecture and labs, others need additional instruction.
Corequisite: ANS211

>ANS216 - Pregnancy Testing/Bovine
Credits - 1 Lab - 1
This course is a "hands-in" course requiring students to pregnancy check a minimum of fifty cows to become proficient. This class has an open lab to accommodate students and give all adequate time to develop a high level of proficiency.
Recommended preparation: AGM121, ANS122 and instructor approval.

>ANS217 - Artificial Insemination
Credits - 3 Lecture - 2 Lab - 1
Basic considerations of reproductive physiology and artificial insemination of livestock. Emphasis in the lab is placed on the application of lecture material and developing proficiency in the artificial insemination of cattle.
Recommended preparation: ANS121 and ANS122

>ANS218 - Advanced Artificial Insemination
Credits - 1 Lab - 1
A course where students act as teaching assistants in the class to assure that this "hands-in" activity proceeds properly and safely. A.I. is a technical, difficult task requiring a great deal of practice and supervision to be done properly.
Prerequisite: ANS217

>ANS220 - Beef Production
Credits - 4 Lecture - 3 Lab - 1
Designed to enable students to learn proven practices in modern beef production. Students will develop skills which can lead to a successful cattle operation. Offered in even numbered years. Completion of ANS 121 & ANS 122 recommended but not required.
Completion of ANS121 and ANS122 recommended but not required.
Course Descriptions

>ANS221 - Horses and Horsemanship
Credits - 3 Lecture - 3 Lab - 1
Horse training, behavior, reproduction, nutrition, and diseases. The laboratory portion of the class will involve students in basic horsemanship techniques for breaking, training, evaluating, and caring properly for horses.

>ANS222 - Sheep and Swine Production
Credits - 4 Lecture - 3 Lab - 1
Fundamentals of modern sheep and swine production. Students develop skills and learn up-to-date, practical information. Offered in odd numbered years. Completion of ANS 121 & ANS 122 recommended but not required. Completion of ANS121 and ANS122 recommended but not required.

>ANS231 - Livestock Evaluation
Credits - 3 Lecture - 2 Lab - 1
The subject of livestock judging and evaluation is presented in a practical and direct manner. Classroom study of current type and market demand is combined with actual livestock judging experience. Classes of cattle, sheep, swine, and horses will be judged. Instructor approval required.

>ANS232 - Livestock Evaluation
Credits - 3 Lecture - 2 Lab - 1
More fully develops the principles emphasized in the first quarter. More time is spent in actual judging. Oral reasons for many of the classes are required. Students from this class participate on our intercollegiate livestock judging team. Recommended preparation: AGM231 for instructor approval.

>ANS233 - Livestock Evaluation/Oral Reasons
Credits - 1 Lab - 1
Oral reasons are given by Livestock Evaluation students to enhance their public speaking ability and to clearly define and justify their placements. This skill is critical to members of the Livestock Judging Team at BMCC. This training is recommended for other students who wish to improve their communication skills. Completion of or concurrent enrollment in ANS 231 required.

*ANTH101 - Introduction to Physical Anthropology
Credits - 3 Lecture - 3
Principles of evolution applied to evidence for human physical change and development; study of fossil humans and human variation. Satisfies science group requirements at some four-year colleges. Recommended preparation: WR060

*ANTH102 - Introduction to Archaeology and Prehistory
Credits - 3 Lecture - 3
Study of archaeological methods and evidence for the evolution of human cultures and an understanding of how and why cultures change. Recommended preparation: CS080, WR060

*ANTH103 - Introduction to Cultural Anthropology
Credits - 3 Lecture - 3
Study of the organization and functioning of selected world cultures, both Western and non-Western groups. Recommended preparation: WR060

*ANTH298 - Special Studies
Credits - 1-3
Special topics in anthropology. Recommended preparation: WR060

*ART101 - Introduction to Visual Arts
Credits - 3 Lecture - 3
Addresses seeing, experiencing, and appreciating the world through architecture, gardens, fountains, and public spaces. Examines how communities express the values, technology, geography, and economic structure of many different cultures in the light of aesthetic, historic, and critical factors.

*ART102 - Introduction to Visual Arts
Credits - 3 Lecture - 3
Addresses painting and sculpture in terms of experiencing, appreciating, and understanding their role in our lives. Art is examined in the light of aesthetic, historic, and critical issues.

*ART103 - Introduction to Visual Arts
Credits - 3 Lecture - 3
Addresses issues relating to design in our daily lives including commercial, industrial, crafts, and product design. Examines how design expresses the values, technology, economy, and taste of our culture in light of aesthetic, historic, and critical factors.

*ART115 - Basic Design
Credits - 3 Lecture - 2 Lab - 1
The hands-on study of composition, structure and arrangements of various components for all aesthetic creation. An important foundation class for any designer. Emphasis given to the elements and principles of design learned by practical applications through experimentation in a variety of medium and art forms.

*ART116 - Basic Design
Credits - 3 Lecture - 2 Lab - 1
A non-sequential course exploring more medium and art forms in learning the fundamentals of arrangements for art and design creations (see description for ART 115).
*ART198 - Special Studies
Credits - 1-3
Individualized study in areas not considered in other courses to meet special interest or program requirements. Complete a term project approved by the instructor. Course is repeatable up to 2 times (2-6 credits total.)
Recommended preparation: Prior study and instructor's permission.

*ART204 - History of Western Art
Credits - 3 Lecture - 3
A history of the visual arts in the Western world. This course surveys developments in painting, sculpture, and architecture from the Prehistoric period through the Byzantine era.

*ART205 - History of Western Art
Credits - 3 Lecture - 3
A history of visual arts in the Western world. This course surveys developments in painting, sculpture, and architecture from Romanesque period through the Renaissance up to the Baroque and Rococo.

*ART206 - History of Western Art
Credits - 3 Lecture - 3
A history of visual arts in the Western world. This course surveys developments in painting, sculpture, and architecture from the Neoclassical period through the developments of the 20th Century.

*ART222 - Graphic Design
Credits - 3 Lecture - 2 Lab - 1
Typography, layout design, computer graphics. Offers study and practice in the principles and processes of graphic communication and production concept design to camera-ready art. Offered periodically.

*ART223 - Graphic Design
Credits - 3 Lecture - 2 Lab - 1
Intermediate course in principles and process of graphic design communication. Offered periodically.

*ART231 - Intermediate Drawing
Credits - 3 Lecture - 2 Lab - 1
Basic drawing fundamentals. A continuation of ART 133 at the intermediate level. (See description for ART 131)

*ART232 - Intermediate Drawing
Credits - 3 Lecture - 2 Lab - 1
Basic drawing fundamentals. A continuation of ART 133 at the intermediate level. (See description for ART 131)

*ART233 - Intermediate Drawing
Credits - 3 Lecture - 2 Lab - 1
Basic drawing fundamentals. A continuation of ART 133 at the intermediate level (see description for ART 131).

*ART254 - Intermediate Ceramics
Credits - 3 Lecture - 2 Lab - 1
Continuation of ceramic studies. A continuation of ART 156 at the intermediate level.

*ART255 - Intermediate Ceramics
Credits - 3 Lecture - 2 Lab - 1
Continuation of ceramic studies. A continuation of ART 156 at the intermediate level.
Recommended preparation: ART154

*ART256 - Intermediate Ceramics
Credits - 3 Lecture - 2 Lab - 1
Continuation of ceramic studies. A continuation of ART 156 at the intermediate level.
Recommended preparation: ART154 and ART155

*ART261 - Beginning Photography
Credits - 3 Lecture - 2 Lab - 1
Black and white photographic processes and techniques; development of camera and darkroom skills; seeing photographically.

*ART262 - Digital Photo Imaging
Credits - 3 Lecture - 2 Lab - 1
Studio course introducing the concepts, techniques, practices, aesthetics, and ethics of photographic imaging and image making with digital technologies. Includes experimentation with the camera and the digital darkroom. Methods include capturing, color correcting and balancing, retouching, layering, masking, composition, and output for printing or digital media presentation.

*ART263 - Beginning Photography
Credits - 3 Lecture - 2 Lab - 1
A non-sequential course similar to ART 261 (see description for ART 261).

*ART264 - Intermediate Photography
Credits - 3 Lecture - 2 Lab - 1
Intermediate black and white photographic processes and techniques; further development of camera and darkroom skills; seeing photographically.
Recommended preparation: Instructor approval

*ART265 - Intermediate Photography
Credits - 3 Lecture - 2 Lab - 1
A non-sequential course similar to ART 264 (see description for ART 264).
Recommended preparation: Instructor approval

*ART266 - Intermediate Photography
Credits - 3 Lecture - 2 Lab - 1
A non-sequential course similar to ART 264 (see description for ART 264).
Recommended preparation: Instructor approval

*ART276 - Beginning Sculpture
Credits - 3 Lecture - 2 Lab - 1
A hands-on introduction to studio sculpture through exploring various styles, techniques, and materials of three-dimensional artistic creation. Experiences also include mold making and casting.

*ART277 - Beginning Sculpture
Credits - 3 Lecture - 2 Lab - 1
A non-sequential course similar to ART 276 (see description for ART 276).

*ART278 - Beginning Sculpture
Credits - 3 Lecture - 2 Lab - 1
A non-sequential course similar to ART 276 (see description for ART 276).

*ART281 - Beginning Painting
Credits - 3 Lecture - 2 Lab - 1
A non-sequential course similar to ART 281. (See description for ART 281)

*ART283 - Beginning Painting
Credits - 3 Lecture - 2 Lab - 1
A non-sequential course similar to ART 281 (see description for ART 281).

*ART284 - Intermediate Painting
Credits - 3 Lecture - 2 Lab - 1
Continuation of oil or acrylic painting (see description for ART 281).
Prerequisite: ART281, 282, 283

*ART285 - Intermediate Painting
Credits - 3 Lecture - 2 Lab - 1
Continuation of ART 284 - intermediate level (see description for ART 281).

*ART286 - Intermediate Painting
Credits - 3 Lecture - 2 Lab - 1
Continuation of ART 284 - intermediate level (see description for ART 281).

*ART291 - Intermediate Sculpture
Credits - 3 Lecture - 2 Lab - 1
Continuation of ART 278 - intermediate level (see description for ART 276).

*ART292 - Intermediate Sculpture
Credits - 3 Lecture - 2 Lab - 1
Continuation of ART 278 - intermediate level (see description for ART 276).

*ART293 - Intermediate Sculpture
Credits - 3 Lecture - 2 Lab - 1
Continuation of ART 278 - intermediate level (see description for ART 276).
>ART298 - Special Studies
Credits - 1-3
Advanced, individualized study in areas not considered in other courses to meet special interests or program requirements. Complete a term project approved by the instructor. Course is repeatable up to 2 times. (2-6 credits total.) Recommended preparation: Prior study and instructor permission.

>BA101 - Introduction to Business
Credits - 4 Lecture - 4
Introduction to business organization, operation, marketing, management, and finance. Course is designed to help students choose their field of major concentration.

>BA104 - Business Mathematics
Credits - 4 Lecture - 4
A study of banking applications, fractions, percentages, payrolls, commissions, trade and cash discounts, markup, simple interest, notes and interest variables, and charges for credit. Recommended preparation: MTH025

>BA105 - Business Mathematics
Credits - 4 Lecture - 4
A study of inventories, depreciation, financial statement analysis, stocks and bonds, compound interest, present and future value. Recommended preparation: BA104

>BA110A - Business Computer Application/MS Access
Credits - 3 Lecture - 2 Other - 1
Basic application and utilization of MS Access database software to solve business computing problems. Focus will include designing and building a database, applying queries, creating reports, using forms, and advanced printing. Recommended preparation: BA131 and QA120

>BA110X - Business Computer Applications/MS Excel
Credits - 3 Lecture - 2 Lab - 1
Basic application and utilization of MS Excel spreadsheet software to solve business computing problems. Focus will include developing a worksheet, changing formats/appearance, using formulas, creating charts, and advanced printing. Recommended preparation: BA131 and MTH025

>BA111 - Basic Accounting
Credits - 4 Lecture - 3 Other - 1
Provides a basic understanding of debits and credits and financial statements for service enterprises and merchandising businesses.

>BA113 - Credit Procedures
Credits - 3 Lecture - 3
Principles of consumer and commercial credit management. Covers types of credit instruments, sources of information, collection, and control.

>BA116 - Bookkeeping Practice
Credits - 2 Other - 2
A hands-on practice set designed to give the student experience with current accounting software.

>BA131 - Introduction to Business Computing
Credits - 4 Lecture - 3 Lab - 1
General orientation to computer operations and literacy, along with an insight into the broad impact of computers and their uses in today's society. The fundamentals of using the Microsoft Windows operating system, email, web browsers, word processing, spreadsheets, and databases will be developed through hands-on use in the computer lab. Recommended preparation: OA120 or instructor approval

>BA155 - Introduction to Fraud Examination
Credits - 3 Lecture - 3
An introduction to how and why occupational fraud is committed, how fraudulent conduct can be deterred, and how allegations of fraud should be investigated and resolved.

>BA177 - Payroll Accounting
Credits - 4 Lecture - 3 Other - 1
Introduction to personnel and payroll records, including all current Federal and State payroll taxes. Provides ample practice in preparation of payroll records by hand and by using a computerized payroll accounting software. Recommended preparation: Accounting class

>BA198 - Special Studies
Credits - 1-3
Designed to provide interested and capable students with the opportunity to study special topics in business areas. Recommended preparation: Instructor approval

>BA206 - Principles of Management
Credits - 4 Lecture - 4
Principles of management and their applications in organization, administration, and production in the business environment.

>BA207 - E-Commerce
Credits - 4 Lecture - 4
This is a comprehensive 4-credit course designed to prepare the business professional for a challenging role in today's national and international online markets.

>BA209A - Accounting Applications
Credits - 3 Lecture - 2 Other - 1
Completion of accounting practice sets varying from simple to complex on the computer using Peachtree software.

>BA209P - Accounting Applications/Payroll
Credits - 4 Lecture - 2 Other - 2
Completion of payroll accounting practice sets varying from simple to complex on the computer using Peachtree and/or QuickBooks software. Recommended preparation: Accounting class with a C or better.

>BA209Q - Accounting Applications/QuickBooks
Credits - 3 Lecture - 2 Other - 1
Computerized accounting using QuickBooks software, an integrated computerized accounting package relating to service and merchandising businesses. Recommended preparation: Accounting class with a C or better.

>BA210 - Microcomputer Applications - Advanced Excel
Credits - 3 Lecture - 2 Lab - 1
Advanced application and utilization of MS Excel program software to solve business problems by modeling advanced spreadsheets commonly used in the business world. Prerequisite: BA110X

>BA211 - Principles of Accounting
Credits - 4 Lecture - 3 Other - 1
Introduction to accounting including techniques of account construction, preparation of financial statements, application of accounting principles to practical business problems, and proprietorship studies.

>BA212 - Principles of Accounting
Credits - 4 Lecture - 3 Other - 1
A continuation of BA 211. Emphasis is on corporations and managerial accounting. Prerequisite: BA211 with C grade or better.

>BA213 - Principles of Accounting
Credits - 4 Lecture - 3 Other - 1
A continuation of BA 212 with emphasis on managerial accounting. Prerequisite: BA211 and BA212 with C grade or better.

>BA214 - Business Communications
Credits - 3 Lecture - 3
Concepts and skills necessary to write clean, concise business prose including letters, memos, and reports for standard business uses. Some time is also devoted to oral communications relevant to the business community. The purpose of this course is to help students develop skills to write clean, concise business correspondence and to enter the job market with the appropriate skills knowledge. The course will emphasize skills applicable to both the job search and on-the-job skills. Prerequisite: WR121 (typing or word processing skills strongly recommended) Recommended preparation: OA121 and WR121
Course Descriptions

>BA215 - Cost Accounting
Credits - 4 Lecture - 3 Other - 1
The design and development of cost systems, cost analysis, and management use of cost information.

>BA220 - Tax Accounting
Credits - 4 Lecture - 3 Other - 1
Designed to assist students in becoming proficient in preparing federal and state of Oregon individual tax returns. Upon successful completion of this course and BA 221, students will meet the state educational requirements for the Oregon Licensed Tax Preparer's test.

>BA221 - Accounting Problems/Tax
Credits - 4 Lecture - 3 Other - 1
A continuation of BA 220. Combined with BA 220, this class prepares the student to sit for the Oregon Licensed Tax Preparer's test.

>BA222 - Finance
Credits - 3 Lecture - 3
This course covers an introduction to financial markets in which funds are traded, the institutions which participate in and facilitate these flows of funds and principles, and concepts of financial management which guide the student in making sound financial decisions.

>BA223 - Principles of Marketing
Credits - 4 Lecture - 4
General survey of the nature and role of marketing with emphasis on products, pricing, distribution, and promotion.

>BA224 - Human Resources Management
Credits - 3 Lecture - 3
Introduction to the field of human resources management covering staffing, wage and salary administration, fringe benefits, training and orientation, testing and evaluation, labor relations and unions, and personnel research.
Prerequisite: BA206 or instructor approval.

^BA226 - Business Law
Credits - 4 Lecture - 4
The origins of law, the relations of business to society and the law; the evolution of business within the framework of the law, and the development and present-day applications of the law to contracts, sales, and agencies.

>BA238 - Personal Selling
Credits - 3 Lecture - 3
General sales techniques involving successful personal selling of goods, services, or ideas which includes discussion of motives, sales psychology, prospecting for customers, and sales techniques.

>BA239 - Retail Promotion
Credits - 3 Lecture - 3
A general survey of the field of retail promotion including the study of retail advertising, display, layout, and the selection of appropriate media.

>BA249 - Retail Selling
Credits - 3 Lecture - 3
General sales techniques involving the factors of successful selling of retail goods and services including retail buying motives, sales psychology, customer approach, and retail sales techniques.

>BA251 - Office Management
Credits - 3 Lecture - 3
Introduction to the field of office management covering problems in staffing, training, work standards, layout of offices, supervision, pay and benefits, working conditions, and staff motivation.

>BA261 - Intermediate Accounting
Credits - 4 Lecture - 3 Other - 1
Continues the study of accounting principles, the theory underlying the determination of income, and the presentation of financial statements.

>BA262 - Intermediate Accounting
Credits - 4 Lecture - 3 Other - 1
A continuation of BA 261.

>BA263 - Intermediate Accounting
Credits - 4 Lecture - 3 Other - 1
A continuation of BA 262.

>BA265 - Accounting Problems
Credits - 4 Lecture - 3 Other - 1
An advanced course dealing with accounting problems in the areas of partnership, branch offices, and governmental accounting.

>BA268 - Introduction to Auditing
Credits - 3 Lecture - 3
Basic principles and procedures of the examination of financial statements as well as the principles involved in obtaining audit proofs applicable to any audit functions.

>BA271 - Analyzing Financial Statements
Credits - 3 Lecture - 3
Includes accounting characteristics of financial statements and the analysis of each component.

>BA277 - Business Ethics
Credits - 3 Lecture - 3
Ethical aspects and practices of business and professional organizations and their employees including a brief introduction to traditional theories of ethics.

^BA280 - Cooperative Work Experience
Credits - 1-6
Provides an experience in the business work environment. A maximum of 12 credits can be earned in any one school year.
Recommended preparation: Instructor approval

>BA284 - Pre-Employment Seminar
Credits - 1 Lecture - 1
Designed to assist the student in resume and cover letter preparation, interviews, application forms, employment searches, and helpful techniques in obtaining, holding, and advancing in a job.

>BA285 - Human Relations in Business
Credits - 3 Lecture - 3
Designed to develop effective human relations in the workplace including: achieving a deepened sense of awareness of self and others, interpersonal communication skills, motivation, valuing diversity, and organizational politics.

^BA298 - Special Studies
Credits - 1-3
Provides interested and capable students the opportunity to study special topics in the field of business.
Recommended preparation: Instructor approval

BI080 - Anatomy and Physiology
Credits - 3 Lecture - 3
Anatomy and Physiology is the study of the structures of the body and how these structures normally function. Emphasis is on a systemic approach to the study of human anatomy and physiology.

^*BI101 - General Biology
Credits - 4 Lecture - 3 Lab - 1
A survey course in biological science which fulfills the laboratory science requirement for non-science majors. Topics include biochemistry, cells, genetics, and evolution. Need not be taken in sequence.

^*BI102 - General Biology
Credits - 4 Lecture - 3 Lab - 1
A part of the general biology sequence. Topics covered include: cell physiology, classification of viruses, bacteria, protists, fungi and plants, and plant anatomy and physiology. Need not be taken in sequence.

^*BI103 - General Biology
Credits - 4 Lecture - 3 Lab - 1
A part of the general biology sequence. Topics covered include animal taxonomy, physiology, behavior, and ecology. Need not be taken in sequence.

^*BI124 - Global Ecology and Conservation Biology
Credits - 4 Lecture - 3 Lab - 1
Introduction to ecology including a multidisciplinary investigation of the ways humans interact with habitats worldwide. Course fulfills the laboratory science requirement for non-science majors. Offered periodically.

Symbols: ^ - Elective + - Lab Science * - Group Distribution > - P/T Elective
**BI149 - Human Genetics**  
Credits - 3 Lecture - 3  
An introductory lecture course in genetics with emphasis on human aspects. Topics include cellular basis of genetics, Mendelian inheritance, evolutionary genetics, and the molecular basis of inheritance. Offered periodically.

**BI162 - Selected Topics in Natural History**  
Credits - 4 Lecture - 3 Lab - 1  
The course covers the field study of natural environments. The course may be repeated for credit with different subtitles. The specific title of the course offered in any given term will be listed in the class schedule. Course fulfills lab science requirement. Offered periodically.  
Recommended preparation: Instructor approval

**BI163 - Natural History of Oregon**  
Credits - 4 Lecture - 3 Lab - 1  
Introduction to Oregon's biogeographic provinces. The organisms, communities, geology, and the interactions of these to form the different provinces will be studied. Extended field trips will be taken. Course fulfills lab science requirement. Offered periodically.  
Recommended preparation: Instructor approval

**BI198 - Special Studies**  
Credits - 1-3  
Provides interested and capable students the opportunity to study special topics in the field of biology.  
Recommended preparation: Instructor approval

**BI211 - General Biology**  
Credits - 5 Lecture - 4 Lab - 1  
A class designed for students majoring in the biological and allied science areas. Topics are cell anatomy and physiology, genetics, and evolution. Need not be taken in sequence.  
Recommended corequisite: CH121 or CH221

**BI212 - General Biology**  
Credits - 5 Lecture - 4 Lab - 1  
Subjects covered are evolution, animal taxonomy, anatomy & physiology, behavior and ecology. Need not be taken in sequence.

**BI213 - General Biology**  
Credits - 5 Lecture - 4 Lab - 1  
Course deals with taxonomy of bacteria, viruses, protists, fungi and plants, plant anatomy and physiology, and ecology. Need not be taken in sequence.

**BI231 - Human Anatomy and Physiology**  
Credits - 4 Lecture - 3 Lab - 1  
A study of the structures of the systems of the human organism. Systems emphasized include the skeletal, muscular cardiovascular, urinary, and digestive systems.

**BI232 - Human Anatomy and Physiology**  
Credits - 4 Lecture - 3 Lab - 1  
The functional aspects of the human organism are emphasized. Topics include neuron function, skeletal muscle physiology, cardiovascular physiology, and transport mechanisms.  
Prerequisite: BI231

**BI233 - Human Anatomy and Physiology**  
Credits - 4 Lecture - 3 Lab - 1  
A study of the structure and function of prokaryotic and eukaryotic cells. Topics include: reproduction, protein synthesis, enzymology, and immune functions.  
Prerequisite: BI232

**BI234 - Microbiology**  
Credits - 4 Lecture - 3 Lab - 1  
An introductory course in microbiology, with emphasis on anatomy and physiology of bacteria, fungi and viruses, and proper techniques for handling and studying microorganisms.

**BOT221 - Systematic Botany**  
Credits - 4 Lecture - 3 Lab - 1  
An introductory course in plant systematics with emphasis placed on the proficient use of Hitchcock's "Flora of the Pacific Northwest." The recognition characteristics of plant families plus the identification of local plants is stressed in this course. This is a field course.

**BT101 - Office Careers Survey**  
Credits - 1 Lecture - 1  
A survey of employment opportunities in the area served by BMCC. Includes the education requirements for various types of jobs, working conditions, salaries, opportunities for advancement, and available on-the-job training.

**BT116 - Office Procedures**  
Credits - 3 Lecture - 3  
An overview of business etiquette, interoffice relations, business customs, routines, tasks and procedures, self-appraisal and careers in the electronic office.

**BT120 - Computer Keyboarding**  
Credits - 2 Other - 2  
Touch typing on the computer keyboard on alphabet keys with emphasis on improving the student's speed and accuracy. Students are given individualized skill-building exercises using computer-assisted instruction.

**BT121 - Keyboarding**  
Credits - 3 Lecture - 2 Other - 1  
This is a beginning course designed for the beginning student. The major objectives of this course are to build basic speed and accuracy skills; and provide practice in applying those basic skills to the production of letters, reports, tables, memos, forms and other kinds of personal, personal-business, and business communication.

**BT122 - Keyboarding**  
Credits - 3 Lecture - 2 Other - 1  
This course promotes the further development of basic keyboarding skills and emphasizes the production of a wide range of typical business correspondence, tables, reports, and forms from unarranged and rough-draft sources. The job students prepare and the formats they use are based on current software practices. Basic desktop publishing is introduced. Skill-building is stressed to increase speed to a minimum of 40 words per minute.

**BT123 - Keyboarding**  
Credits - 3 Lecture - 2 Other - 1  
This course contains a brief review of basic production techniques. Integrated office projects emphasize and provide practice in applying such modern office skills as editing, abstracting, decision-making, setting priorities, following directions, and working under pressure with interruptions. Skill-building is continued to increase speed to a minimum of 50 words per minute.

**BT124 - Applied Keyboarding**  
Credits - 3 Other - 3  
BT124 Keyboarding will help develop your speed and accuracy using a computer. You will use a thoroughly tested skillbuilding program to measure your keyboarding speed and accuracy and to determine any specific keyboarding problems you might have by analyzing diagnostic tests that you will take. This course will help you to meet hiring criteria for words per minute on an employment test.

**BT125 - Applied Keyboarding**  
Credits - 3 Other - 3  
Designed to develop skill in preparing business papers at a level that requires analysis, judgment, ability to prioritize, and capability to do production typewriting. A skill-building program is used to continue speed development.

**BT131 - Legal Office Procedures**  
Credits - 3 Lecture - 3  
This course is a practical, comprehensive course that prepares legal assistant students for the law office environment.

**BT140 - Business Document Editing**  
Credits - 3 Lecture - 2 Other - 1  
Review of grammar and proofreading skills needed in preparing business documents using word processing software and equipment.
Course Descriptions

>BT201M - Word Processing/MS Word
Credits - 3 Lecture - 2 Other - 1
Basic application and utilization of MS Word software to solve business computing problems. Focus includes creating and formatting documents, editing, merging documents, using columns, and adding graphics.

>BT201W - Word Processing II/WordPerfect
Credits - 3 Lecture - 2 Other - 1
Instruction in the use of WordPerfect software. Emphasis is placed on creating, formatting, editing, margining business documents, text columns and elementary graphics.

>BT202M - Word Processing/MS Word
Credits - 3 Lecture - 2 Other - 1
Advanced application and utilization of MS Word software to solve business computing problems. Focus includes collaboration of documents, adding comments, tracking changes, saving versions, completing complex merges, building macros, advanced graphics, and integrating Excel charts, Access tables and PowerPoint slide shows.

>BT202W - Word Processing II/WordPerfect
Credits - 3 Lecture - 2 Other - 1
Intermediate instruction in the use of WordPerfect software. Features include developing footnotes, headers, text columns, macros and graphics.

>BT204 - Advanced Word Processing Applications
Credits - 3 Lecture - 2 Other - 1
Advanced training in the use of word processing software. Various business documents are produced using advanced procedures to produce more complex merges, text columns, tables with math, macros and graphics. Comprehensive training continues in editing and formatting using multiple documents in Windows.

>BT206 - Desktop Publishing
Credits - 3 Lecture - 2 Other - 1
Applications of software in basic desktop publishing to create various business and personal documents. Extensive use of fonts and graphics will be used in documents designed and created by the student. Previous experience in application software is strongly recommended.

>BT220 - Calculating Machines
Credits - 3 Lecture - 2 Other - 1
Operation of electronic printing calculators using touch-fingered to do mathematical problems involving addition, subtraction, multiplication, division, percentages, constant factors, multiple factors, accumulation of products and quotients, negative multiplication, exponents, decimal equivalents, and reciprocals.

>BT225 - Machine Transcription
Credits - 2 Other - 2
Development of skills in the transcription of recorded dictation using word processing software to produce marketable business correspondence.

>BT226 - Advanced Machine Transcription
Credits - 2 Other - 2
A continuation of BT225 with increasing levels of difficulty in specialty areas.

>BT230 - Legal Terminology
Credits - 3 Lecture - 3
This course is a practical, comprehensive course that prepares legal assistant students for the law office environment.

>BT231 - Legal Transcription
Credits - 3 Lecture - 2 Other - 1
Development of skill in the transcription of recorded legal dictation using word processing software to produce legal documents and correspondence.

>BT240 - Records Management
Credits - 3 Lecture - 3
Effective methods and systems of storing and retrieving business information, managerial considerations necessary for an efficient records management program and qualifications needed for a career in records management.

>BT251 - Medical Terminology
Credits - 3 Lecture - 3
Medical terms that pertain to body systems, anatomical structures, medical processes and procedures and a variety of diseases which are part of a specialized language that the health care team uses to communicate concisely and accurately.

>BT252 - Medical Terminology
Credits - 3 Lecture - 3
A continuation of BT 251 with particular emphasis on medical terminology pertaining to the body systems.

>BT253 - Medical Transcription
Credits - 3 Other - 3
Introduction to transcription of medical office and hospital records including histories, physicals, radiology and pathology reports, consultations, operative reports, discharge summaries, and autopsies.

>BT254 - Medical Transcription
Credits - 3 Other - 3
A continuation of BT 253 designed to develop expertise in transcribing medical records in specialty areas.

>BT255 - Medical Transcription
Credits - 3 Other - 3
A continuation of BT 254 designed to develop expertise in transcribing medical records in additional specialty areas. Includes background noise and dictation by speakers with foreign accents.

>BT257 - Medical Office Procedures
Credits - 3 Lecture - 2 Other - 1
An office practice simulation designed to emphasize routine medical office procedures including medical vocabulary and spelling, medical ethics, medical telephone procedures, medical records management and medical transcription and coding.

>BT258 - Medical Insurance Procedures and Coding
Credits - 3 Lecture - 3
Medical insurance records management for private health and accident insurance, Medicare, Medicaid, Workers’ Compensation. Emphasizes abstracting information from health records for billing and transfer forms. Includes introductory use of CPT-4 and ICD-9M coding.

>BT280 - Cooperative Work Experience
Credits - 1-8
Provides an experience in the business work environment which complements classroom instruction. A maximum of 12 credits can be earned in any one school year.

>BT290 - Integrated Office Systems
Credits - 3 Lecture - 2 Other - 1
This is a capstone course for students who are completing the final term of a two-year AAS degree. The course includes a simulated office experience for students in a practical application of skills and concepts acquired in all business programs. Microsoft Office software and use of the internet is applied.

CET074 - Technical Communications
Credits - 3 Lecture - 3
A course which focuses on the combined use of oral, written, and graphic communication skills to prepare comprehensive technical reports based on a comprehensive investigative or design project.
Prerequisite: SP100 and WR065

>CET111 - Introduction to Engineering Technology
Credits - 3 Lecture - 3
An orientation course for engineering technicians presenting the historical development of engineering as a profession and related issues of ethics, careers, and licensing. Introduction to problem solving format, dimensional analysis, and the hand-held calculator.
Prerequisite: MTH060 or instructor approval.
>CET112 - Computer Aided Drafting  
Credits - 3 Other - 3  
An introduction to computer aided drafting using AutoCAD software, including design set up, file management, entity creation, and manipulation. Projects will include orthographic projection, sections, dimensioning, and isometric drawings.

>CET113 - Advanced Computer Aided Drafting  
Credits - 3 Other - 3  
Advanced CAD applications utilizing reference files, symbols/cell libraries and work space setup in the development of drawings for civil structural purposes and building projects including buildings, bridges, site plans, subdivisions and highway design projects using the Microstation software.  
Prerequisite: CET112

>CET114 - Introduction to Geographic Information Systems  
Credits - 3 Other - 3  
An introduction to the fundamentals of geographic information systems (GIS) including a brief history of automated mapping, and basic cartographic principles including map scales/coordinate systems/map projections.  
Hands on use of computer-based ESRI Software will introduce the concepts of layering data from multiple sources into a coherent system.  
Applicable to geography, sciences, agriculture, business, and engineering uses.

>CET145 - Engineering Graphics  
Credits - 3 Other - 3  
An introduction to design processes, graphical analysis, and solutions using fundamental graphic communication concepts including sketching, lettering, geometric constructions, projection theory, orthographic drawing, dimensioning, sections, and pictorial representation.

>CET152 - Materials of Construction  
Credits - 2 Lecture - 2  
The physical characteristics, production and testing methods of materials used in engineering construction.

>CET162 - Engineering Materials  
Credits - 3 Lecture - 3  
Basic properties, behavior and survey of engineering applications of materials.

>CET205 - Structural Drafting  
Credits - 3 Other - 3  
Layout and detailing of timber, steel, and reinforced concrete structural elements using manual and computer-aided drafting procedures.  
Prerequisite: CET112, CET145 or instructor approval.

>CET215 - Contract Documents  
Credits - 4 Lecture - 3 Other - 1  
Interpreting contract documents emphasizing civil law as it relates to contract administration, plans and specifications, and effects on construction practice.

>CET222 - Concrete Practices  
Credits - 4 Lecture - 3 Lab - 1  
CET 222 incorporates the areas of study covered in CET 222A, CET 222B and CET 222C.

>CET222A - Concrete Field Testing Technician  
Credits - 1 Lecture - 1  
A study of the Basics of Concrete relating to the testing of fresh concrete. Material prepares students for completion of the ACI-Field Testing Technician I and ODOT Quality Control Technician Certification Requirements.

>CET222B - Concrete Control Technician  
Credits - 1 Lecture - 1  
A study of the Fundamental of Mix Design, review of the Basics of Concrete and in-depth investigation of the properties of concrete materials. Students are instructed in the Absolute Volume Method of Mix Design and the techniques required to meet job site specifications for concrete. Material prepares students for complete of the ODOT Concrete Control Technician Certification Requirements.

>CET222C - Concrete Strength Testing Technician  
Credits - 1 Lecture - 1  
Material prepares students for completion of the ACI-Concrete Strength Testing Technician Certification Requirements.

>CET223 - Soil Mechanics  
Credits - 3 Lecture - 2 Lab - 1  
Introduction to soils as engineering materials. Includes classification, evaluation of various physical properties using index tests, and the engineering significance of those properties. Introduction to foundations and excavations.

>CET231 - Structures  
Credits - 4 Lecture - 3 Lab - 1  
Evaluation of stress-strain relationships as related to engineering materials, with emphasis on timber and steel. Includes analysis of structural members and their connections, torsion on power-transmitting shafts, and centroids and moments of inertia of stress.  
Prerequisite: GS104 or PHY201 or PHY211

>CET235 - Structures  
Credits - 4 Lecture - 3 Lab - 1  
Design of simple beams and columns utilizing an analysis of stress-strain relationships as related to engineering materials, with emphasis on timber and steel. Analysis of structural members and their connections, torsion on power transmitting shafts, centroids and moments of inertia of stress.  
Prerequisite: CET231

>CET242 - Structures  
Credits - 4 Lecture - 3 Lab - 1  
Utilization of LRFD design methods for design of basic concrete structures with emphasis on singly reinforced flexural members including rectangular beams, T-beams, floor slabs, and walls.

>CET251 - Estimating Construction Costs  
Credits - 4 Lecture - 3 Lab - 1  
Study of processes related to scheduling, estimating and codes in construction. Includes CPM, Quantity Take-Off, Labor-Time and bidding procedures.  
Prerequisite: CET215

>CET261 - Hydraulics  
Credits - 4 Lecture - 3 Other - 1  
Introduction to fluid mechanics with emphasis on basic principles of incompressible fluids and their practical application to fluids at rest, steady flow of liquids in closed conduits and open channels, head losses in pipe flow and flow measuring devices.  
Prerequisite: PH211, PHY201 or GS104

>CET263 - 3-D Computer Aided Drafting  
Credits - 3 Other - 3  
An advanced course using 3-D CAD environment on the Microstation platform to create solid models of objects and buildings. Includes operations to utilize sheet files, materials, palettes, sectioning tools, and exporting tools.  
Prerequisite: CET113

>CET280 - Cooperative Work Experience  
Credits - 1-8  
Supervised production drafting and related work in governmental and private offices.  
Recommended preparation: Instructor approval

>+CH104 - Elementary Chemistry  
Credits - 5 Lecture - 4 Lab - 1  
A medically oriented chemistry sequence for students seeking admission to a nursing or allied health program. A prerequisite for both the licensed practical nurse (LPN) and associate degree nurse (ADN), the course is a study of general, organic, and biochemistry which applies to nursing or allied health.  
Prerequisite: MTH060
Course Descriptions

**CH105 - Elementary Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
A continuation of CH 104.  
Prerequisite: CH104

**CH106 - Elementary Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
A continuation of CH 105.  
Prerequisite: CH105

**CH121 - College Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
The first term of an introductory course in general, inorganic, organic, and biochemistry. This sequence fulfills the prerequisite for organic chemistry.  
Prerequisite: MTH065 or instructor approval.

**CH122 - College Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
A continuation of CH 121.  
Prerequisite: CH121

**CH123 - College Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
A continuation of CH 122.  
Prerequisite: CH122

**CH221 - General Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
Professional course for students majoring in chemistry, dentistry, veterinary science, pharmacy, engineering, medicine, forestry, and related sciences or for non-science majors wanting a more rigorous mathematical course than the CH 121 sequence.  
Corequisite: MTH111

**CH222 - General Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
A continuation of CH 221.  
Prerequisite: CH221

**CH223 - General Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
A continuation of CH 222.  
Prerequisite: CH222

**CH241 - Organic Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
A laboratory course in organic chemistry for students majoring in chemistry, dentistry, veterinary science, pharmacy, engineering, medicine, forestry and related sciences. Covers the chemistry of aliphatic and aromatic organic compounds emphasizing mechanistic pathways. Lecture and laboratory work highly correlated. Offered periodically.  
Prerequisite: CH121-123 or CH221-223

**CH242 - Organic Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
A continuation of CH 241. Offered periodically.  
Prerequisite: CH241

**CH243 - Organic Chemistry**  
Credits - 5 Lecture - 4 Lab - 1  
A continuation of CH 242. Offered periodically.  
Prerequisite: CH242

**CJ100 - Survey of Criminal Justice**  
Credits - 3 Lecture - 3  
An introductory survey of the functional areas of the criminal justice system in the United States including police, courts, and correctional processes.  

**CJ101 - Introduction to Criminology**  
Credits - 3 Lecture - 3  
The study of crimes from a sociological perspective, and crime control strategies suggested by these causes.

**CJ107 - Criminal Justice Seminar**  
Credits - 3 Lecture - 3  
A study of the criminal justice problems and methods of alleviating them.

**CJ110 - Introduction to Law Enforcement**  
Credits - 3 Lecture - 3  
An in-depth study of the role and responsibilities of law enforcement in American society. A look at the historical development, role concept and conflicts, professionalization, use of discretion, current enforcement practices and career opportunities.

**CJ111 - Concepts of Enforcement Services**  
Credits - 3 Lecture - 3  
A study of the concepts, theories, and principles of police operations. In-depth studies of specific aspects of police operations, such as traffic, equipment, use of force, and community policing.

**CJ114 - Gender, Race, Class and Crime**  
Credits - 3 Lecture - 3  
Provides criminal justice students with an understanding of multicultural diversity and how it interrelates with practices and policies of police, judicial systems, and corrections. The understanding of differences for the criminal justice professional, agency, policies for cultural sensitivity, peacekeeping and professionalism are explored, as well as the study of gender, race and class relative to their contributions to crime.

**CJ115 - Culture of Guns and Violence in America**  
Credits - 3 Lecture - 3  
A study of the moral, legal, and ethical aspects of deadly force and the role of firearms in American society.

**CJ120 - Judicial Process**  
Credits - 3 Lecture - 3  
A study of the judicial and social processes from arrest through appeal. Analysis of the duties and roles of each member of the courtroom workgroup.

**CJ122 - Oregon Law**  
Credits - 3 Lecture - 3  
The elements, purpose and functions of criminal, traffic, and juvenile laws for the State of Oregon.

**CJ130 - Introduction to Corrections**  
Credits - 3 Lecture - 3  
A study of contemporary correctional institutions and detention facilities; organization and personnel programs and activities; inmate society and trends; and career orientation.

**CJ132 - Introduction to Probation and Parole**  
Credits - 3 Lecture - 3  
An introduction to the use of probation and parole as a means of controlling criminal offenders within the community. The course includes the philosophy, historical development and contemporary functioning of parole and probation agencies and officers.

**CJ198 - Special Studies**  
Credits - 1-3  
Designed to provide interested and capable students with the opportunity to study special topics in criminal justice.

**CJ200 - Police and Public Policy**  
Credits - 3 Lecture - 3  
Contemporary study of the American police. The effect of political influence on the police, interaction with other governmental components, and the dilemma of balancing public safety and civil liberty.

**CJ201 - Juvenile Delinquency**  
Credits - 3 Lecture - 3  
Study of deviant behavior and current criminological theories, with emphasis on crime prevention and the phenomena of crime as it relates to juveniles and criminal justice applications.

**CJ204 - Behavioral Cognitive Processes**  
Credits - 4 Lecture - 3 Other - 1  
This course is designed to provide an understanding of cognitive processes to changing offender behavior, its role and application with offenders in correctional programming (rehabilitation and recidivism) and how it can affect criminal behavioral change. Laboratory will consist of actual on-site correctional programming.

**CJ207 - Criminal Justice Seminar**  
Credits - 3 Lecture - 3  
A study of the current criminal justice problems and methods of alleviating them.
Course Descriptions

^CJ210 - Criminal Investigation  
Credits - 3 Lecture - 3  
Study of basic principles of all types of investigations in the justice system. Handling of crime scenes and recognition and preservation of different types of evidence, investigative techniques unique to specific types of crime, interview and interrogation techniques, and case management and preparation for prosecution.

^CJ215 - Criminal Justice Administration  
Credits - 3 Lecture - 3  
Supervision of police personnel and administration of a criminal justice agency including budgets, finance, care and handling of equipment, recruitment and discipline.

^CJ220 - Criminal Law  
Credits - 3 Lecture - 3  
Survey and analysis of substantive criminal law and defenses to criminal prosecution. Emphasis on the law, crimes and statutory ramifications. Case method is used.

^CJ222 - Criminal Procedure and Evidence  
Credits - 3 Lecture - 3  
Theory and practice of the criminal justice system from arrest to release including: due process, right of counsel, arrests, search and seizure, wiretapping and electronic eavesdropping, confession, and lineups. Case method is used.

^CJ225 - Correctional Law  
Credits - 3 Lecture - 3  
Explores several historical and current cases involving inmate crimes and/or malpractice with inmates. Prisoners’ rights as well as correctional staff rights are examined, along with emerging trends resulting from recent court cases.

^CJ226 - Constitutional Law  
Credits - 3 Lecture - 3  
A study of basic principles of the United States Constitution with emphasis on leading Supreme Court cases and the Bill of Rights.

^CJ232 - Correctional Casework Counseling  
Credits - 3 Lecture - 3  
Basic concepts of interviewing and counseling techniques used by correctional officers in one-to-one contacts with clients. Rudimentary skills practiced through role playing and demonstration prepare the student for practice in the field and an appreciation of further training.

^CJ243 - Narcotics and Dangerous Drugs  
Credits - 3 Lecture - 3  
The role of substance use and abuse in society, especially as it impacts on crime.

^CJ280 - Cooperative Work Experience  
Credits - 1-8  
Supervised field experience in a criminal justice or related agency. An in-service student may pursue a research project instead of work in the field. Includes a seminar for discussion of problems and experience gained.  
Recommended preparation: Instructor approval

CS020 - Computer Orientation  
Credits - 1 Other - 1  
This course is designed for those who have had little or no experience working with computers. The purpose of the course is to introduce students to computer language and basic computer use with an emphasis on word processing and using e-mail.

CS080 - Introduction to Personal Computers  
Credits - 3 Lecture - 3  
The student will examine the applications and use of personal computer hardware and software. The student will be introduced to word processing, e-mail, spreadsheets, and the Internet. Also discussed is basic file management under Windows.

CS090 - Personal Computer Applications  
Credits - 3 Lecture - 3  
This class will introduce the student to one particular software package on a Macintosh or IBM compatible microcomputer. Students may repeat this course under different topics.

CS095 - Personal Computer Applications  
Credits - 3 Lecture - 3  
A continuation of the topics covered in CS 090. Students may repeat the course under different topics.

^CS120 - Concepts of Computing  
Credits - 4 Lecture - 4  
A survey of the general concepts of computers and their applications. Concepts include computer systems, system and applications software, data organization and management, and computers in society. Specific applications with hands-on projects will include word processing, presentation management, spreadsheets, database, graphics, and web authoring.

^CS125 - Software Applications  
Credits - 3 Lecture - 3  
This class will study in detail one specific software application used with microcomputers. Topics will include standard features and operations of the application and consideration of one or more specific products and their unique features. Course may include (but is not limited to) word processing (CS 125W), spreadsheets (CS 125S), presentation management (CS 125P), multimedia (CS 125M), database management systems (CS 125D), desktop publishing (CS 125B) and e-mail (CS 125E). This course may be repeated under different topics. Offered periodically

^CS133 - Programming Languages  
Credits - 4 Lecture - 4  
An introduction to programming with a high-level programming language. The student will study foundational programming styles, techniques, syntax, and tools in order to develop, write, run, and debug computer programs.

^CS133B - Programming with Visual Basic  
Credits - 4 Lecture - 4  
An introduction to programming with the high level programming language Visual BASIC. The student will study basic programming styles, techniques and the syntax of Visual BASIC. Students will write, run and debug programs on microcomputers.

^CS133U - Programming with C++  
Credits - 4 Lecture - 4  
An introduction to programming with the high level programming language C++. The student will study basic programming styles, techniques and the syntax of C++. Students will write, run and debug programs on microcomputers.

^CS135 - Advanced Software Applications  
Credits - 3 Lab - 3  
A continuation of the topics of CS 125. This course may be repeated under different topics. Offered periodically.  
Prerequisite: CS125

^CS140 - Introduction to Operating Systems  
Credits - 3 Lecture - 3  
An introduction to the concepts and commands of one or more operating systems such as MS-DOS, OS/2, UNIX, LINUX, Windows and Macintosh OS. This course may be repeated under different topics. Offered periodically.

^CS161 - Computer Science  
Credits - 4 Lecture - 4  
An introduction to problem solving and algorithm design with the use of a high level programming language. Included will be basic principles of hardware, software and programming techniques.  
Recommended preparation: MTH111 or equivalent.

^CS162 - Computer Science  
Credits - 4 Lecture - 4  
A continuation of CS 161. Additional topics may include data organization (multidimensional arrays, records, pointers, lists, stacks and queues) and techniques for designing large projects.  
Prerequisite: CS161 and CS133J

Symbols: ^ - Elective  + - Lab Science  * - Group Distribution  > - P/T Elective
Course Descriptions

**CS171 - Computer Org and Assembly Language**  
Credits - 4  |  Lecture - 4  
An introduction to the organization of computers, hardware, representation of information and an introduction to machine and assembly language programming. Offered periodically.  
Prerequisite: CS162  
Recommended preparation: CS260

**CS179 - Introduction to Networking**  
Credits - 4  |  Lecture - 3  |  Lab - 1  
This class introduces the students to basic computer networking concepts. Networking topologies, basic hardware and software components in network, the OSI protocol model, and vocabulary items are presented to the students.

**CS180 - Computer Science Practicum**  
Credits - 4  
A course that will allow students to apply what they have learned in some area of computer science to real world situations. Students will work directly with a local business or organization under the direction and supervision of their instructor. Offered periodically.

**CS195 - Web Development**  
Credits - 4  |  Lecture - 4  
A first course in the design and development of Web pages and sites. This class will include the use of Web page authoring tools as well as HTML syntax to create Web pages. Students will study both the mechanics and practical application of these tools as well as principles of good design for the Web.  
Recommended preparation: CS120

**CS198 - Special Studies**  
Credits - 1-3  
This course is designed to provide interested and capable students special topics in computer science.

**CS240 - Advanced Operating Systems**  
Credits - 3  |  Lecture - 3  
A continuation of CS 140. This course may be repeated under different topics. Offered periodically.  
Prerequisite: CS140 or instructor approval

**CS260 - Data Structures**  
Credits - 4  |  Lecture - 3  |  Other - 1  
A continuation of CS 162 including basic data structures, searching and sorting techniques and advanced problem solving. Offered periodically.  
Prerequisite: CS162

**CS279 - Network Management II**  
Credits - 4  |  Lecture - 3  |  Other - 1  
The class introduces the students to Local Area Network Management. Some topics taught in this course include setting up users, directory structures, security issues, printing and print queues, login scripts, and other management tools available for networking administrators. Students will manage a small LAN system with supervisory rights during the tenure of the course.

**CS280 - Cooperative Work Experience**  
Credits - 1-8  
Provides a supervised work experience in computer science which supplements the "school experience", that is not possible in the normal academic classroom environment.  
Recommended preparation: Instructor approval

**CS288 - Network Management III**  
Credits - 4  |  Lecture - 3  |  Lab - 1  
A course designed to examine different advanced networking topics and current trends in networking. Topics will include items relative to the needs and learning experience of the students.

**CS295 - Web Development**  
Credits - 4  |  Lecture - 4  
A second course in the design and development of Web pages and sites. This course will include JavaScript, CSS, SSI, CGI programming, and other DHTML tools. Students will study both the mechanics and practical application of these tools.  
Recommended preparation: CS195

**CS298 - Special Studies**  
Credits - 1-3  
This course is designed to provide interested and capable students special topics in computer science.  
Recommended preparation: Instructor approval

**CSS100 - Soils and Fertilizers**  
Credits - 3  |  Lecture - 2  |  Lab - 1  
Students will study and evaluate the characteristics of the soil. Soil amendments and fertilizers are reviewed to determine crop requirements. Plant and soil analysis techniques are studied.

**CSS201 - Principles of Crop Science**  
Credits - 3  |  Lecture - 3  
Covers the major farm practices used in Eastern Oregon. Major crops used to facilitate learning include wheat, barley, peas, potatoes, and corn. Other crops will be reviewed to determine their adaptability to local climate, soils, and markets. Cooperative work experience required.

**CSS210 - Forage Crops**  
Credits - 3  |  Lecture - 3  
Students will study the various crops raised for livestock consumption. Proper planting, maintenance, harvest, and storage techniques, production and economic returns are topics reviewed in detail. Cooperative work experience required.  
Corequisite: AGR280

**CSS240 - Pest Management**  
Credits - 4  |  Lecture - 4  
Students will study the common pesticides used on today's farms and ranches. Herbicides, insecticides, fungicides, and growth regulators will be reviewed. Methods of application and calibration are taught stressing safety in handling and disposal. Cooperative work experience required.  
Corequisite: AGR280

**DA041 - Dental Radiology**  
Credits - 4  |  Lecture - 3  |  Lab - 1  
Introduces dental radiology concepts including historical background, terminology, principles of dental radiology, legal aspects regarding use of radiation, basic physics associated with x-rays and biological effects of x-rays. Includes practical instruction on and sizes health and safety, infection control procedures, anatomical landmarks, types and sizes of x-ray film, darkroom processing, film mounting, examination and operation of a dental x-ray unit with beginning practice of film placement and exposure techniques on mannequins.  
Recommended preparation: Admission to the dental program and/or instructor approval.

**DA042 - Dental Radiology**  
Credits - 3  |  Lecture - 2  |  Lab - 1  
Continued study and clinical practice with the principles of dental radiography techniques including: bisecting, parallelizing, bitewing, panelipse exposure on adult patients, and other exposure techniques for the edentulous patient. The identification of possible abnormalities seen on a radiograph are viewed and discussed.  
Prerequisite: DA041

**DA043 - Dental Radiology**  
Credits - 1  |  Lab - 1  
Provides a concentrated clinical application of dental radiographic procedures studied in previous courses in preparation for the Dental Assisting National Board Radiography Examinations.  
Prerequisite: DA042
DA051 - Chairside Procedures  
Credits: 3 Lecture - 2 Lab - 1  
Introduction to and practice of basic chairside assisting procedures including disease transmission, disinfection and sterilization procedures. OSHA compliance procedures, patient preparation, oral evacuation, equipment and instrument identification, instrument transfer, and restorative operative dental procedures.  
Recommended preparation: Admission to the dental program and/or instructor approval.

DA052 - Chairside Procedures  
Credits: 3 Lecture - 2 Lab - 1  
A presentation of the theory and practice of new procedures and review of oral evacuation, instrument transfer, and infection control procedures. Includes discussion, demonstration, and practical application of the following: alginate impressions, dental dam placement and removal, bite registration, suture removal, introduction to tofflemire matrix and wedge placement, and coronal polish.  
Prerequisite: DA051

DA053 - Chairside Procedures  
Credits: 2 Lecture - 1 Lab - 1  
Covers theory and practice of procedural responsibilities delegated to the dental auxiliary as outlined in the current Oregon Dental Practice Act for the Expanded Function Duty Assistant. Includes discussion, demonstration, practical lab experience, and clinical application.  
Prerequisite: DA042, 052, 062

DA054 - Dental Specialties  
Credits: 2 Lecture - 2  
Covers various specialties of dentistry and new, emerging technologies, their principal procedures, instrument identification, tray setups, and post-operative care instructions.  
Prerequisite: DA051

DA061 - Clinical Practice  
Credits: 2 Other - 2  
Students will be given weekly research questions on various topics covered during fall term. Research questions are to be completed using information obtained while observing in local dental facilities. When appropriate, students may begin to assist with basic procedures with instructor's permission, and the dentist's supervision.  
Recommended preparation: Admission to the dental program and/or instructor approval.

DA062 - Clinical Practice  
Credits: 4 Other - 4  
Course designed to provide supervised clinical experience in basic chairside assisting procedures, including material manipulation, oral evacuation, instrument transfer, charting, and patient management in a local dental office.  
Prerequisite: DA051

DA063 - Clinical Practice  
Credits: 8 Other - 8  
Provides dental assisting students with continued supervised work experience in a dentist's office. Students assist with operative procedures, exposing and processing dental radiographs, dental laboratory procedures, and performing business office procedures.  
Prerequisite: DA062

DA066 - Clinical Practice Seminar  
Credits: 1 Lecture - 1  
Seminar discussions to be held on various aspects of spring term internships in local dental offices. Employment opportunities, resume writing, completing job applications, and interviewing skills are covered.  
Recommended preparation: Admission to the dental program and/or instructor approval.

DA070 - Basic Dental Science  
Credits: 3 Lecture - 3  
The study of systems of the human body, their physiology, as well as bacteriology and embryology as they relate to the oral cavity.  
Recommended preparation: Admission to the dental program and/or instructor approval.

DA072 - Dental Anatomy  
Credits: 4 Lecture - 4  
An introduction to the oral cavity. Students will study the structures, differences, and similarities of individual teeth of both primary and permanent dentition. Utilizing various numbering systems, students will gain skill and knowledge of basic charting symbols and procedures. Blacks' Cavity classification and elements of cavity design are introduced.  
Recommended preparation: Admission to the dental program and/or instructor approval.

DA074 - Dental Pathology  
Credits: 1 Lecture - 1  
The study of oral pathology to include normal, diseased, or injured tissues; dental caries; oral inflammation; abscesses, and developmental abnormalities.  
Prerequisite: DA070 and DA072

DA076 - Dental Pharmacology  
Credits: 1 Lecture - 1  
General aspects of pharmacology; sources, types, purposes, and composition of the drugs. Course includes methods of prescribing and administering various drugs as well as local anesthetics used by the dentist when treating patients.  
Recommended preparation: Admission to the dental program and/or instructor approval.

DA080 - Dental Materials  
Credits: 3 Lecture - 2 Lab - 1  
Introduction, demonstration, manipulation, and principal application including physical and chemical properties, preparation, care and storage of materials used in dental offices.  
Recommended preparation: Admission to the dental program and/or instructor approval.

DA082 - Dental Materials and Procedures  
Credits: 2 Lecture - 1 Lab - 1  
Introduction to a variety of materials used in the dental office for restorative and specialized procedures. The course includes the various materials, physical and chemical properties, preparation, manipulation, care and storage, as well as laboratory equipment identification, use and safety procedures.  
Prerequisite: DA051 and DA080

DA090 - Dental Health Education  
Credits: 2 Lecture - 2  
The attitudes, philosophies, and behaviors of the dental patients along with techniques to motivate and manage their various behaviors. Covers basic concepts of preventive dentistry including the study of plaque-related diseases, brushing and flossing techniques, and fluoride therapy. Basic food groups and nutritional counseling are introduced along with techniques for preparing and evaluating dental health education materials.  
Recommended preparation: Admission to the dental program and/or instructor approval.

DA092 - Dental Law and Ethics  
Credits: 1 Lecture - 1  
History, ethics, and legal aspects of dentistry are covered as they are prescribed the American Dental Association and Oregon Practice Act. Designed to acquaint students with the members of the dental team, their roles, educational background, and legal responsibilities and restrictions.  
Prerequisite: DA090

DA094 - Dental Business Office  
Credits: 3 Lecture - 2 Other - 1  
Designed to prepare the student for management of the dental office, including the study of business office procedures and techniques, written communication, computer use, dental insurance, accounts receivable, recall systems, staff and patient management, and inventory control procedures.  
Prerequisite: DA062

DA096 - Medical Emergencies in the Dental Office  
Credits: 1 Lecture - 1  
Emphasizes the importance of the health history, treatment of the medically compromised patient, and the influence a medical emergency may have on the patient during clinical treatment. Signs and symptoms are studied for handling medical emergencies. Course content also includes vital signs and emergency medical equipment usage.  
Recommended preparation: Admission to the dental program and/or instructor approval.
Course Descriptions

DSL041 - Heavy Duty Steering and Suspension
Credits - 5 Lecture - 3 Lab - 2
Covering both manual and computer alignment of heavy duty trucks, this course explains steering geometry as well as defining the vocabulary that accompanies it. Total vehicle alignment will be done including tandem axle, thrust, king pin, and trailer alignment.

DSL051 - Heavy Duty Brakes I
Credits - 3 Lecture - 2 Other - 2
Hydraulic, air, and mechanical brake system principles of operation, self-energizing, drum, disc, parking, internal expanding, and external band brakes will be covered. Brake system self-adjusters, electric brakes, brake adjustment and inspection will also be covered. Included in this course will also be engine brakes and retarders.

DSL055 - Heavy Duty Brakes II
Credits - 3 Lecture - 2 Other - 2
Principles of compressed air, air brake component identification and operation, and air brake valve troubleshooting and service will be covered. This course also includes other heavy duty brake systems for trucks, tractors and heavy equipment; and complete brake jobs, including inspection and service.

Required completion of DSL051

DSL074 - Diesel Engines I
Credits - 5 Lecture - 3 Lab - 2
Covers diesel engine principles of design and theory of operation, including a working knowledge of procedures and precautions required in servicing diesel engines. Fuel, cooling, intake and exhaust systems will be discussed.

DSL075 - Heavy Equipment I
Credits - 4 Lecture - 2 Lab - 2
Designed to provide a general knowledge of service requirements, mechanical design, operating principles, and methods of repairing components that are found in agricultural, industrial and truck applications. Safety will be practiced throughout the course.

Required completion of AGM221

DSL085 - Advanced Welding Practices
Credits - 3 Lecture - 2 Lab - 1
Designed to enhance Shielded Metal Arc Welding (STICK) and Gas Metal Arc Welding (MIG) learned in AGM 221 with advanced training in Gas Tungsten Arc Welding (TIG) and Powdered Metal Spray Welding. Hard surfacing, build up, cast iron welding, aluminum welding, and metal cutting with a Plasma Arc and Air Arc will be covered.

Required completion of DSL075

DSL086 - Heavy Equipment II
Credits - 4 Lecture - 2 Lab - 2
Designed to further develop the student's technical knowledge and skills in the troubleshooting and repair of heavy equipment and mobile hydraulic components.

DSL095 - Advanced Hydraulics
Credits - 2 Lecture - 1 Lab - 1
An advanced course designed to give the student a working knowledge of hydraulic circuits. Also the ability to diagnose and correct malfunctions through the use of hydraulic test stands and existing systems on mobile and stationary equipment.

Requires completion of MET093

DSL096 - Diesel Electronics
Credits - 3 Lecture - 2 Lab - 1
Operating principles, adjustments, testing and maintenance of computer controlled systems using modern test equipment and procedures. Computerized fuel, braking, transmissions, and monitoring systems will be covered.

>DSL280 - Cooperative Work Experience
Credits - 1-8
Provides a supervised work experience in diesel mechanics which supplements the "school experience", that is not possible in the normal academic classroom environment.

>EC115 - Survey of Economics
Credits - 3 Lecture - 3
This survey course gives an overview of both macro and microeconomic theory for an understanding of current economic problems.

>EC198 - Special Studies
Credits - 1-3
This course is designed to provide interested and capable students special topics in economics.

Recommended preparation: Instructor approval

>EC201 - Principles of Economics/Micro
Credits - 3 Lecture - 3
Introduction to Micro Economics. Focuses on the behavior of individual consumers and business firms and how their interaction leads to a set of prices that act to allocate scarce resources among alternative uses.

>EC202 - Principles of Economics/Macro
Credits - 3 Lecture - 3
Introduction to Macro Economics. Focuses on the behavior of economic aggregates or the economy as a whole. National income determination, measuring economic performance and public policy tools for dealing with inflation, unemployment, etc. are discussed.

>EC203 - Principles of Economics/Theory
Credits - 3 Lecture - 3
Applications of Economic Theory. Applies the economic theory learned in EC 201 and EC 202 to current economic problems.

>EC100 - Developmentally Appropriate Practice in Early Childhood Education
Credits - 3 Lecture - 3
This course covers an overview of developmentally appropriate practice in early childhood education.

>EC111 - Introduction to Early Childhood Education/Environments
Credits - 3 Lecture - 3
This course covers the different types of early childhood education programs and the regulations that govern each. Students will evaluate a variety of ECE settings utilizing standardized assessment tools based on principles of developmentally appropriate practice.

>EC112 - Introduction to Early Childhood Education/Professionalism
Credits - 1 Lecture - 1
This course covers employability and career development.

>EC113 - Introduction to Early Childhood Education/Child Advocacy
Credits - 1 Lecture - 1
This course covers the ethical and legal responsibilities of early childhood practitioners.

>EC150 - Observation/Assessment and Recording
Credits - 3 Lecture - 3
Students will develop skills necessary to observe, assess and record young children's behavior. Students will gain experience with a variety of observation and recording tools. Focus is on the importance of objective record keeping in relationship to the on-going monitoring of children's development.

>EC151 - Guidance and Classroom Management
Credits - 3 Lecture - 3
This course is an introduction to managing behavior in the classroom. Emphasis is on why misbehavior occurs, and practical strategies to deal with those behaviors.

>EC152 - Creativity for Young Children
Credits - 3 Lecture - 3
This course focuses on understanding and implementing developmentally appropriate practices for the young child. Students will gain hands-on experience in multiple creative activities that are age appropriate, individually appropriate, and culturally appropriate.
Course Descriptions

> ECE153 - Music and Movement
Credits: 3 Lecture - 3
This class provides a foundation for understanding the role of music and movement in the development of young children. Students will have the opportunity to integrate knowledge and experience culminating in a personal collection of developmentally appropriate music and movement activities for young children.

> ECE154 - Literature and Literacy
Credits: 3 Lecture - 3
This course surveys and presents methods for using and evaluating children's literature. Students will also gain knowledge about the relationship between language development and emergent literacy.

> ECE161 - Practicum/Infants and Toddlers
Credits: 4 Lecture - 2 Lab - 2
Practica are individualized, community placements in early childhood education settings with direct supervision. They provide a formalized experiential learning opportunity for students considering an early childhood profession. Practicum/Infants & Toddlers provides students the opportunity to work with children from birth to three; Practicum/Preschool focuses on children from three to five.

> ECE163 - Practicum/Preschool
Credits: 4 Lecture - 2 Lab - 2
Practica are individualized, community placements in early childhood education settings with direct supervision. They provide a formalized experiential learning opportunity for students considering an early childhood profession. Practicum/Infants & Toddlers provides students the opportunity to work with children from birth to three; Practicum/Preschool focuses on children from three to five.

Recommended preparation: Instructor approval

> ECE175A - First By Five/Social Emotional Growth
Credits: 1 Lecture - 1
This course presents healthy social emotional development in infancy as the underpinning for all other learning and that social emotional development is dependent on the child's close relationship with respectful, caring adults. Also discussed is the importance of understanding temperament, emotions, environmental impact and care giving responsiveness to the child's needs. Students are presented information to promote awareness of their own feelings, expectations and attitudes brought with them from past experiences to the field of early childhood education. Students will examine the relationship between social emotional care giving and services provided to families.

> ECE175B - First By Five/Group Care
Credits: 1 Lecture - 1
This course helps students to understand how to develop empathy between infants and others in a group. Students will discuss barriers, as well as discover strategies for providing appropriate care. Respectful routine care in a child's daily life is fundamental to developing intimate relationships. Students will evaluate health and safety issues, daily routine care and consider environment, space and child care ratios as important aspects of group care.

> ECE175C - First By Five/Learning and Development
Credits: 1 Lecture - 1
This course presents a non-traditional view of how infants and toddlers develop. Students will discover the importance of infants and toddlers having the freedom to make learning choices and to experience the world on their own terms. Facilitation of natural interests and urges to learn dominate the course content with specific information based on understanding learning schemes, developmental stages and support for learning.

> ECE175D - First By Five/Culture, Family and Provider
Credits: 1 Lecture - 1
This course challenges students to articulate their philosophy of infant/toddler care and the caregiver-parent relationship so that they can develop stronger partnerships and facilitate communication with parents. Considerations for how parents can encourage families to participate in their child's care will be discussed and strategies for working with difficult situations explored. The course will also examine common challenges in conducting a child care business to include defining business relationships and arrangements. Family issues around separation, accepting diversity, culture and routine care and culture and child development will be analyzed and practical solutions explored.

> ECE198 - Special Studies
Credits: 1-3
Designed to provide interested and capable students with the opportunity to study special topics in the Early Childhood Education program.

> ECE226 - Child Development
Credits: 3 Lecture - 3
This course covers child development birth through age six. Focus is on major developmental theories, stages of development and appropriate behavioral expectations. This course is the foundation for the Early Childhood Education program.

> ECE227 - Enhancing Social Emotional Development
Credits: 3 Lecture - 3
This course provides an in-depth exploration of strategies and techniques for enhancing children's social emotional development.

> ECE240 - Curriculum/Planning
Credits: 3 Lecture - 3
This course focuses on designing curriculum for the young child using the principles of developmentally appropriate practices across developmental domains. Students will learn to construct lesson plans from a variety of perspectives including creative, emergent, thematic, anti-bias, cultural and emotional well-being.

> ECE248 - Overview of Special Services
Credits: 3 Lecture - 3
This course introduces students to services for early intervention to young children with special needs. The course also presents current legislation, educational needs of special children and ideas and strategies for working with families to integrate special children into preschool programs.

> ECE249 - Inclusion of Children with Special Needs
Credits: 3 Lecture - 3
The emphasis of this course is on strategies and adaptations for including children with special needs in the early childhood setting. Current resources and best practices for educating children with diverse abilities, limited English proficiency, different socioeconomic and/or cultural backgrounds and other special needs will be explored.

> ECE280 - Cooperative Work Experience
Credits: 1-8
The purpose of cooperative work experience is to provide students with an opportunity to gain volunteer experience with young children in an early childhood setting. Students participating in cooperative work experience with young children must successfully complete a criminal history background check. Cooperative work experience may include one-to-one or small group instructional assisting.

Recommended preparation: Instructor approval

> ECE295 - Child Care Administration
Credits: 3 Lecture - 3
An exploration of administrative roles and responsibility in child care centers. Topics include philosophy, finances, personnel, legal regulation and program planning.

> ECE296 - Issues and Trends
Credits: 3 Lecture - 3
This course explores the status of early childhood education. The purpose is to assist students in becoming knowledgeable professionals. Topics may include: inclusion, professionalism, teaching methods, brain research, teenage parents and working parents.
>ED100 - Introduction to Education  
Credits - 3 Lecture - 1  
This course examines teaching as a profession. It provides opportunities for direct experience with, and analysis of, educational settings. Students will explore current issues in education and characteristics of effective schools. Required in Elementary & Secondary AAOT transfer degree, AAS degree for Paraeducators and Paraeducator Certificate.

>ED101 - Introduction to Observation and Experience  
Credits - 3 Lecture - 2 Lab - 1  
This course introduces the role and work of instructional assistants and provides information about the Oregon Educational Standards. This course covers occupational and career development opportunities and provides students direct experience with educational settings and opportunities to examine the attitudes and work habits which influence job effectiveness and satisfaction. Elective in Paraeducator Certificate and AAS degree.

>ED113 - Instructional Strategies in Language Arts  
Credits - 3 Lecture - 3  
Introduces the nature of the reading process and presents a systematic approach to language arts instruction. Students learn to link literacy instruction and assessment to state content standards. Required in Paraeducator Certificate and AAS degree.

>ED114 - Instructional Strategies in Math and Science  
Credits - 3 Lecture - 3  
This course introduces the development of math and science concepts and presents a systematic approach to math and science instruction. Students learn to link math and science instruction and assessment to state content standards. Required in Paraeducator Certificate and AAS degree.

>ED125 - Peer Tutoring/ED 125  
Credits - 1 Lecture - 1  
This course is designed to prepare and instruct peer tutors on the principles and skills needed to provide effective tutoring services to students enrolled in various classes throughout the community college campus. Student tutors will gain skills and experience needed to assist tutees by participating in both in-class and out of class activities.

>ED130 - Comprehensive Classroom Management  
Credits - 3 Lecture - 3  
This course provides current theory and methodology for managing small and large groups of students so that students choose to be productively involved in instructional activities. Covers the four major factors or skill areas of effective classroom management: 1) Understanding students' personal/psychological and learning needs, 2) Establishing positive adult-student and student-student relationships, 3) Implementing instructional methods that facilitate optimal learning, and 4) Using organizational and group management methods that maximize positive student behavior and learning. Required in Paraeducator Certificate and AAS degree.

>ED131 - Instructional Strategies  
Credits - 3 Lecture - 3  
Introduces a variety of teaching techniques and provides practice for students in instructional design. Students plan lessons and teach lessons to small groups of peers or instructional K-12 students and participate in self-evaluation and peer evaluation of others' teaching. Required in Paraeducator Certificate and AAS degree.

>ED169 - Overview of Students with Special Needs  
Credits - 3 Lecture - 3  
An introduction to the disabling conditions of students with special needs and their implications in school settings. Defines and identifies intervention strategies for disabilities covered under federal law. Required in Paraeducator Certificate and AAS degree.

>ED200 - Foundations of Education  
Credits - 3 Lecture - 3  
This course provides an overview of the American Education System, including historical, legal, and philosophical foundations. Students will explore the governance of local schools and districts and will consider the roles and ethical obligations of professional educators. Required in Elementary & Secondary AAOT transfer degree, Paraeducator AAS and Certificate degrees.

>ED229 - Learning and Development  
Credits - 3 Lecture - 3  
This course addresses current theory regarding human development, intelligence, motivation, and the learning process. Students learn to apply strategies and techniques derived from these theories. Required in Paraeducator Certificate and AAS degree.

>ED235 - Educational Technology  
Credits - 3 Lecture - 3  
This course trains students in the preparation and use of media and technology in school settings. Students will develop an understanding of the role of media in learning and methods for incorporating media in instruction. Required in Paraeducator Certificate and AAS degree.

>ED254 - Instructional Strategies for English Language Learners  
Credits - 3 Lecture - 3  
This course will examine pedagogical and cultural approaches which lead to successful acquisition of English language skills and content knowledge. Required in Paraeducator Certificate and AAS degree.

>ED258 - Multicultural Education  
Credits - 3 Lecture - 3  
This course covers the philosophy, activities, and techniques appropriate to a culturally sensitive classroom. Students will develop an understanding of the impact of culture on individual perception and learning and group dynamics. Required in Paraeducator Certificate and AAS degree. Will satisfy the Cultural Awareness requirement for the CUESTE program.

>ED266 - Current Issues in Special Education  
Credits - 3 Lecture - 3  
This course is designed to provide students interested in special education an opportunity to explore in more depth current issues in special education. Students will be exposed to current philosophical frameworks, legislative changes, emerging conditions, and technological advances. Elective in Paraeducator Certificate and AAS degree.

>ED268 - Educating Mildly and Severely Handicapped  
Credits - 3 Lecture - 3  
This course covers the theory and techniques of working with handicapped students. Services and funding provided for mildly and severely handicapped students are studied. Elective in Paraeducator Certificate and AAS degree.

>ED280 - Cooperative Work Experience  
Credits - 1-6  
The purpose of this education practicum experience is to give first and second year education majors an opportunity to gain volunteer experience with age-appropriate children in an educational setting. Students participating in this practicum must successfully complete a criminal history verification check. Practicum situation may include one-to-one or small group tutoring in reading, math, or other areas in a classroom setting. Required in Elementary and Secondary AAOT transfer degree, AAS and Certificate degrees for paraeducators.

Symbols: ^ - Elective  + - Lab Science  * - Group Distribution  > - P/T Elective
Course Descriptions

>ED285 - Signing Exact English
Credits - 3 Lecture - 3
Beginning communication in Signing Exact English (SEE). This course introduces Manually Coded English sign language systems, focusing specifically on SEE. It includes the theories, rules, principles, and vocabulary of SEE, as well as practice in both receptive and expressive skills. Students will be introduced to the finger spelled alphabet, as well as appropriate body, facial, and dramatic features of sign language. Elective in Paraeducator Certificate and AAS degree.

>ED286 - Signing Exact English
Credits - 3 Lecture - 3
This is the second course in a sequence which introduces Manually Coded English sign language systems, focusing specifically on Signing Exact English 2 (SEE). It includes the theory, rules, principles, and vocabulary of SEE, as well as practice in both receptive and expressive skills. Students will be introduced to the finger spelled alphabet, as well as appropriate body, facial, and dramatic features of sign language. Elective in Paraeducator Certificate and AAS degree. Prerequisite Ed 285 or instructor approval.

>ED287 - Signing Exact English
Credits - 3 Lecture - 3
This course is the third course in a sequence of courses which introduces Manually Coded English sign language systems, focusing specifically on Signing Exact English 2 (SEE). It includes the theory, rules, principles, and vocabulary of SEE, as well as practice in both receptive and expressive skills. Students will be introduced to the finger spelled alphabet, as well as appropriate body, facial, and dramatic features of sign language. Elective in Paraeducator Certificate and AAS degree. Prerequisite Ed 286 or instructor approval.

>ED288 - Special Studies
Credits - 1-3
This course is designed to accommodate a variety of content and subject areas related to education in the K-12 schools. Coursework will be specific to teaching and learning related activities and strategies. These topics may include, but are not limited to, teaching techniques, instructional technology, human relations, communication, and non-instructional support skills. Most of these courses will be taught in a workshop/conference environment in which students choose topics and issues that are relevant to their specific job responsibilities or are of specific interest to them. Elective in Paraeducator Certificate and AAS degree.

*ENG104 - Introduction to Literature
Credits - 3 Lecture - 3
A course concentrating on the study of fiction through analysis of short stories and/or novels drawn from American, English, Continental, and other literature. Recommended preparation: WR121

*ENG105 - Introduction to Literature
Credits - 3 Lecture - 3
A course emphasizing the study and analysis of drama from classical times to the modern period with concentration on the principal types of drama such as comedy and tragedy. Recommended preparation: WR121

*ENG106 - Introduction to Literature
Credits - 3 Lecture - 3
A course focusing on the study of poetry, primarily lyric, drawn from American, English, Continental, and other literatures. Elements such as form, texture, and sensuous appeal are explored in close analysis of the poems. Recommended preparation: WR121

*ENG107 - World Literature
Credits - 3 Lecture - 3
The first course in a three-part historical introduction to world literature. This course focuses on great works of the ancient world in a variety of forms including: verse, drama, fiction, and non-fiction. Reading and discussion may focus on the literary traditions of the ancient Middle East, Greece, Rome, India, and China. Recommended preparation: WR121

*ENG108 - World Literature
Credits - 3 Lecture - 3
The second course in a three-part historical introduction to world literature. This course focuses on medieval and early modern literatures in a variety of forms including: verse, drama, fiction, and non-fiction. Reading and discussion may focus on the literary traditions of Asia, Islam, Africa and Western Europe. Recommended preparation: WR121

*ENG109 - World Literature
Credits - 3 Lecture - 3
The last of a three-part historical sequence, this course will explore important literary works of the modern world from the Renaissance to the present. Readings will draw on a range of literatures, which may include Asian, European, Latin American and African. Emphasis will be on cultural diversity, changing literary traditions and the role of literature in the modern world. Recommended preparation: WR121

*ENG195 - Film as Literature
Credits - 3 Lecture - 3
This course explores film as an art form, fostering visual literacy through close attention to the cinema. Students will study feature films and short films in a variety of genre and styles. Recommended preparation: WR121

*ENG196 - Film as Literature
Credits - 3 Lecture - 3
This course explores film as an art form, fostering visual literacy through close attention to the cinema. It will concentrate on the art of film making, including cinematography, editing, sound and movement. Recommended preparation: WR121

*ENG197 - Film as Literature
Credits - 3 Lecture - 3
This course explores film as an art form, fostering visual literacy through close attention to the cinema. It will concentrate on the importance of acting, drama, ideology, theory and literary adaptation to film. Recommended preparation: WR121

*ENG198 - Special Studies
Credits - 1-3
This course is designed to provide interested and capable students special topics in English. Recommended preparation: Instructor approval

*ENG201 - Shakespeare
Credits - 3 Lecture - 3
A survey of the Elizabethan era and of Shakespeare’s dramatic works. Students read early comedies, histories, and tragedies giving special attention to the overall design of each work as well as to its individual beauties. Recommended preparation: WR121

*ENG202 - Shakespeare
Credits - 3 Lecture - 3
A survey of Shakespeare's middle period. Students read plays of various genres, but class emphasis falls on historical plays with discussion of Shakespeare's developing view of man, society and government. Recommended preparation: WR121

*ENG203 - Shakespeare
Credits - 3 Lecture - 3
A survey of Shakespeare's later plays including the great tragedies and the romances. Students study both dramatic forms and poetry and discuss the philosophic implications of these major plays. Recommended preparation: WR121

*ENG204 - Survey of English Literature
Credits - 3 Lecture - 3
This course is a study of the principal works of English literature. Students concentrate on Anglo-Saxon and Medieval literature in the first term and become familiar with literary traditions through reading, lecture, discussion and film. Recommended preparation: WR121

*ENG205 - Survey of English Literature
Credits - 3 Lecture - 3
The second term of this survey focuses on Renaissance and Eighteenth-Century English literature. Students read and discuss major authors, including Shakespeare, Milton, Swift and Pope. Recommended preparation: WR121

*ENG206 - Survey of English Literature
Credits - 3 Lecture - 3
The third term of this survey sequence focuses on Modern English Literature. The authors are representative rather than inclusive. Recommended preparation: WR121

Symbols: ^ - Elective + - Lab Science " - Group Distribution > - P/T Elective
Course Descriptions

*ENG214 - Myth in Oregon Literature
Credits - 3 Lecture - 3
Using Native American stories and stories of the 19th and 20th century immigrants to Oregon as well as contemporary literature of the Northwest, this course is a discussion seminar which explores mythical patterns which emerged from the Northwest landscape along with patterns which Oregonians have imposed upon that landscape.
Recommended preparation: WR121

*ENG240 - Native American Literature
Credits - 3 Lecture - 3
A discussion seminar designed to introduce the student to the emergence of literature being written by members of the first nations of North America, and the connection of that contemporary literature to the oral literature of myth, story, lyric and ritual poetry and oratory.
Recommended preparation: WR121

*ENG253 - Introduction to American Literature
Credits - 3 Lecture - 3
The first of a three-part sequence, this course is a discussion seminar that surveys a multicultural representation of American literary works and major writers from pre-European contact to the Civil War. Or emphasis may be on genre, with the first term focusing on American fiction.
Recommended preparation: WR121

*ENG254 - Survey of American Literature
Credits - 3 Lecture - 3
The second of a three-part sequence, this course is a discussion seminar that surveys a multicultural representation of American authors and literary works from the Civil War to World War II. Or emphasis may be on genre, with the second term focusing on American drama.
Recommended preparation: WR121

*ENG255 - Survey of American Literature
Credits - 3 Lecture - 3
The last of a three-part sequence, this course is a discussion seminar that considers a multicultural representation of major American writers and literary works from World War II to the present. Or emphasis may be on genre, with the third term focusing on American poetry.
Recommended preparation: WR121

*ENG260 - Women in Literature
Credits - 3 Lecture - 3
An examination of writing by women. Students read a variety of fiction and nonfiction forms by women from various places and periods. Genres may include poetry, folksongs, diary and journal entries, fiction and drama, and autobiography.

*ENG263 - Detective Fiction
Credits - 3 Lecture - 3
Investigation of the detective genre, its historical patterns, and its evolution from Poe to popular contemporary writers. Students will read a variety of detective novels/short stories in the categories of the Armchair/Cerebral Detective and Hard-Boiled Detective.
Recommended preparation: WR121

*ENG264 - Detective Fiction
Credits - 3 Lecture - 3
Investigation of the detective genre, its historical patterns and its evolution from Poe to popular contemporary writers. Students will read a variety of detective novels/short stories in the category of the Police Detective in America, in England and in Europe.
Recommended preparation: WR121

*ENG275 - Bible as Literature
Credits - 3 Lecture - 3
A study of this seminal work of Western culture as a great literary achievement, most notably in prose narrative and lyric poetry, emphasizing the characters, plots, themes, symbols and language.
Recommended preparation: WR121

*ENG280 - Cooperative Work Experience
Credits - 1-8
Provides experience in English classroom for selected English major students who are exploring English teaching.
Recommended preparation: Instructor approval and WR121

*ES211 - Chicano/Latino Historical Experience
Credits - 3 Lecture - 3
Chicano/Hispanic/Latino history in the United States beginning from pre-Columbian times to the present. This course covers pre-Columbian heritage, Spanish colonization, American conquest in the Mexican-American War and the Spanish American War, the Mexicans’ role in American labor, Bracero Program, and the Chicano Movement.

*ES212 - Chicano/Latino Political, Economic and Social Issues
Credits - 3 Lecture - 3
Introduces the social, educational, political, and economic status of Latinos in the context of their native countries and United States society, institutions, and structures. Examines demographic profiles and current issues within a Chicano/Latino perspective.

ESS035 - Effective Study Skills III
Credits - 3 Lecture - 3
People choosing to take this course are students who want to develop and improve their academic skills. Included are note and test taking, outlining, organizing techniques and effective text reading. Good reading ability is required for those taking this course.

*FN225 - Nutrition
Credits - 4 Lecture - 4
Nutrition is the study of the nutrients in food and how the body uses them through the life cycle. Food sources, functions and recommendations for the six nutrients are covered. Digestion, absorption and metabolism are discussed. Skills will be developed in evaluation of nutrition information, assessment of dietary intake, recognition of timely national nutrition issues, and an increased awareness of the relationship of diet upon chronic disease. A variety of instructional methods will be selected but emphasis will be upon collaborative learning.

*FN230 - Children, Families and Nutrition
Credits - 3 Lecture - 3
This is a course for parents, families, child and health care providers, and early childhood educators. Basic nutrition for the pregnant and breastfeeding woman, the breastfed and bottle fed infant, and the child will be covered. Gaining understanding of how eating habits develop and the roles of the child and the parent will be emphasized as well as positive techniques for feeding infants, toddlers and preschooler and dealing with various feeding situations. Nutrition challenges for the child with special health care needs will be included. Resources for planning and preparing nutritious meals will be shared and a toolbox of community nutrition services, menus, recipes and nutrition education activities and materials will be developed by each participant.

*+G101 - Introduction to Geology
Credits - 4 Lecture - 3 Lab - 1
A study of the structure and composition of the Earth, minerals, igneous, metamorphic, and sedimentary rocks. Plate tectonics, volcanism, and earthquake activity are interrelated to give an overview of the Earth’s dynamic processes. Generally one weekend field trip. Course fulfills laboratory science requirement. Need not be taken in sequence.

*+G102 - Introduction to Geology
Credits - 4 Lecture - 3 Lab - 1
This course centers on the dynamic processes that sculpt the surface of Earth: weathering processes, streams, ground water, glaciers, mass movements, wind, and oceans. Topographic maps and aerial photos are also used. Generally one weekend field trip. Course fulfills laboratory science requirement. Need not be taken in sequence.

*+G103 - Introduction to Geology
Credits - 4 Lecture - 3 Lab - 1
A study of the early history of Earth and geologic time scale. Sedimentation, sedimentary environment, fossils, and fossilization are discussed along with the stratigraphic history of North America. The beginnings of life are traced through the evolution of plants, vertebrates, and invertebrates. Generally one weekend field trip. Course fulfills laboratory science requirement. Need not be taken in sequence.
Course Descriptions

*G145 - Geology of the Pacific Northwest
Credits - 3 Lecture - 3
A study of the regional geology of the Pacific Northwest. This course traces the geologic evolution of the Northwest and includes discussion on the history of volcanic activity, fossils, sedimentary environments, and topographic change with time. Field trips to points of interest where appropriate.

*G146 - Rocks and Minerals
Credits - 3 Lecture - 3
An introduction to origin and identification of common rocks and minerals. Topics include crystal forms, physical tests, chemical tests, gem materials, etc. Designed for a rock hound, casual collector, or anyone interested in knowing more about rocks and minerals. Field trips where appropriate.

*G147 - Basic Geology
Credits - 3 Lecture - 3
An introduction to physical geology, designed to help one become more aware of the processes that shape our geological environment. Topics include rock and mineral formation and identification, volcanoes, earthquakes, plate tectonics, glaciations. Field trips where appropriate.

*G198 - Special Studies
Credits - 1-3
This course is designed to provide interested and capable students special topics in geology. Recommended preparation: Instructor approval.

*G201 - Physical Geology
Credits - 4 Lecture - 3 Lab - 1
An in-depth study of the geologic processes occurring on Earth. There are no prerequisites, although a background in science is helpful. Satisfies laboratory science requirements for both science and non-science majors. Topics studied include the origin and identification of rocks and minerals, volcanoes, earthquakes, and plate tectonics. Generally one weekend field trip. Need not be taken in sequence.

*G202 - Physical Geology
Credits - 4 Lecture - 3 Lab - 1
Topics studied will include evolution of landscapes, stream erosion, glaciations, landslides, and interpretation of topographic maps and aerial photos. There are no prerequisites, although a background in science is helpful. Satisfies laboratory science requirements for both science and non-science majors. Generally one weekend field trip. Need not be taken in sequence.

*G203 - Historical Geology
Credits - 4 Lecture - 3 Lab - 1
An examination of the evolution of Earth from the standpoint of plate tectonics, including life forms, rock correlation and geologic time. There are no prerequisites, although a background in science is helpful. Satisfies laboratory science requirement for both science and non-science majors. Generally one weekend field trip. Need not be taken in sequence.

*GEOG101 - Physical Geography
Credits - 3 Lecture - 3
Introduction to physical geography of the earth with specific emphasis on landforms, climate, vegetation, and soils and on the interaction between humans and these elements. This course satisfies science group requirements. Recommended preparation: WR060

*GEOG103 - Human Geography
Credits - 3 Lecture - 3
This course introduces students to the discipline of geography and studies patterns of a wide variety of topics including industry and economy, population, tourism, water rights, and politics. The topics are incorporated through the theme of globalization. Recommended preparation: WR060

*GEOG106 - Human and Cultural Geography
Credits - 3 Lecture - 3
Identifies humankind’s occupancy of the earth. Emphasis is on the division of the world into regions, the potential of each region for human use, and humankind’s cultural and economic adaptations. Recommended preparation: WR060

*GEOG107 - Human and Cultural Geography
Credits - 3 Lecture - 3
Describes the characteristics of the economic, urban, and political landscape; how various cultural groups perceive and modify the earth; and the problems they create in doing. Recommended preparation: WR060

*GEOG120 - World/Regional Geography
Credits - 3 Lecture - 3
This course studies world patterns of the natural and cultural environments and focuses on the place of each geographic region in the world community. Recommended preparation: WR060

*GEOG206 - Geography of Oregon
Credits - 3 Lecture - 3
A study of the diverse landscapes of Oregon. This course considers natural environment, population growth, and settlements. Special emphasis is placed on the historical geography of selected areas of the state. Recommended preparation: WR060 and SP111

*GEOG298 - Special Studies
Credits - 1-3
Designed to provide interested and capable students with the opportunity to study special topics in geography. Recommended preparation: Instructor approval and WR060

*GS104 - Physical Science/Physics
Credits - 4 Lecture - 3 Lab - 1
A one-term introduction to the fundamental physical concepts that form the foundation for all of the physical sciences. Topics include measurement, motion, mechanics, and pressure. Course fulfills a laboratory science requirement.

*GS105 - Physical Science/Chemical Concepts
Credits - 4 Lecture - 3 Lab - 1
A one-term introduction to chemistry and its application to everyday phenomena. Topics include structure of the atom, chemical bonding, solutions, acids and bases, and chemical reactions. Course fulfills a laboratory science requirement.

*GS107 - Physical Science/Astronomy
Credits - 4 Lecture - 3 Lab - 1
A one-term introduction to astronomy that surveys the history of astronomy, our solar system, galaxy, and universe. Topics of current interest to astronomers will be presented. Course includes outdoor observations. Course fulfills a laboratory science requirement.

*GS110 - Physical Science/Energy
Credits - 4 Lecture - 3 Lab - 1
Overview of the sources of energy in nature. Emphasis on how energy is coupled to specific principles and processes related to physics and chemistry. Topics include heat, radioactivity, light, sound, and electricity. Course fulfills a laboratory science requirement.

*GS111 - Physical Science/Forensic Science
Credits - 4 Lecture - 3 Lab - 1
A one-term introduction to criminalistics theories and practices, including basic techniques of investigation. Topics include fingerprints, blood typing, photography and casting techniques. Course fulfills a laboratory science requirement. No prerequisites, no math requirement.

Symbols: ^ - Elective + - Lab Science * - Group Distribution > - P/T Elective
Course Descriptions

**+GS142 - Physical Geology/Earth Revealed**
Credits: 4 Lecture - 3 Lab - 1
This online course examines the evolution of planet Earth based upon the dynamics of interacting systems and physical geological attributes of the planet including geologic time, physical phenomena, and weathering. A "field exercise" will be included that will integrate physical geology concepts with a "real world" experience that will be conducted in the community of each individual student. Course fulfills laboratory science requirement.

**+GS160 - Observational Astronomy**
Credits: 3 Lecture - 3
A one-term non-laboratory introduction to astronomy with emphasis on observing the night sky and fundamental astronomical concepts. Course includes outdoor observations.

**+GS198 - Special Studies**
Credits: 1-3
This seminar course is offered on the basis of demand and covers diverse topics in the natural and physical sciences.

**HD080 - Life Transitions**
Credits: 2 Other - 2
This course is a five week series of seminars designed for students to develop self-knowledge, coping skills, confidence-building, communication skills, parenting skills, and how to have healthy relationships. Included in this course will be exploration of specific careers and orientation to job-search techniques, learning about college support services, managing resources, networking, exploring nontraditional training options, setting goals, and developing action plans.

**HD100 - College Survival and Success**
Credits: 3 Lecture - 3
This course teaches students approaches and techniques that will support their success both as individuals and as students in college. Focus is on academic strategies which include note taking, test taking and text reading. Coping skills such as time management, stress management, assertiveness, and methods for organization will also be presented. This class is available as a lecture course and as a distance education course.

**HD110 - Career Planning**
Credits: 2 Lecture - 2
Students gain information about themselves and occupations. They choose two careers and support their choices based upon the information they have acquired. They use interest inventories, computerized exploration programs, and an entrepreneur quiz. They will use the Career Information System to find sources of training and financial aid for the careers they have chosen.

**HD151 - Service Leadership**
Credits: 1 Lecture - 1
Designed to provide training in leadership skills for elected student government officers and representatives. Not open to general student enrollment. Course serves as a bridge between community/civic legislative service and academic experience. Focus is on communication skills, small group dynamics, presentation skills and leadership styles. Repeatable for a maximum of 3 credits.

**HD152 - Service Leadership**
Credits: 1 Lecture - 1
Designed to provide training in leadership skills for elected student government officers and representatives. Not open to general student enrollment. Course serves as a bridge between community/civic legislative service and academic experience. Focus is on communication skills, small group dynamics, presentation skills and leadership styles. Repeatable for a maximum of 3 credits.

**HD153 - Service Leadership**
Credits: 1 Lecture - 1
Designed to provide training in leadership skills for elected student government officers and representatives. Not open to general student enrollment. Course serves as a bridge between community/civic legislative service and academic experience. Focus is on communication skills, small group dynamics, presentation skills and leadership styles. Repeatable for a maximum of 3 credits.

**HD154 - Ambassadorship**
Credits: 1 Lecture - 1
The Student Ambassadors' primary function is to provide leadership, assistance, and information to prospective BMCC students and to assist the College in attracting prospective students. Ambassadors will be responsible for conducting tours, participating in Ambassador training events, visiting high schools, providing office assistance, and other assigned duties. This course expands on the public speaking, leadership, etiquette, marketing, and college knowledge learned in the first year, and includes mentorship of first year students. This course may be taken up to three times for elective toward a degree.

**HE100 - Introduction to Health Services**
Credits: 4 Lecture - 3 Lab - 1
Individually designed shadow experiences within the health service professional field that provide the learner the opportunity to apply skills as well as obtain knowledge of various health career occupations. Basic First Aid and CPR are included.

**HE115 - Body Composition Assessment**
Credits: 1 Lecture - 1
Percent Body Fat (or lean-to-fat ratio) is a better indicator of health and fitness than scale weight is. This class teaches students about the different methods of assessing percent body fat, their advantages and disadvantages, and how reliable they are. Students will learn to assess lean-to-fat ratio using the skin fold assessment method.

**HE250 - Personal Health**
Credits: 3 Lecture - 3
A visionary look at the state of health and health care today. This distance education course offers teachers and learners an up-to-the-minute look at health and health care issues from weight management to cardiovascular disease and from the latest HIV/AIDS treatment to changes in health care delivery systems. Personal Health combines interviews with leading health professionals, dynamic location footage, and illustrative case studies to bring each lesson to life.

Symbols: ^ - Elective  * - Lab Science  - Group Distribution  > - P/T Elective
^HE252 - First Aid 
Credits - 3 Lecture - 3
This course is designed to provide the student with the knowledge and skills necessary in an emergency to call for help, to help keep someone alive, to reduce pain, and to minimize the consequences of injury or sudden illness until professional medical help arrives. Successful completion will lead to an American Red Cross community first aid and community CPR certification.

^HE253 - Personal Nutrition 
Credits - 3 Lecture - 3
Orientation to the importance of a diet that is low in saturated fat and cholesterol while high in complex carbohydrates and fiber. Emphasis will be on helping participants choose healthy, low fat foods while still enjoying their diets. The course will include an introduction to nutrients and their uses and food sources, as well as discussion of current topics including weight management, eating disorders, exercise, fat foods and diets, recipe modifications, and reducing risk of disease related to high-fat diet.

^HE261 - Cardio-Pulmonary Resuscitation 
Credits - 1 Lecture - 1
Describes principles and procedures of basic life support to victims of airway obstruction, respiratory arrest and/or cardiac arrest. Successful completion of this course leads to an American Red Cross CPR certificate. This course cannot be taken for credit if credit has been given for HE 252.

^HE298 - Special Studies 
Credits - 1-3
This course is designed to provide interested and capable students special topics in health. 
Recommended preparation: Instructor approval

>HORT100 - Plant Science 
Credits - 3 Lecture - 3
Basic principles of plant science and the environmental factors associated with plant growth and development constitute the core of this course. Agricultural application of plants will be emphasized. Cooperative work experience required.
Corequisite: AGR280

>HORT111 - Alternative Crop Production 
Credits - 3 Lecture - 3
Explores specialty crop production such as seed, berry, fruit, and melon production. Mulch use and drip irrigation will be emphasized. Greenhouse work may also be included. Cooperative work experience required.
Corequisite: AGR280

^HPE295 - Health and Fitness for Life 
Credits - 3 Lecture - 3
Develop an understanding of the interacting influences of physical fitness, nutrition, stress management, and health. Course covers many wellness topics including weight control, eating disorders, diet analysis, methods for behavior change, avoiding destructive habits, cardiovascular health, and maintaining a healthy back.

^HS100 - Introduction to Human Services 
Credits - 3 Lecture - 3
This overview of the current role of human services includes history, service delivery systems, clientele served and worker characteristics. Students become acquainted with a variety of human service programs. 
Recommended preparation: WR060

^HS101 - Alcohol and Drug Use, Misuse and Addiction 
Credits - 3 Lecture - 3
Course is a factual presentation of the physiological, psychological and social processes of drug use, misuse, and addiction. Assessment and treatment methods are discussed.
Recommended preparation: WR060

^HS154 - Community Resources 
Credits - 3 Lecture - 3
A practical course designed to promote familiarization with local social service agencies/organizations. An understanding of the history, philosophy, social policy making, scope of services, and service delivery systems of human services in general is promoted. Students will observe community development meetings, update a community resource directory, and complete group projects.
Recommended preparation: WR060

>HS155 - Interviewing 
Credits - 3 Lecture - 2 Other - 1
Beginning Interviewing presents theoretical and practical exposure to several types of effective interviewing. Videotaped role playing is used to practice skills and techniques. Agency guidelines, supporting documentation, and critiquing are presented.
Recommended preparation: WR060

>HS170 - Introduction to Practicum 
Credits - 1 Lecture - 1
This course is designed to provide familiarization with the range of practicum sites, preparation required for beginning a practicum, on-site expectations, and development of specific objectives. Students participate in several tours.
Recommended preparation: WR060

^HS198 - Special Studies 
Credits - 1-3
This course is designed to provide interested and capable students with the opportunity to study special topics in human services. 
Recommended preparation: WR060

>HS265 - Casework Interviewing 
Credits - 3 Lecture - 3
An advanced interviewing course focusing on motivational strategies, behavior changes, planning, documentation, and coordination of services.
Prerequisite: HS155

>HS266 - Case Management 
Credits - 3 Lecture - 3
The focus of this course is case management, which includes intake, assessment, planning, documentation and evaluation plus coordination and collaboration as a team member.
Prerequisite: HS265, HS280

>HS267 - Counseling and Systems Strategies 
Credits - 3 Lecture - 2 Lab - 1
Counseling theories provide a method for understanding individual human behavior and a basis for assisting others in changing their behavior to foster growth. This course will provide an overview of major theoretical orientations and applications. Practical application will be addressed by role-play and case studies. Video-taping will be used to incorporate these techniques with students' existing skills.
Prerequisite: HS265

^HS280 - Cooperative Work Experience 
Credits - 1-8
Individually designed internships provide students with the opportunity to apply and learn skills and knowledge in actual human service programs. There is significant variety between sites and individual student objectives. 
Students will interact with clients and agency staff and will become familiar with policies, procedures, service provision, case management, intervention, and documentation.
Prerequisite: HS170

^HST101 - History of Western Civilization 
Credits - 3 Lecture - 3
This course series traces the evolution of human society and thought from the Paleolithic Age to the present. The survey examines the course of western civilization in the ancient Near East, the Mediterranean, and Europe. This course also covers the Paleolithic Age through the rise and fall of the Roman Empire.
Recommended preparation: WR060

Symbols: ^ - Elective + - Lab Science * - Group Distribution > - P/T Elective
Course Descriptions

**HST102 - History of Western Civilization**  
Credits: 3  Lecture: 3  
This course traces the emergence of a European civilization from the Early Middle Ages to the early 18th century. 
*Recommended preparation: WR060*

**HST103 - History of Western Civilization**  
Credits: 3  Lecture: 3  
This course begins with the Enlightenment and Industrial Revolution and concludes with an examination of the 20th Century West. 
*Recommended preparation: WR060*

**HST104 - World Civilizations I**  
Credits: 3  Lecture: 3  
The first in a series of three World Civilizations courses, the course begins with a study of Near Eastern, Greco-Roman, Indian, and Chinese civilizations; and their basic institutions and divergent tendencies. 
*Recommended preparation: WR060*

**HST105 - World Civilizations**  
Credits: 3  Lecture: 3  
The second in a series of three World Civilizations courses, this course focuses on the impact on other world civilizations of the West's rise to world dominance between 700 and 1700 A.D. 
*Recommended preparation: WR060*

**HST106 - World Civilizations**  
Credits: 3  Lecture: 3  
The third in a series of three World Civilizations courses, the course focuses on the impact of modern Western traditions on the other great world civilizations since the 18th century. The term concludes with an examination of 20th Century developments. 
*Recommended preparation: WR060*

**HST201 - History of the United States**  
Credits: 3  Lecture: 3  
U.S. History traces the growth and development of America from Colonial times to the present society. HST 201 begins with the native peoples of North America and continues through the Age of Jefferson ending c. 1820. 
*Recommended preparation: WR060*

**HST202 - History of the United States**  
Credits: 3  Lecture: 3  
This course begins with expansion and slavery, covers the Civil War and Reconstruction and concludes with the rise of the industrial state and the Progressive Era. The course will cover the period from c. 1815 to 1917. 
*Recommended preparation: WR060*

**HST203 - History of the United States**  
Credits: 3  Lecture: 3  
This course begins with the Progressive Era and covers development through the Twentieth Century to the present. 
*Recommended preparation: WR060*

**HST205 - Women of the West**  
Credits: 3  Lecture: 3  
History of Women in the U.S. (1840s to 1920) examines women's work, stereotypes, social reform activities, family and social relations. Explores class, ethnicity, race and regional diversity using the American West as a framework. 
*Recommended preparation: WR060*

**HST258 - History of Latin America**  
Credits: 3  Lecture: 3  
Survey the history of economic, political, and social developments in Mexico, Central America, and South America from the first peoples through the Colonial period to the eve of the Wars of Independence. 
*Recommended preparation: WR060*

**HST259 - History of Latin America**  
Credits: 3  Lecture: 3  
Survey economic, political, religious, and social history in Mexico, Central, and South America from the Wars of Independence through the present. 
*Recommended preparation: WR060*

**HST298 - Special Studies**  
Credits: 1-3  
Specialized courses which may be offered periodically depending on demand and availability. 
*Recommended preparation: WR060*

**HTM100 - Introduction To Hospitality Industry**  
Credits: 3  Lecture: 3  
Introduces the hospitality industry as a single, interrelated industry composed of food and beverage, travel and tourism, lodging, meeting and planning events, recreation and leisure, recreational entertainment, and eco and heritage tourism. 

**HTM101 - Customer Service Management**  
Credits: 3  Lecture: 3  
This course provides an in-depth study of the methods and techniques employed by the hospitality and tourism industry to accomplish effective and efficient customer service operation. Includes combined discussions of management theory, systems, decision-making, and leadership directly relevant to any profession with emphasis on the hospitality industry. Also covers the business facets of human resource management, finance, ethics, and total quality management with a business environment. 

**HTM102 - Hotel, Restaurant and Travel Law**  
Credits: 3  Lecture: 3  
A comprehensive course of study designed to inform and educate students with the legal aspects of the hospitality and tourism industry. Utilizes critical thinking skills to teach students to communicate with their attorneys, to recognize the ramifications of the policies and practices of their businesses, and to apply practical principles to everyday operations. Students can discuss an recent legal situations and the reasoning of the course taken. Discussions will also be held on the Disabilities Act, sexual discrimination, and civil rights issues. Other discussions include basic court procedures, contract law negligence, guest relationship obligations, alcohol liability, travel agent relationships, licensing, and regulations.

**HTM103 - Marketing in the Hospitality Industry**  
Credits: 3  Lecture: 3  
This course studies how marketing activities direct the flow of goods and services from product to consumer in the hospitality and tourism industry.

**HTM104 - Travel and Tourism Industry**  
Credits: 3  Lecture: 3  
This course explores the major concepts in tourism; what makes tourism possible; and how tourism can become an important factor in the economics of any nation, region, state, or local area. Discusses the fundamentals of the tourism system and the key costs and benefits of a tourism economy. Promotes understanding and knowledge of the diverse elements that constitute the travel and tourism industry and the factors that influence growth and development. Examples of tourism development practices in Oregon will be addressed.

**HTM105 - Introduction to the Food and Beverage Industry**  
Credits: 3  Lecture: 3  
This course covers the food service industry including its structure, organization, size, economic impact, regulatory industries, and peripheral industries; managerial problems and practices; and trade journals and resources. Reviews food service segments. Discusses current industry operational topics.

**HTM107 - Food Sanitation and Cost Control**  
Credits: 3  Lecture: 3  
This course covers principles and practices of sanitation and safety for managers. Students will discuss Hazard Analysis Critical Control Point (HACCP) system. Covers potable water systems, waste treatment, lodging facilities, recreational facilities, swimming pool and spa regulations, and hazardous materials.
>HTM109 - Introduction to the Lodging Industry  
Credits - 3 Lecture - 3  
This course introduces the lodging industry, including its structure, size, scope, managerial problems, and practices. Covers the structure and organization within the individual firm's front-office procedures. This course will also explore career opportunities.

>HTM112 - Bed and Breakfast Management  
Credits - 3 Lecture - 3  
This is an overview course designed to explore the subject of the bed and breakfast and innkeeping industry. Course discusses the realities of purchasing, owning, and operating a successful inn. Topics will explore design, financing, operations, food service/sanitation, marketing, and governmental regulations.

>HTM124 - Catering and Banquet Operations  
Credits - 3 Lecture - 3  
This course will study on-premise catering facilities, including operations, sales, and relationships with outside vendors and related departments and industries. Emphasizes logistical operations and seeking and servicing various market segments.

>HTM126 - Meeting and Convention Management  
Credits - 3 Lecture - 3  
Focuses on the management and operations of the meeting, convention, and event market of the hospitality and tourism industry. Introduces the meetings industry, promotional activities, and negotiations for meeting services. Covers convention market salesmanship, customer service, and convention servicing. Incorporates facilities, technology, and media components.

>HTM127 - Travel Sales and E-Commerce  
Credits - 3 Lecture - 3  
This course prepares travel and tourism students for a successful career in selling travel. It creates an understanding of the broader sales environment. Applies concepts and techniques to sample sales dialogues, examples, and case studies. Assesses the impact of the Internet and e-commerce trends on the travel industry, how consumers currently use the Internet to make travel purchases, and the functionality of travel e-commerce sites. Focuses on how e-commerce travel sites integrate with global distribution systems and the changing value chain in the travel marketplace.

>HTM130 - Beverage Management  
Credits - 3 Lecture - 3  
This course focuses on cost control, inventory management, and pricing systems required for restaurant and food service operations. It discusses customer demographics shifts, and beverage trends and the importance of responsible alcohol beverage service. It covers wine and beer appreciation, including regional differences, production methods, and upscale product features of distillates. It incorporates beverage mixology, marketing, and profit management.

>HTM132 - Menu Planning  
Credits - 3 Lecture - 3  
This course covers principles of planning a menu, from concept development and design mechanics to menu pricing and marketing issues. Addresses current food service industry needs, including operations, sanitation, and nutrition concerns; design mechanics; and increasing sales through the menu.

IMT031 - Basic Gas and Arc Welding  
Credits - 3 Lab - 3  
In introduction to welding practices including oxyacetylene welding and cutting, arc welding, welding rod identification and application, properties of metals, joint preparation, and weld quality and identification.

IMT032 - Advanced Arc Welding  
Credits - 3 Lab - 3  
An advanced level course for students who know welding safety, basic practices and terminology. Student will learn higher-level practices and improve their skills learned in the basic class.

IMT033 - Welding Practices for Certification  
Credits - 3 Lab - 3  
Designed for students who have advanced level arc welding skills to prepare for structural certification. Weld coupons will be tested and documented when they have passed the required weld strength and quality.

IMT035 - Pipe Welding for Certification  
Credits - 3 Lab - 3  
Designed for students who have advanced level arc welding skills to introduce pipe-welding techniques to prepare for pipe welding certification. Weld coupons will be tested and documented when they have passed the required weld strength and quality.

IMT040 - TIG Welding  
Credits - 3 Lab - 3  
Designed for students who have basic level welding skills to introduce Tungsten Arc Welding techniques including the setup of equipment for the welding process.

IMT042 - Stainless Steel and Aluminum Welding  
Credits - 3 Lab - 3  
Designed for students who have advanced level welding skills to introduce specific welding techniques used to weld and cut specialty metals.

IMT050 - Internship  
Credits - 3 Lab - 3  
Paid full-time, summer internship in a local industry for people taking or planning to take the Industrial Maintenance Technology program. The internship will include various entry level maintenance work assignments at one of several local plants. Limited enrollment will be accepted. Requirements may include minimum age and physical strength. Preference will be given to people who make a commitment to enter and complete the Industrial Maintenance Technology program and meet employer qualifications.

IMT062 - Drawings and Schematics  
Credits - 3 Lecture - 2 Other - 1  
Practical instruction to effectively read and understand schematic drawings encountered in everyday maintenance applications.

Corequisite: IMT090

IMT064 - FPI Welding Applications  
Credits - 3 Lecture - 1 Other - 2  
Covers proper welding techniques for using MIG equipment, including wire selection, gas selection, and proper voltage and amperage settings; primarily deals with stainless steels and light gauge sheet metal.

Prerequisite: AGM221  
Corequisite: IMT090

IMT066 - Basic Machine Shop  
Credits - 3 Lecture - 2 Other - 1  
The operation of standard fabricating equipment and manual tools to cut, drill, turn, thread, mill and grind metal pieces accurately to specified dimensions.

IMT070 - Industrial Safety  
Credits - 3 Lecture - 3  
Introduction to basic industrial safety incorporating OSHA rules and regulations, personal protective equipment, chemical safety, tool safety, material handling safety, machine safety, electrical safety, fire protection, health protection and safe working practices applied in industry.

Corequisite: IMT090

IMT077 - Electrical Safety for Irrigation  
Credits - 3 Other - 3  
Fundamentals of electrical safety for center pivot irrigation systems. Overview of electrical fundamental and safety practices for system operators.
**Course Descriptions**

**IMT082 - Mechanical Systems**  
Credits: 3 Lecture - 3  
Basic principles and characteristics of lubrication, storage, handling, types of oils and greases and their application. Maintenance, installation, and application of journal bearings, antifriction bearings, bearing seals, mechanical drives, couplings, clutches, gears, motors and brakes.  
Corequisite: IMT090

**IMT085 - Fluid Power Fundamentals**  
Credits: 3 Lecture - 2 Lab - 1  
An introduction to industrial hydraulics, pneumatics and vacuum working systems which generate, use and control fluid power to drive mechanisms.  
Prerequisite: MTH025  
Corequisite: IMT090

**IMT086 - Fluid Power Applications**  
Credits: 3 Lecture - 2 Lab - 1  
Installation, operation and servicing of hydraulic and pneumatic systems, the selection of proper equipment and troubleshooting existing configurations.  
Prerequisite: IMT085  
Corequisite: IMT090

**IMT088 - Steam Plant Operation**  
Credits: 3 Lecture - 2 Lab - 1  
Operating and troubleshooting boilers, boiler systems and working with equipment in use at local plants. Covers safety, selection of proper equipment and solving problems in existing systems.  
Prerequisite: IMT061 and IMT075

**IMT090 - Integrated Work Experience**  
Credits: 1 Other - 1  
Work activities coordinated with individual IMT courses to facilitate and enhance the learning process for technical subject material. Assignments are given in each linked IMT course to correlate theoretical and application instruction in that course with work site equipment and processes. IWE is graded on a participation basis.  
Corequisite: Any course requiring IMT090 as a corequisite

**IMT091 - Numerical Process Control**  
Credits: 3 Lecture - 3  
A comprehensive course on the applications of statistical process control. Emphasis is placed on the technicians role in assisting operators and management to solve process related problems with the use of control charts. Participants will develop an understanding of the concept of variation, probability, how to measure variation, the tools used to limit variation, and how problem solving teams operate.  
Prerequisite: MTH025  
Corequisite: IMT090

**IMT092 - Properties of Materials**  
Credits: 3 Lecture - 2 Lab - 1  
Identification and selection of materials for industry applications. Covers physical properties, chemical properties, wears and impact resistance, as well as heat treatment, casting, joining processes and alloy classifications.  
Corequisite: IMT090

**IMT093 - Basic Industrial Refrigeration**  
Credits: 3 Lecture - 3  
Introductory course covers operation, maintenance, troubleshooting and installation of industrial refrigeration systems. Current information on EPA rules, identification of new types of refrigerants and use of various types of troubleshooting charts.  
Corequisite: IMT090

**IMT094 - Advanced Industrial Refrigeration**  
Credits: 3 Lecture - 2 Lab - 1  
Designed to develop skills for operation, maintenance, troubleshooting and installation of industrial refrigeration systems. Covers current information on the EPA rules governing recovery, recycling and reusing of refrigerants.  
Prerequisite: IMT093  
Corequisite: IMT090

**IMT095 - Maintenance Management**  
Credits: 3 Lecture - 3  
An overview of maintenance management, covering preventive and maintenance management programs, monitoring equipment, predictive maintenance, computer programs for inventory management, ordering parts and record keeping.  
Corequisite: IMT090

**IMT096 - Programmable Logic Controllers**  
Credits: 3 Lecture - 3  
An overview of programmable controller concepts, covers programmable logic controller (PLC) hardware components, number systems and codes, fundamentals of logic, basics of PLC programming. Programming timers, counters and sequencers. PLC installation and troubleshooting.  
Prerequisite: EET092  
Corequisite: IMT090

**LA025 - Language Arts**  
Credits: 4 Lecture - 4  
This course covers basic reading, writing, spelling, and vocabulary skills needed to prepare students for higher level language arts courses. Reading skills will focus on increasing critical thinking and analysis skills as well as increasing vocabulary fluency and recognition. Writing skills will focus on improving grammar, spelling, punctuation, sentence structure, and paragraph and essay development and organization.  
Requires completion of MET052

**LA035 - Language Arts**  
Credits: 4 Lecture - 4  
This course covers skills needed in reading, writing, and vocabulary to be successful in higher level college courses such as Writing 60 and Writing 121. Reading skills will focus on critical thinking, effective analysis, and the understanding and use of advanced vocabulary. Writing skills will focus on developing paragraphs and essays with emphasis on appropriate grammatical use, essay structure, styles of writing, and conducting research.

**MET045 - Automotive/Diesel Management Seminar I**  
Credits: 2 Lecture - 2  
Course is designed to introduce students to the management of personal and on-the-job stress, the development of a personal growth plan and teach the principles of time management and budgetary procedures for shop management personnel.

**MET046 - Automotive/Diesel Management Seminar II**  
Credits: 2 Lecture - 2  
Course is designed to introduce students to customer relations and employee communication. The development of skills will be practices, as well as human resource management. An overview of general government regulations as they are applied in the mechanical shop and office will be introduced.

**MET052 - Manual Drive Transmissions I**  
Credits: 3 Lecture - 2 Other - 2  
Principles and operation of power train components including automotive and industry applications of clutches, drive lines, and gear transmissions. Transmission of force through the mechanism will be studied in theory and in labs. Detailed maintenance and repair of drive lines, clutches, gear transmissions, and transaxles with emphasis on problem diagnosis, repair and replacement.

**MET053 - Manual Drive Transmissions II**  
Credits: 3 Lecture - 2 Other - 2  
A continuation of MET 052 covering more detailed maintenance and repair of drive lines, differentials, transfer cases, gear transmissions, and transaxles with emphasis on problem diagnosis, repair and replacement, and repair.

**MET055 - Employment Preparation I**  
Credits: 2 Lecture - 2  
Personal files will be compiled by each student to help them be more prepared for job hunting. The file will consist of a resume, cover letter and letters of recommendation. The class will also survey a number of careers in the mechanical technology industry. This class meets the human relations component of the AAS degree embedded in the Mechanical Technical program. For mechanical technology students only.

---

Symbols:  
- Elective  
+ Lab Science  
* Group Distribution  
> P/T Elective
MET056 - Employment Preparation II
Credits - 2 Lecture - 2
This course is designed to enlighten the student regarding the "real work world". Topics covered will include: interviews, personal relations, and personal safety pertaining to the mechanical field. This course meets the human relations component of the AAS degree embedded in the Mechanical Technical program. For mechanical technology students only.

MET062 - Engine Repair I
Credits - 3 Lecture - 2 Lab - 1
Detailed study of disassembly and inspection of an internal combustion engine. Students will study materials used in construction, function, and purpose of each unit, its upkeep and overhaul.

MET063 - Engine Repair II
Credits - 3 Lecture - 2 Lab - 1
This course will emphasize the operation, construction and assembly of an internal combustion engine. Troubleshooting and common operating problems will be discussed.

MET076 - Mobile Air Conditioning and Heating
Credits - 4 Lecture - 2 Lab - 2
Heating and refrigeration fundamentals covering theory, operation, and application including materials and equipment used for service and repair of automotive, truck, and tractor air conditioning and heating systems.

MET081 - Measurement
Credits - 3 Lecture - 3
Designed to provide the skills needed to perform the measuring techniques used in all aspects of mechanics. Both English and metric systems will be covered in the classroom and practiced in the lab where automotive parts will be measured using the correct instruments.

MET084 - Applied Fluid Mechanics
Credits - 3 Lecture - 3
Characteristics of fluid flows and pressures as it applies to automotive and heavy equipment circuitry will be studied. A detailed study of pumps, controls, actuators, and systems will be covered.

MET091 - Electrical Systems I
Credits - 4 Lecture - 2 Other - 2
An introductory course designed to provide basic technical knowledge of principles of operation, construction, and purpose of electron theory and basic electrical circuits and components.

MET092 - Electrical Systems II
Credits - 4 Lecture - 2 Other - 2
Provides the basic technical knowledge of electrical circuits, measurement values, circuit components, circuit tracing and diagnosing, and repair of electrical malfunctions.

MET093 - Electrical Systems III
Credits - 4 Lecture - 2 Other - 2
Designed to give the student basic technical knowledge of semiconductors and diodes, including operating principles of starting, charging, and ignition systems.

MTH015 - Mathematics Improvement
Credits - 3 Lecture - 3
Students placed in this course will review whole number processes and study fractions, decimals, percents, measurements and story problems. This course is offered in a traditional classroom setting.

MTH025 - Pre-Algebra
Credits - 4 Lecture - 4
This course is designed for students who are almost ready for elementary algebra. Those who place in this course will study all processes of fractions, decimals, ratio/proportion/percent, measurement, integers, basic geometry and algebraic expressions and equations. This course is offered in a traditional classroom setting and as a distance education course.

MTH042 - Technical Mathematics
Credits - 4 Lecture - 3 Other - 1
The student will study and demonstrate knowledge of ratios, proportions, percentages, and application of Elementary Algebra, Elementary Geometry, Elementary Trigonometry, and mathematical formulas to technical problems.

MTH044 - Technical Mathematics
Credits - 3 Lecture - 3
Students will demonstrate knowledge of applications of mathematics to business related problems. Interest, depreciation, prepayments, markups, discounts, and employee compensation are among the topics considered.

MTH045 - Nursing Mathematics
Credits - 2 Lecture - 1 Lab - 1
This course is designed to educate the beginning nursing student to perform and demonstrate the mathematics and basic principles related to the administration of drugs and solutions.

MTH060 - Elementary Algebra
Credits - 4 Lecture - 4
The student will demonstrate knowledge of basic algebra notation, linear equations and inequalities, graphing, linear systems, exponents, and polynomials.

MTH065 - Elementary Algebra
Credits - 4 Lecture - 4
The student will study and demonstrate knowledge of polynomials, factoring, rational expressions and equations, functions and graphs, and additional related topics.

MTH070 - Intensive Elementary Algebra
Credits - 5 Lecture - 5
This course is an intensive review of topics in elementary algebra designed to provide the student with the prerequisite knowledge necessary for success in MTH 095. This course is for the student who has had some experience with algebra. In this course the student will learn to solve a variety of problems including linear equations and inequalities and quadratic equations. Methods will include the use of data tables, graphs and symbolic representation. Students will also be expected to give verbal justification for mathematical models and solution methods. This class is an accelerated version of MTH060 and MTH065. MTH070A covers material from MTH060 and MTH070B cover material from MTH065.

MTH090 - Mathematics Placement Preparation
Hours - 20 Lecture - 20
This course is a review of topics covered in MTH 20, 60, 65, and 95. Its purpose is to help students place higher on the COMPASS placement test.

MTH095 - Intermediate Algebra
Credits - 4 Lecture - 4
The student will study and demonstrate knowledge of prerequisite skills needed for MTH 105 and MTH 111. These skills include solving algebraic equalities and inequalities, logarithmic equations, and systems of linear and nonlinear equations. Also included are graphing algebraic functions, logarithmic functions, and conic sections. Emphasis is placed on algebraic problem-solving skills; a graphing calculator will be used as a tool to further algebraic knowledge.

*MTH103 - Problem Solving with Technology
Credits - 1 Lab - 1
A mathematics problem solving course that applies prerequisite algebra skills. Students practice critical thinking skills in a variety of algebraic areas. The main focus of this course is exploration of algebra through the use of technology, i.e., graphics calculators and/or computer software. Offered periodically.

Prerequisite: MTH095 or instructor approval
Course Descriptions

*MTH105 - Introduction to Contemporary Mathematics
Credits - 4 Lecture - 4
This is a mathematics problem-solving course that applies prerequisite algebra skills. Students practice critical thinking skills in a variety of application areas chosen from the physical and social sciences, modeling, consumer math, statistics, geometry, number theory, logic, probability, and recreational math. The course stresses clear communication, problem solving strategies, group problem-solving experiences, and appropriate use of graphics calculator and computer software as problem-solving tools.
Prerequisite: MTH095 with a C or better or placement

*MTH111 - College Algebra
Credits - 4 Lecture - 4
Students will demonstrate knowledge of functions in general, polynomial, rational, exponential, and logarithmic functions in particular. Students will also demonstrate knowledge of linear systems, sequences, and series; mathematical induction; and binomial expansion. Emphasis is placed on algebraic problem-solving skills; a graphing calculator will be used as a tool to further algebraic knowledge.
Prerequisite: MTH095 with a C or better or placement

*MTH112 - Elementary Functions
Credits - 4 Lecture - 4
The students will study and demonstrate knowledge of trigonometric functions, applications of trigonometry, trigonometric identities and equations, complex trigonometric numbers, linear programming, partial fractions, probability and data analysis, conic sections, parametric equations, polar coordinates, and vectors.
Prerequisite: MTH111 with a C or better or placement

*MTH198 - Special Studies
Credits - 1-3
This course is designed to provide interested and capable students special topics in mathematics.
Recommended preparation: Instructor approval

*MTH211 - Foundations of Elementary Mathematics
Credits - 4 Lecture - 4
The student will study and demonstrate knowledge of problem-solving, sets, relations, whole numbers, numeration systems, and number theory.
Prerequisite: MTH095 with a C or better or placement

*MTH212 - Foundations of Elementary Mathematics
Credits - 4 Lecture - 4
The student will study and demonstrate knowledge of integers, rational numbers, real numbers, and mathematical systems.
Prerequisite: MTH211 with a C or better or placement

*MTH213 - Foundations of Elementary Mathematics
Credits - 4 Lecture - 4
The student will study and demonstrate knowledge of geometry, probability, and statistics and other topics in elementary mathematics.
Prerequisite: MTH212 with a C or better or placement

*MTH231 - Discrete Mathematics
Credits - 4 Lecture - 4
Students will study and demonstrate knowledge of topics chosen from logic, set theory, functions, algorithms, number theory, matrices, proof techniques, recursion, counting techniques, relations, and graphing theory. Offered periodically.
Prerequisite: MTH111 with a C or better or placement

*MTH241 - Calculus for Management/Social Science
Credits - 4 Lecture - 4
Students will study and demonstrate knowledge of the basic concepts of differential and integral calculus with emphasis on the basic techniques and applications. The approach will be from an intuitive point of view.
Prerequisite: MTH111 with a C or better or placement

*MTH243 - Introduction to Probability and Statistics
Credits - 4 Lecture - 4
Students will demonstrate knowledge of graphical and numerical descriptive statistics, probability theory, probability distributions, statistical inference, and regression. The emphasis will be on statistical inference making and on interpretation of results of statistical tests. A graphing calculator will be used as an aid to data description and statistical inference.
Prerequisite: MTH111 with a C or better or placement

*MTH251 - Calculus
Credits - 4 Lecture - 4
Students will study and demonstrate knowledge of limits, continuity, the derivative, and applications, including trigonometry.
Prerequisite: MTH112 with a C or better or placement

*MTH252 - Calculus
Credits - 4 Lecture - 4
The student will study and demonstrate knowledge and application of the definite integral, differentiation and integration of logarithmic, exponential, trigonometric, and inverse functions and applications.
Prerequisite: MTH251 with a C or better or placement

*MTH253 - Foundations of Elementary Mathematics
Credits - 4 Lecture - 4
The student will study and demonstrate knowledge of integers, rational numbers, real numbers, and mathematical systems.
Prerequisite: MTH252 with a C or better or placement

*MTH254 - Vector Calculus
Credits - 4 Lecture - 4
The student will study and demonstrate knowledge of vector-valued functions, functions of several variables, partial differentiation and related applications, and multiple integration with related applications. Offered periodically.
Prerequisite: MTH252

*MTH255 - Vector Calculus
Credits - 4 Lecture - 4
The student will study and demonstrate knowledge of double and triple integration, polar and cylindrical and spherical coordinates, applications to area and volume and mass and center of mass, vector fields, line integrals, Green's theorem, surface area and integrals, Stokes' theorem, and application problems. Offered periodically.
Prerequisite: MTH254 with a C or better or placement

*MTH256 - Differential Equations
Credits - 4 Lecture - 4
This course covers the methods of solving ordinary differential equations and includes three types of solutions: elementary methods, convergent power series, and numerical methods, with applications to physical and engineering science. Offered periodically.
Prerequisite: MTH252

*MTH261 - Linear Algebra
Credits - 4 Lecture - 4
Students will study and demonstrate knowledge of matrix solutions to systems of linear equations, determinants, vector spaces, Gram-Schmidt orthogonalizations, linear transformations, Eigen values and Eigen vectors. Offered periodically.
Prerequisite: MTH252 with a C or better or placement
**MTH280 - Cooperative Work Experience**  
Credits: 1-8  
Provides a supervised work experience in mathematics which supplements the "school experience", that is not possible in a normal academic classroom environment.  
Recommended preparation: Instructor approval

**MTH298 - Special Studies**  
Credits: 1-3  
This course is designed to provide interested and capable students special topics in mathematics. It will provide statistics students an opportunity to use the statistical tools learned in the classroom to analyze real data. This course is a co-requisite with MTH 243.  
Recommended preparation: Instructor approval

**MUP105 - Jazz Ensemble**  
Credits: 1 Lab - 1  
Provides an opportunity for students to rehearse and perform current jazz and jazz standard literature. Course is repeatable up to 3 times (3 credits total).

**MUP115 - General Ensemble**  
Credits: 1 Lab - 1  
Provides an opportunity for students to rehearse and perform in a select small ensemble. Course is repeatable up to 3 times (3 credits total).  
Recommended preparation: Instructor approval

**MUP122 - Concert Choir**  
Credits: 1 Lab - 1  
Provides the skilled vocalist an opportunity to participate in a select group. Course is repeatable up to 3 times (3 credits total).  
Recommended preparation: Audition and/or instructor approval

**MUP125 - Vocal Jazz Ensemble**  
Credits: 1 Lab - 1  
An opportunity for advanced vocalists to perform literature of the popular and/or vocal jazz styles. Course is repeatable up to 3 times (3 credits total).  
Required preparation: Instructor approval

**MUP141 - Symphony Orchestra**  
Credits: 1 Lab - 1  
This course provides an opportunity to participate in the Oregon East Symphony, offering performances of a wide variety of orchestral styles. Course is repeatable up to 3 times (3 credits total).  
Required preparation: Instructor approval

**MUP168 - Applied Woodwinds**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

**MUP169 - Applied Brass**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).  
Required preparation: Instructor approval

**MUP170 - Applied Strings**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

**MUP171 - Applied Piano**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

**MUP173 - Applied Organ**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

**MUP174 - Applied Voice**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

**MUP191 - Applied Percussion**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

**MUP192 - Applied Synthesizers**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

**MUP205 - Jazz Ensemble**  
Credits: 1 Lab - 1  
Provides an opportunity for students to rehearse and perform current jazz and jazz standard literature. Course is repeatable up to 3 times (3 credits total).

**MUP215 - General Ensemble**  
Credits: 1 Lab - 1  
Provides an opportunity for students to rehearse and perform in a select small ensemble. Course is repeatable up to 3 times (3 credits total).

**MUP222 - Concert Choir**  
Credits: 1 Lab - 1  
To provide the skilled vocalist an opportunity to participate in a select group. Course is repeatable up to 3 times (3 credits total).

**MUP225 - Vocal Jazz Ensemble**  
Credits: 1 Lab - 1  
An opportunity for advanced vocalists to perform literature of the popular and/or vocal jazz styles. Course is repeatable up to 3 times (3 credits total).  
Prerequisite: MUP125 and instructor approval

**MUP241 - Symphony Orchestra**  
Credits: 1 Lab - 1  
This course provides an opportunity to participate in the Oregon East Symphony, offering performances of a wide variety of orchestral styles. Course is repeatable up to 3 times (3 credits total).

**MUP268 - Applied Woodwinds**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).  
Prerequisite: MUP168

**MUP269 - Applied Brass**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

**MUP270 - Applied Strings**  
Credits: 1 Lecture - 1  
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).
Course Descriptions

^MUP271 - Applied Piano
Credits - 1 Lecture - 1
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).
Prerequisite: MUP171

^MUP273 - Applied Organ
Credits - 1 Lecture - 1
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

^MUP274 - Applied Voice
Credits - 1 Lecture - 1
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

^MUP291 - Applied Percussion
Credits - 1 Lecture - 1
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

^MUP292 - Applied Synthesizers
Credits - 1 Lecture - 1
Individual private instruction is given in technical and stylistic aspects of artistic solo performance. Students enroll for a one-half hour lesson each week in their major instrument each term. Course is repeatable up to 3 times (3 credits total).

^MUS101 - Fundamentals of Music
Credits - 2 Lecture - 2
Elementary study of terms and notation symbols designed to develop elementary competence in performing from notation and in notating musical ideas.

^MUS105 - Music Appreciation
Credits - 3 Lecture - 3
A general survey of music in the Western European Art Music tradition. Music will be discussed with regard to historical events, trends, introduction and development of forms and major composers of each era.

^MUS107 - Studio Recording Techniques
Credits - 2 Lecture - 2
A hands on course for training in the use of recording and sound reinforcement equipment. This includes the use and care of microphones, effect units, multitrack recorders and soundboards.

^MUS108 - Studio Recording Techniques
Credits - 2 Lecture - 2
A continuation of MUS 107.

^MUS109 - Studio Recording Techniques
Credits - 2 Lecture - 2
A continuation of MUS 108.
Prerequisite: MUS107 and MUS108

^MUS111 - Music Theory
Credits - 4 Lecture - 4
Thorough groundwork in the fundamentals of music, melody, harmony, rhythm, and ear training. Students having a limited piano background should take MUS 131 Class Piano to have an understanding of the keyboard.
Corequisite: MUS114

^MUS112 - Music Theory
Credits - 4 Lecture - 4
A continuation of MUS 111.
Prerequisite: MUS111
Corequisite: MUS115

^MUS113 - Music Theory
Credits - 4 Lecture - 4
A continuation of MUS 112.
Prerequisite: MUS112
Corequisite: MUS116

^MUS114 - Ear Training and Sight Singing
Credits - 1 Lecture - 1
This course offers practice in singing, dictating, and reading music without accompaniment. It stresses music terminology, rhythms, and intervals.
Corequisite: MUS111

^MUS115 - Ear Training and Sight Singing
Credits - 1 Lecture - 1
A continuation of MUS 114.
Prerequisite: MUS114
Corequisite: MUS112

^MUS116 - Ear Training and Sight Singing
Credits - 1 Lecture - 1
A continuation of MUS 115.
Prerequisite: MUS115
Corequisite: MUS113

^MUS131 - Class Piano
Credits - 2 Lecture - 2
Classroom instruction to fit the needs of beginners.

^MUS132 - Class Piano
Credits - 2 Lecture - 2
A continuation of MUS 131.
Required preparation: MUS131

^MUS133 - Class Piano
Credits - 2 Lecture - 2
A continuation of MUS 132.
Prerequisite: MUS131 and MUS132

^MUS135 - Class Voice
Credits - 2 Lecture - 2
For beginners in vocal music. Deals primarily with development of breath control, tone production, articulation and enunciation in a group situation. Classroom performance of song and study of song literature.

^MUS198 - Special Studies
Credits - 1-3
Three terms of different study in music may be repeated for credit.

^MUS201 - Introduction to Music and Its Literature
Credits - 3 Lecture - 3
Enjoyment and understanding of music through listening and study of its elements, forms, and historical styles from its origins through 1750.

^MUS202 - Introduction to Music and Its Literature
Credits - 3 Lecture - 3
Enjoyment and understanding of music through listening and study of its elements, forms, and historical styles. Music and composers from 1750 to 1850.

^MUS203 - Introduction to Music and Its Literature
Credits - 3 Lecture - 3
Enjoyment and understanding of music through listening and study of its elements, forms, and historical styles. Music and composers from 1850 to the present.

^MUS205 - Introduction to Jazz History
Credits - 3 Lecture - 3
This course will chronologically survey prominent jazz styles and musicians of the 20th century. Listening will be a large part of the coursework.

Symbols: ^ - Elective  + - Lab Science  * - Group Distribution  > - P/T Elective
*MUS206 - Introduction to History of Rock Music  
Credits - 3 Lecture - 3  
A general survey of the history of rock and roll music. Beginning with its roots in African-American folk blues, this course will follow sociopolitical events that shaped the development of this popular genre. Also to be discussed will be typical instrumental groups, history of electronic amplification of string and keyboard instruments, development of form and lyric content, as well as marketing trends that shape content and intention of rock.

*MUS207 - History of Folk Music  
Credits - 3 Lecture - 3  
A survey of Anglo-American folk music and its subsequent styles from the first collected folk songs of Cecil Sharp (around 1900) to the present. Beginning with the Appalachian instrumental and vocal traditions, later folk-based styles will be discussed including country music, folk protest, bluegrass, folk rock, and progressive folk. Also to be discussed will be characteristics of the Anglo-American style with musical retentions from British Isles.

*MUS211 - Music Theory  
Credits - 3 Lecture - 3  
Continues studies on the elements of music, with emphasis upon analysis of various musical styles and trends.  
Prerequisite: MUS111, 112, 113 with a grade of C or better.

*MUS212 - Music Theory  
Credits - 3 Lecture - 3  
A continuation of MUS 211.  
Prerequisite: MUS111, 112, 113 and MUS211

*MUS213 - Music Theory  
Credits - 3 Lecture - 3  
A continuation of MUS 212.  
Prerequisite: MUS111, 112, 113 and MUS211, 212

*MUS298 - Special Studies  
Credits - 1-3  
Selected topics in music including pedagogy, conducting and performance practice.

>NUR101 - Fundamentals of Nursing  
Credits - 9 Lecture - 5 Lab - 1 Other - 3  
This course presents concepts of nursing and how they relate to human beings in modern society. Explored are the rules and responsibilities of nurses, legal aspects, the health team members, and the goal of the health care delivery system. The student is introduced to the concepts of the health-illness continuum as it relates to human beings throughout the life cycle, the basic needs of human beings, the nursing process, and fundamental skills in patient care. Opportunities are provided for skills practice in simulated laboratory and clinical settings. The student is also introduced to beginning psychiatric concepts of stress and adaptation, crisis theory, therapeutic communication and the sick role.  
Prerequisite: Admission to nursing program  
Corequisite: NUR254 and MTH095

>NUR102 - Medical-Surgical Nursing  
Credits - 9 Lecture - 5 Other - 4  
Content includes concepts and skills of holistic medical-surgical nursing throughout the life span, including pediatric, adult and geriatric nursing. With faculty guidance, the student will apply and utilize concepts learned in NUR 101 to develop skills needed for effective nursing practice with children, adults and the aged. Special emphasis is placed on care of the patient experiencing diagnostic procedures and tests, surgical interventions and disturbances in fluid and electrolyte balance. In addition, the care of the patient in shock, experiencing hemorrhage, blood transfusions and transplants are also discussed. The care of the patient and their family will be an integral part of the curriculum for each age group. This course continues to develop and reinforce medication calculations and administration as it applies to the health care setting.  
Prerequisite: NUR101 and NUR254,

>NUR103 - Medical-Surgical Nursing  
Credits - 13 Lecture - 9 Other - 4  
Classroom instruction presents concepts, disease processes by system, adaptation to illness, and development of skills in medical-surgical nursing of children, adults and the aged. The student will further develop and apply concepts learned in NUR 102. Supervised experiences are provided in applying principles of nursing and related disciplines to meet the basic needs of these groups in various clinical settings. This course integrates the application of medication calculation and administration.  
Prerequisite: NUR102, PHC211 and NUR151

>NUR151 - Nursing Skills Lab  
Credits - 1 Lab - 1  
This course applies the nursing process and PN skills in intravenous therapy, enteral nutrition, incident reports, transcribing orders, tracheostomy management, suctioning techniques and medication management. Students are provided opportunities for skills practice and return demonstration with mastery of skills in a simulated laboratory.  
Prerequisite: NUR101 and NUR254

>NUR161 - Nursing Skills Lab  
Credits - 1 Lab - 1  
This course applies the nursing process and advanced skills in intravenous therapy, central venous catheters, vascular access devices, blood transfusions, total parenteral nutrition, task delegation and assignment, and critical thinking application. Students are provided opportunities for skills practice and return demonstration with mastery of skills in a simulated laboratory.  
Prerequisite: NUR103

>NUR171 - Nursing Skills Lab  
Credits - 1 Lab - 1  
Application of advanced nursing skills in respiratory/mock code, application of critical thinking and ethical/legal responsibilities in job skills competencies, prioritization/analysis of RN level care of patients. Students are provided opportunities for skills practice and return demonstration with mastery of skills in a simulated laboratory.  
Prerequisite: NUR161 and NUR203

>NUR201 - Advanced Medical-Surgical Nursing  
Credits - 11 Lecture - 6 Other - 5  
The holistic study of acute and chronic disorders as related to adult and pediatric nursing practice. Advanced medical-surgical nursing concepts and skills are applied to the care of adults and children in ambulatory care settings. Clinical practice focuses on the integration of this course with prerequisite concurrently acquired knowledge from nursing and support courses. Critical thinking is reinforced along with assessment skills and medication administration in clinical settings. Nursing process, legal/ethical issues, current trends in health care, and case management concepts are continually applied to prepare for the role of the registered nurse.  
Prerequisite: NUR171, NUR202 and NUR203
Course Descriptions

>NUR202 - Maternal, Neonatal and Women's Health
Credits - 11 Lecture - 6 Other - 5
This course examines maternity and women's health care, all cultural, physiologic, and psychosocial needs during the reproductive and childbearing cycle. Case management, which may incorporate the nursing process and collaborative care, is stressed as well as promotion of wellness throughout a woman's lifespan. Content includes the normal process of childbearing, an introduction to high-risk conditions, and selected common gynecological conditions, and medical surgical concepts. 
Prerequisite: NUR203, NUR161

>NUR203 - Psychiatric and Community Nursing
Credits - 11 Lecture - 6 Lab - 5
The study of psychiatric and community concepts, principles, and psychopharmacology and psychobiology as related to the psychiatric and community nurses role in the care of children, adolescents, adults, families, and the aged. Content includes major mental and stress-related illnesses, personality disorders, crisis intervention, chemical dependency, losses, functional assessment, and community resources/placements and violence and victimology. These are presented in the framework of prevention, treatment modalities, and rehabilitation. Clinical practice focuses on integration of the therapeutic nurse-patient relationship in selected mental health, and community and medical surgical facilities. Application is made of legal aspects, critical thinking skills, current mental health issues, and nursing process to prepare for psychiatric and community nursing roles. 
Prerequisite: NUR103

>NUR254 - Health Assessment
Credits - 3 Lecture - 3
This course provides a basic foundation of knowledge and skills involved in the physical and psychosocial assessment of individuals. This course also provides application of skills and nursing knowledge utilized in obtaining a health history and physical assessment of individuals throughout the lifespan in varied clinical settings. Emphasis will be on application of knowledge and skills, which will include a health history and physical assessment utilizing inspection, palpation, percussion, and auscultation. 
Prerequisite: Admission in the nursing program
Corequisite: NUR101

>NUR296 - RN Review
Credits - 1 Lecture - 1
This class is designed as a self-study course. The focus is an overall review of the content learned in the nursing program with emphasis on test-taking skills to enhance the student's ability to successfully pass the NCLEX-RN. 
Prerequisite: NUR203, NUR254, NUR171, and PHC212

^PE131 - Introduction to Physical Education
Credits - 3 Lecture - 3
An introduction to the fields of Health, Physical Education, Recreation and Sports Management including professional opportunities and required academic qualifications. The course includes a "shadow" experience and information regarding American College of Sports Medicine and American Council on Exercise certifications.

^PE185 - Physical Education Activity
Credits - 1 Other - 1
Program of study and activity in a specific area of physical education to include introduction to rules, principles, guidelines, and techniques of the stated activity. Students will take part in the activity to better learn about it as well as to maintain physical fitness.

^PE198 - Special Studies
Credits - 1-3
Selected studies in health and physical education.

^PE280 - Cooperative Work Experience
Credits - 1-8
An introduction to working in the field of physical education. Students set work objectives with their supervisors and are then graded according to fulfilling those objectives, as well as work habits, attendance, leadership, performance, etc. Work areas include lifeguarding, swimming instruction, P.E. teaching assistance, coaching assistance, and recreational facilities management.

^PE290 - Lifeguard Training Review
Credits - 1 Lab - 1
The purpose of this course is to update student's American Red Cross certification in Lifeguard training (PE 291). Students who possess a current ARC Lifeguard Training certificate are eligible to enroll in this review course. Offered Winter Term Only.

^PE291 - Lifeguard Training
Credits - 3 Other - 3
This course is designed to provide lifeguard candidates and lifeguards with the skills and knowledge necessary to keep the patrons of aquatic facilities safe in and around the water. Successful completion will lead to the American Red Cross lifeguard training certificate.

^PE292 - Water Safety Instructor/WSI
Credits - 2 Lecture - 1 Other - 1
The student will learn how to teach swimming and water safety and further develop personal skills in these areas. Successful completion leads to the American Red Cross Water Safety Instructor (WSI) certificate.

Recommended preparation: Student must be at least 17 years old at the start of course and must pass the pre-course written and skills test.

^PE293 - Lifeguard Instructor Training/LGI
Credits - 2 Lecture - 1 Other - 1
The purpose of this course is to train candidates to teach the American Red Cross Lifeguard Training, Lifeguard Training Review, Community Water Safety, CPR for the professional rescuer and Lifeguarding Instructor Aid courses. Successful completion leads to the American Red Cross Lifeguard Instructor (LGI) certificate.

Recommended preparation: Student must be at least 17 years old at the start of course and must pass two pre-course written exams and four skill scenarios.

^PHC211 - Pharmacology
Credits - 2 Lecture - 2
This course is designed to provide the nursing student with background to understand actions of drugs in the human body. It provides the opportunity for the student to develop knowledge of nursing implications related to the administration of specific medication and follow-up care of patients. Included are current concepts of pharmacology and their relationship to patient care. The basic principles of pharmacology, drug actions, indications, contraindications, toxicity, side effects, pharmacodynamics and therapeutic dosage range of some groups of drugs are explored. Application of principles are included in the clinical setting.

Prerequisite: MTH095, NUR101 and NUR254

^PHC212 - Pharmacology
Credits - 2 Lecture - 2
This course is designed to provide the nursing student with background to understand actions of drugs in the human body. It provides the opportunity for the student to continue to develop knowledge of nursing implications related to the administration of specific medications medication and follow-up care of patients. Included are current concepts of pharmacology and their relationship to patient care. The drug actions, indications, contraindications, toxicity, side effects, pharmacodynamics and therapeutic range of drugs are explored. Application of principles are included in the clinical setting.

Prerequisite: MTH095, NUR102 and PHC211
Course Descriptions

*PHL101 - Introduction to Philosophy
Credits - 3 Lecture - 3
Introduces the student to major issues in philosophy, a historical overview and subgenres of the philosophical tradition. Completion of WR 121 recommended but not required.
Recommended preparation: WR121

*PHL102 - Introduction to Philosophy
Credits - 3 Lecture - 3
Emphasizes significant issues and explores responses to problems posed in the branch of philosophy called ethics. Completion of WR 121 recommended but not required.
Recommended preparation: WR121

*PHL103 - Introduction to Philosophy
Credits - 3 Lecture - 3
Emphasizes critical thinking in the examination of particular philosophical issues and problems. Completion of WR 121 recommended but not required.
Recommended preparation: WR121

*PHY101 - Essentials of Physics
Credits - 4 Lecture - 3 Lab - 1
This problem-solving course deals with vectors, force, motion, energy, and properties of materials. Students will be expected to submit laboratory reports, homework and will take quizzes and examinations. Course fulfills a laboratory science requirement.
Prerequisite: MTH060

*PHY198 - Special Studies
Credits - 1-3
This course provides an opportunity for a student to participate in either a seminar or laboratory project outside of the regular class situation. The number of credits is variable and will be arranged by the instructor.
Recommended preparation: instructor approval

*PHY201 - General Physics
Credits - 5 Lecture - 4 Lab - 1
An introductory laboratory course dealing with mechanics, sound, heat, light, electricity, and modern physics. This course makes extensive use of algebra.
Prerequisite or Corequisite: MTH111

*PHY202 - General Physics
Credits - 5 Lecture - 4 Lab - 1
A continuation of PHY 201.
Prerequisite: PHY201

*PHY203 - General Physics
Credits - 5 Lecture - 4 Lab - 1
A continuation of PHY 202.
Prerequisite: PHY202

**PHY211 - General Physics with Calculus
Credits - 5 Lecture - 4 Lab - 1
An examination of mechanics, sound, heat, light, electricity, and magnetism. This course is recommended for physics majors, engineering majors, and other science students with a calculus background. Course fulfills a laboratory science requirement.
Prerequisite: MTH251

**PHY212 - General Physics with Calculus
Credits - 5 Lecture - 4 Lab - 1
A continuation of PHY 211.
Prerequisite: PHY211
Corequisite: MTH252

**PHY213 - General Physics with Calculus
Credits - 5 Lecture - 4 Lab - 1
A continuation of PHY 212.
Prerequisite: PHY212
Corequisite: MTH253

*PS198 - Special Studies
Credits - 1-3
Designed to provide interested and capable students with the opportunity to study special topics in political science.
Recommended preparation: WR060

*PS201 - American Government and Politics
Credits - 3 Lecture - 3
This course begins by examining the Constitutional principles of the United States government. Students will learn about the decision making process behind American politics.
Recommended preparation: WR060

*PS202 - American Government and Politics
Credits - 3 Lecture - 3
This course will provide an overview of American political institutions. Students will study individual rights and liberties. The term concludes with an examination of current national policy issues.
Recommended preparation: WR060

*PS203 - American Government/State and Local
Credits - 3 Lecture - 3
Examines politics and government in the American states. Emphasis will be on the State of Oregon.
Recommended preparation: WR060

*PS206 - Politics of Western Europe and Russia
Credits - 3 Lecture - 3
This is a comparative politics course examining government and politics in post World War II Western Europe and Russia. Countries to be studied may include: Great Britain, France, Germany, Italy, Russia, the Scandinavian countries and others.
Recommended preparation: WR060

*PS222 - Public Policy
Credits - 3 Lecture - 3
The purpose of this course is to impart an understanding of the political system and processes government agency employees find dictating many of their actions.
Recommended preparation: WR060

*PSY101 - Psychology and Human Relations
Credits - 3 Lecture - 3
A practical exploration of the psychological concepts and processes which allow people to adjust to their environment. Specific topics include: stress and coping skills, employment relations, communication, human development and methods of psychological understanding. Emphasis is on practical application.
Recommended preparation: WR060

*PSY119 - Process In Living
Credits - 3 Lecture - 3
This course surveys the areas of personality development and psychology. Specific topics include: ages and stages of the lifespan, theories of personality, self-awareness, health and stress, and influences on development.
Recommended preparation: WR060

*PSY198 - Special Studies
Credits - 1-3
Offers topics of study in psychology with individual research or field study.
Recommended preparation: WR060

*PSY201 - General Psychology
Credits - 3 Lecture - 3
A survey of the basic concepts and principles of psychology. Specific topics include: the nature and research methods of psychology; the biological basis of behavior, sensory, and perceptual processes; states of consciousness; and sleep and dreams. Emphasis is both theoretical and applied.
Recommended preparation: WR060

*PSY202 - General Psychology
Credits - 3 Lecture - 3
Surveys the areas of cognition and emotion. Specific topics include: learning, memory, intelligence, thought, language, motivation and emotion. Emphasis is on both theory and application.
Prerequisite: PSY201
Recommended preparation: WR060
**Course Descriptions**

*PSY203 - General Psychology
Credits - 3 Lecture - 3
Surveys the areas of human development, personality, plus clinical and social psychology. Specific topics include: ages and stage of the lifespan, theories of personality, health and stress, abnormal behavior, psychotherapy and social influence.
Prerequisite: PSY201
Recommended preparation: WR060

*PSY225 - Group Process
Credits - 3 Lecture - 3
This course provides a theoretical and practical introduction to group dynamics including: roles, leadership styles in their functioning, and conflict resolution. There is an emphasis on therapeutic group process.
Prerequisite: HS265
Recommended preparation: WR060

*PSY231 - Human Sexuality
Credits - 3 Lecture - 3
A survey course involving the study and discussion of the biological, social and psychological aspects of human sexual functioning with emphasis on sexual arousal and response patterns, sexual attitudes and behavior and sexual myths and fallacies.
Prerequisite: PSY201
Recommended preparation: WR060

*PSY237 - Human Development
Credits - 3 Lecture - 3
A life-span examination of change and consistency as people age. Studies the stages of infancy, childhood, adolescence and adulthood as influenced by maturational and socialization. Includes discussion of research strategies and theories of behavior.
Prerequisite: PSY201
Recommended preparation: WR060

*RD120 - Critical Reading and Thinking
Credits - 3 Lecture - 3
This course will sharpen students' abilities to think and read clearly, logically, critically, and effectively. Students will develop analytical skills necessary for problem solving and making the best choices in their academic, career, and personal lives. Students regularly interact in group discussions about the thinking and reading process.

>RNG241 - Range Management
Credits - 3 Lecture - 2 Lab - 1
Plants and domesticated farm animals: the integration of climate, soil, vegetation, and animal factors in the economic management of a range ecosystem.

*SOC198 - Special Studies
Credits - 1-3
This course is designed to provide interested and capable students special topics in sociology.
Recommended preparation: WR060

*SOC204 - General Sociology
Credits - 3 Lecture - 3
This course is a sociological study of social group behavior and social structures, emphasizing diversity and commonalities among groups within society. Topics are examined through the framework of sociological perspectives, encouraging critical thinking and personal responsibility about social issues. Sociology 204 is the foundational course for all other Sociology offerings.
Recommended preparation: WR060

*SOC205 - General Sociology
Credits - 3 Lecture - 3
This course is intended to provide introduction to the dynamics of social stratification, social inequalities, collective behavior and social movements. We will examine stratification theories, global stratification, inequalities of class, gender, age, role, and oppression, and collective behavior.
Recommended preparation: WR060
Prerequisite: SOC204 or instructor's approval

*SOC206 - General Sociology/Problems and Issues
Credits - 3 Lecture - 3
This course is intended to provide an introduction to the following major social institution: family, religion, education, economics, politics, science and the media and the problems and issues existing within each. The focus is on modern American society and the impact of social change on major institutions, but other societies will be explored and used for comparison.
Recommended preparation: WR060 or instructor's approval

*SOC213 - Minorities
Credits - 3 Lecture - 3
A survey of minority groups, with special emphasis on local groups in which causes and consequences of minority status are examined. By confronting the pervasive nature of prejudice and discrimination, we will explore the dynamics of institutionalized racism, focusing specifically on race relations within our social institutions. The political, economic, and social lives of several groups - White Ethnic Americans, Native Americans, Asian Americans, Latinos and African Americans.
Recommended preparation: SOC204 and WR060

*SOC217 - Family and Society
Credits - 3 Lecture - 3
The historical development of the family as an institution, its structure and functions, and changes in contemporary American society. Emphasis is placed on changes that produce societal and individual stress.
Recommended preparation: SOC204 and WR060

*SOC221 - Juvenile Delinquency
Credits - 3 Lecture - 3
Study of deviant behavior and current criminological theories with emphasis on crime prevention and the phenomena of crime as it relates to juveniles and criminal justice application.
Recommended preparation: SOC204 and WR060

*SOC243 - Narcotics and Dangerous Drugs
Credits - 3 Lecture - 3
Drug problems that relate to our society. History of drugs, causes of addiction and identification of illegal drugs.
Recommended preparation: SOC204 and WR060

*SOC244 - Introduction to Criminology
Credits - 3 Lecture - 3
The study of crimes from a sociological perspective and crime control strategies suggested by these causes.
Recommended preparation: SOC204 and WR060

*SP100 - Human Communications
Credits - 3 Lecture - 3
An introductory course that focuses on the process and functions of communication in interpersonal, small group, interview, mass, and intercultural contexts. Emphasis is placed on helping the student increase his/her competence as a communicator in each of these contexts.
Recommended preparation: WR060

*SP111 - Fundamentals of Speech
Credits - 3 Lecture - 3
Fundamentals of preparation and presentation of oral discourse. Emphasis is on informative speaking, and also an in-depth introduction to classical rhetorical concepts of persuasive speaking.
Recommended preparation: WR060

*SP112 - Fundamentals of Speech
Credits - 3 Lecture - 3
Review and continuation of SP 111. Emphasis is on development of skills in group discussions and group problem-solving techniques. Introduction to argumentation.

*SP113 - Fundamentals of Speech
Credits - 3 Lecture - 3
Polishing of skills and techniques. Projects in persuasion, argumentation and debate. Offered depending on demand.
*SP115 - Intercultural Communication  
Credits - 3 Lecture - 3  
An introductory course that focuses on the impact of culture on the communication process. Emphasis is placed on both understanding cultural diversity and enhancing communication effectiveness in various intercultural contexts.  
Recommended preparation: WR060

^SP229 - Oral Interpretation  
Credits - 3 Lecture - 3  
The application of principles of oral reading to literature.  
Recommended preparation: WR060

^SP237 - Gender and Communication  
Credits - 3 Lecture - 3  
This course focuses on the similarities and differences in male and female communication styles and patterns. Particular attention is given to the implications of gender as social construct upon perception, values, stereotypes, language use, nonverbal communication and power and conflict in human relationships. Discusses influences of mass communication upon shaping and constructing male and female sex roles.  
Recommended preparation: WR060

^SPAN101 - First Year Spanish  
Credits - 4 Lecture - 4  
Introduction to Spanish, stressing speaking and reading. Exercises in elementary composition and grammar.  

^SPAN102 - First Year Spanish  
Credits - 4 Lecture - 4  
A continuation of SPAN 101.  
Prerequisite: SPAN101 or instructor approval

^SPAN103 - First Year Spanish  
Credits - 4 Lecture - 4  
A continuation of SPAN 102.  
Prerequisite: SPAN102 or instructor approval

^SPAN201 - Second-Year Spanish  
Credits - 4 Lecture - 4  
Intensive oral and written exercises designed to help the student acquire an accurate and fluent use of Spanish. Selections from representative authors are studied.  
Prerequisite: SPAN103 or instructor approval

^SPAN202 - Second-Year Spanish  
Credits - 4 Lecture - 4  
A continuation of SPAN 201. Emphasis on advanced use of past tense and on hypothetical and persuasive language. We will also include literary selections.  
Prerequisite: SPAN201 or instructor approval

^SPAN203 - Second-Year Spanish  
Credits - 4 Lecture - 4  
Prerequisite: SPAN202 or instructor approval

^SPAN211 - Spanish Conversation and Composition  
Credits - 3 Lecture - 3  
Intensive conversation and essay writing of a general character designed to improve oral and written ability in Spanish.  
Prerequisite: Instructor approval

^SPAN212 - Spanish Conversation and Composition  
Credits - 3 Lecture - 3  
A continuation of SPAN 211.  
Prerequisite: Instructor approval

^SPAN213 - Spanish Conversation and Composition  
Credits - 3 Lecture - 3  
A continuation of SPAN 212.  
Prerequisite: Instructor approval

>SUR161 - Plane Surveying  
Credits - 5 Lecture - 3 Lab - 2  
Principles and practices of leveling, linear and angular measurements, Gaussian Error Theory applied to measurements, care and adjustment of instruments, note-keeping and manual and machine methods of computation, including use of calculators and electronic computers.  
Prerequisite: Instructor approval

>SUR162 - Surveying and Mapping  
Credits - 5 Lecture - 3 Lab - 2  
Field and office procedures in property surveying and preparation of plats and other maps; State Plane Coordinates, Solar observations, and GPS, legal elements of written and unwritten conveyances.  
Prerequisite: SUR161

>SUR166 - Highway Fundamentals  
Credits - 3 Lecture - 3  
A study of highway surveys, design standards, circular and vertical curves, curve transitions, earthworks and drainage.  
Prerequisite: SUR162

>SUR167 - Surveying Seminar  
Credits - 3 Lab - 6  
A continuation of SUR 166 involving applied surveying techniques in a project oriented environment. Credit hours provide student access to State licensing process.  
Prerequisite: SUR166

^TA101 - Introduction to the Theatre  
Credits - 3 Lecture - 3  
This course provides an introduction to the world of the theatre by exploring the origins of drama, historical and contemporary styles of playwriting and theatrical performance, the components of a stage production, and the many functions of the artists and craftspeople who collaborate to make theatre happen.  
Recommended preparation: LA035

^TA141 - Fundamentals of Acting Techniques  
Credits - 3 Lecture - 2 Lab - 1  
This course provides a basic introduction to contemporary acting theories and techniques. Through participation in acting exercises, improvisations, and prepared monologues and scenes, the student will learn fundamental acting terminology and be introduced to a variety of contemporary acting training philosophies.  
Recommended preparation: LA035

^TA142 - Fundamentals of Acting Techniques  
Credits - 3 Lecture - 2 Lab - 1  
This course is a continuation of TA 141, however it may be taken without previous acting experience or coursework. It provides a continued exploration of contemporary acting theories and techniques via classroom activities and prepared presentations.  
Recommended preparation: LA035

^TA143 - Fundamentals of Acting Techniques  
Credits - 3 Lecture - 2 Lab - 1  
This course is a continuation of TA 142, however it may be taken without previous acting experience or coursework. It provides a continued exploration of contemporary acting theories and techniques via classroom activities and prepared presentations. Activities will include opportunities for public performance.  
Recommended preparation: LA035

^TA147 - Voice and Diction for the Theatre  
Credits - 3 Lecture - 3  
This studio course introduces all aspects of vocal production for the stage, including breathing, support, articulation and projection. (Not offered every year.)  
Recommended preparation: LA035

^TA165 - Technical Theatre Workshop  
Credits - 3 Lab - 3  
This course provides the opportunity to explore the various technical components of a theatrical production through hands-on participation in the off-stage activities necessary for the staging of a play. May be repeated for a maximum of 9 credits.
Course Descriptions

^TA180 - Theatre Rehearsal and Performance
Credits - 3 Lab - 3
This course provides credit for rehearsal and performance of a play. May be repeated for a maximum of 8 credits.

^TA241 - Intermediate Acting Techniques
Credits - 3 Lecture - 2 Lab - 1
This course is a continuation of TA 141-143, however it may be taken without previous acting experience or coursework. It provides an exploration of advanced contemporary acting theories and techniques via classroom activities and prepared presentations.

^TA242 - Intermediate Acting Techniques
Credits - 3 Lecture - 2 Lab - 1
This course is a continuation of TA 241, however it may be taken without previous acting experience or coursework. It provides an exploration of advanced contemporary acting theories and techniques via classroom activities and prepared presentations.

^TA243 - Intermediate Acting Techniques
Credits - 3 Lecture - 2 Lab - 1
This course is a continuation of TA 242, however it may be taken without previous acting experience or coursework. It provides an exploration of advanced contemporary acting theories and techniques via classroom activities and prepared presentations. Activities will include opportunities to perform and direct stage productions to be presented to the public.

WR060 - Elements of the Essay
Credits - 3 Lecture - 3
Introduces students to the academic essay. The course moves from developing clear, coherent paragraphs to composing and revising the academic essay. Students are encouraged to develop confidence in their writing, strengthen composing and editing skills, collaborate in the writing process, and practice critical thinking.
Prerequisite: LA035 or placement test

WR065 - Introduction to Technical Writing
Credits - 3 Lecture - 3
Introduces students to the basic elements of expository technical writing. Students will move from short, paragraph length technical works to multi-paragraph documents. Additional attention is directed toward integrating graphics into the writing, presenting the material orally and creating job search documents.
Prerequisite: LA035 or placement test

^WR115 - Introduction to College Writing
Credits - 3 Lecture - 3
This course introduces college-level critical inquiry in academic reading and writing. Students will work on developing their ability to read critically and write college-level essays in a variety of different writing contexts and situations. Emphasis is on learning to use the conventions of written language appropriately and skillfully for different purposes and to experience and use writing as a recursive, social, and collaborative process. (Transfer elective from 1998 forward.)
Prerequisite: WR060 or placement test

^WR121 - English Composition
Credits - 3 Lecture - 3
The first of a three-course sequence required by the AAOT degree, this course focuses on writing clear, detailed, informative essays in a variety of forms, active reading, and critical thinking. Completion of WR 115 recommended but not required.
Prerequisite: WR115 or placement test

^WR122 - English Composition
Credits - 3 Lecture - 3
The second of a three-course sequence, this course focuses on the development of student skills in evaluating and composing essays of various lengths, with emphasis on style of expression, logical thought and evidence, and argumentative approaches and strategies.
Prerequisite: WR121

^WR123 - English Composition
Credits - 3 Lecture - 3
A study of current research practices. The student is asked to learn research techniques and to write one or two long papers or several short ones using these skills.
Prerequisite: WR122

^WR198 - Special Studies
Credits - 1-3
Designed to provide interested and capable students with the opportunity to study special topics in writing.

^WR227 - Technical Report Writing
Credits - 3 Lecture - 3
Researching and reporting technical information including business proposals, business plans, feasibility studies, and process instructions. Concentration is on using information resources, evaluating and organizing materials, and developing written and oral presentations.

^WR241 - Introduction to Imaginative Writing
Credits - 3 Lecture - 3
A course in creative writing designed for those who wish to express themselves in fiction, nonfiction, drama, poetry, or other imaginative forms.

^WR242 - Introduction to Imaginative Writing
Credits - 3 Lecture - 3
A course in creative writing designed for those who wish to express themselves in fiction, nonfiction, drama, poetry, or other imaginative forms.

^WR298 - Special Studies
Credits - 1-3
Designed to provide interested and capable students with the opportunity to study special topics in writing.

Part-Time Faculty

Patty Allery-Lane (2003)
Instructor of Mathematics
B.S., Eastern Oregon University
M.S., Eastern Oregon University

Instructor of Speech and Philosophy
A.A., Modesto Jr. College
B.A., California State University
M.A., California State University

Austin Archer (1998)
Instructor of Psychology
B.S., Andrews University
M.A., Andrews University
Ph.D., Indiana University

Kathy Armenta (2006)
Instructor of Computer Science
G.E.D., Walla Walla Community College

David Arnold (1998)
Instructor of Psychology
B.S., Seattle Pacific
M.S., Oregon State University
M.A., George Fox University
Ph.D., Gonzaga University

Instructor of Early Childhood Education
A.S., North Idaho College
B.S., University of Idaho
M.S., Western Oregon University

Mary D. Beisiegel (2000)
Instructor of Mathematics
B.S., Oregon State University
M.S., Virginia Polytech University

Thomas W. Bequette (2005)
Head Softball Coach
Instructor of Physical Education
Diploma, John Burroughs

Paul Brasil (2004)
Instructor of History
B.A., Cal State University-Stanislaus
M.A., University of California

Brett Bryan (1993)
Instructor of Physical Education
B.S., Eastern Oregon University

Larry Bundy (2001)
VP, Information Technology
Instructor of Economics
B.A., Central Washington University
B.S., Central Washington University
M.B.A., University of Utah
Ph.D., University of Utah

Tygh Campbell (2001)
Head Rodeo Coach
Instructor of Horse Trimming
A.A.O.T., Blue Mountain Community College

Kari Carter (2002)
Instructor of Math
B.S., Oregon State
M.S.T., Portland State

Timothy D. Colley (2004)
Instructor of English
B.A., Gonzaga University
M.A., Gonzaga University

Instructor of Psychology
A.A., Central Oregon Community College
B.S., Western Oregon University
Psy. D., Pacific University

Cheyleen Davis (2001)
Instructor of Biology
B.S., Central Michigan University
M.S., Central Michigan University

Mary Davis (1977)
Instructor of Nutrition
B.S., Montana State University
M.S., Cornell University

Ann Denis (2006)
Instructor of College Prep/Skills Development
B.S., Eastern Oregon University

Dorothy E Dielman (2004)
Instructor of English
B.A., Purdue University
M.A., Purdue University
Ph.D., University of Oregon

Karen Eddy (1993)
Instructor of Physical Education
B.S., Eastern Oregon University

Instructor of Writing and English
B.A., Augustana College
M.S., Eastern Oregon University

Amber Evans (2004)
Instructor of Physical Education
A.A., Blue Mountain Community College
B.A., Cascade College

Carol B. Frink (2003)
Instructor of Customized Training
Degree Not listed

Ruai Gregory (2000)
Instructor of Early Childhood Education
A.S., Grossmont College
B.A., Pacific Oaks
M.A., Pacific Oaks

Jodie Harnden (1997)
Instructor of Geology and Geography
B.S., Western Oregon University
M.S., Western Oregon University

Donald R. Hefner (2005)
Instructor of Business Technology
B.S., Black Hills State
College Preparatory Programs

Full-Time Faculty

Leslie A. Aflatooni (1992)
Instructor
Certificate, University of Arizona
B.S., North Illinois University

Brian K. Bradley (2001)
Instructor
B.A., University of Montana

Coordinator, Dual Credit
B.S., Eastern Oregon University
M.Ed., Eastern Oregon University

Coordinator, Early Childhood Education
A.S., North Idaho College
B.S., University of Idaho
M.S., Western Oregon University

Theresa Bosworth (1989)
Registrar/Director of Admissions and Advising
A.A., Blue Mountain Community College
B.S., Eastern Oregon University

Brett Bryan (1993)
Director, Athletics

Harvey Franklin (2005)
Director, Title III Project
A.S., Central OR Community College
B.S., Oregon State University
M.S., Oregon State University
Ph.D., University of Oregon

Director, Student Financial Assistance
B.A., Washington State University

Diana Hammon (1989)
Director, Instructional Operations and Distance Education
A.A., Blue Mountain Community College
B.S., Eastern Oregon University

Karen Hill (1996)
Director, Public Relations and Marketing
B.S., Eastern Oregon University

Jennifer Hills (1994)
Coordinator, Apprenticeship Program
B.S., University of Idaho
M.Ed., Eastern Washington University

Jane Kilburg (1981)
Manager, JOBS Program
B.S., Oregon State University

Topher McClellan (2006)
Senior Operations Accountant
B.B.A., Sam Houston State University
B.S. City University

Anne Morter (1993)
Coordinator, South Morrow County
A.A., Lane Community College
B.A., Eastern Oregon University

Wade Muller (2007)
Assistant Director, Admissions and Advising
B.S., Montana State University

Jenny Nelson (2007)
Coordinator, Grant County
B.S., Oregon State University

Susan Plass (2002)
Director, Grants
A.A., College of the Siskiyou
B.A., California State University-Chico
M.A., University of Oregon
Certificate, University of Oregon

Steven Platt (1985)
Supervisor, Buildings and Grounds
A.S., Blue Mountain Community College

Michelle Rosales (2006)
Interim Directory College Preparation
B.S., Eastern Oregon University

Becky L. Satter (1992)
Site Coordinator, JOBS Program
B.S., Northern State University

Manager, BMCC Bookstore
B.A., University of Washington

Coordinator, Criminal Justice
B.S., Marylhurst College
M.A., Lewis & Clark College

Shannon Van Kirk (2006)
Director, Library and Media Services
B.A., Immaculate Heart College
MLIS University of Alabama

Larry Wilson (2005)
Director, Betty Feves Art Gallery

Coordinator, Emergency Medical Services
A.A., Blue Mountain Community College
Glossary
Terms Needed for College Success

A.A.O.T.: Associate of arts Oregon transfer degree. A non-designated block transfer degree, usually consisting of 90 credits and designed for the student who intends to transfer to a four-year college or university with the Oregon University System (OUS). Students need to work closely with an academic advisor to plan their program of study at BMCC.

A.A.S.: Associate of applied science degree. A non-transfer degree awarded to students who complete the requirements of a two-year program, usually a 93-credit designated program as outlined in the college catalog.

A.S.: Associate of science degree. A non-designated college-transfer degree designed for students whose program requirements do not fit A.A.O.T. degree patterns. This degree does not always “block transfer” to Oregon universities.

A.G.S.: Associate of general studies degree. A terminal, two-year, 90-credit program of study that yields a non-designated and non-transferring degree, although some, or possibly all, of the courses may be accepted by another institution of higher education.

(In every case above, students should verify course transferability for each program of study before transferring to another college or university. Even in Oregon, particular schools may have some differences in lower division credits required for their programs.)

Academic Advisor: An assigned BMCC faculty or staff member trained to assist the student in developing and managing the completion of the student’s program of study based on the documented assessments and declared educational goals within the student’s individual strategic action plan.

Academic Calendar: Start and end dates of the academic year and of each quarter. The calendar reflects deadlines and other information related to payment schedules, add/drop options, graduation applications, and related policies.

Academic Records: The official listing of courses attempted and completed by a student at BMCC, including the credits accepted as a result of the BMCC registrar’s evaluation of official transcripts from other institutions. This information is listed in the student management module of the integrated administrative system, WolfTrax, and is accessible to the student through WolfWeb.

Academic Year: The four-quarter sequence beginning in summer and ending the following spring.

Academic Notification of Warning, Probation, and Suspension: An official process by which degree-seeking students who do not achieve satisfactory academic progress receive a specific level of notice whenever their term grade point average (GPA) falls below 2.00 or their cumulative GPA falls below 2.00. See page18 for detailed information.

Advanced Placement (AP): The national exam for high school students that allows the granting of credit based on points earned and recorded on the official AP transcripts. Earned points of 4 and 5 are considered evidence that the student has mastered the equivalent of an introductory course in English or history at BMCC.

Articulation: The linkage of curriculum between two (or more) institutions through an agreement that the content and difficulty level of similar courses offered by each institution are equivalent and that students taking the articulated course at one institution will not need to repeat it when they transfer to the other institution.

Associate’s Degree: A degree granted to students who complete a specific program of study usually totaling 90 quarter credits or more. BMCC offers two transferable associate’s degrees, the associate of arts Oregon transfer (A.A.O.T.) and the associate of science (A.S.). BMCC also offers an associate of general studies (A.G.S.) degree and an associate of applied science (A.A.S.) degree, as well as module and certificate programs in a variety of subjects. Individual courses taken to fulfill the requirements of any of these degrees or programs may be transferable to another college or university.

Audit: Taking a credit class without being required to participate fully in the class activities (taking tests or doing homework). Classes taken under audit status do not count as credits attempted in financial aid calculations and the AU status does not count in calculating GPAs.

BMCC Campus: BMCC’s main campus is located in Pendleton.
BMCC Center: Within the Blue Mountain Community College system, four outreach centers serve the college’s district, which includes Baker, Morrow, and Umatilla counties. Centers are located in Baker City (Baker County), Boardman (north Morrow County), Hermiston, and Milton-Freewater. A smaller office in Heppner serves south Morrow County.

Certificate Program: A specified program of study leading to an official award and notation on the transcript. BMCC awards certificates to students who complete certain professional/technical or postsecondary programs requiring less than two years of college study and who earn a GPA of no less than a 2.00, or C average.

Class Roster: The official list of students’ names enrolled in a particular class.

Cohort: A group, regardless of size, of individuals that can be identified by at least one identifiable characteristic.

College Preparatory Programs: A BMCC department administering classes and activities related to English as a Second Language (ESL), Adult Basic Education (ABE), General Educational Development (GED), Adult High School Diploma (AHS), Credit Retrieval, post-secondary remediation up to the 60 level, and tutoring.

Competency: A specific skill in a specific area of study.

Contracts Out Of District (CODs): Within the Blue Mountain Community College system, there are three counties (Grant and Wallowa) that lie outside the BMCC district but that contract with the college for educational services. BMCC has COD offices in John Day and Enterprise.

Corequisite: A course or activity that is required to be taken simultaneously with the course described.

Core Curriculum: Courses required for a specific major. Courses in the core curriculum usually must be taken for a grade (pass/no pass is not allowed) to count toward degree requirements.

Course/Class: An organized unit of instruction within an academic discipline or subject of study, or one of the instructional subdivisions of a discipline or subject area.

Course Description: The paragraph in the course catalog that describes a course’s emphasis and content; the description also may specify prerequisites, corequisites, recommended preparation, and credit hours.

Credit: A measurement of course work and time spent in an academic endeavor. One credit generally equates to fifty minutes (a clock hour) of instruction and two hours of preparatory work outside the instructional classroom each week, or the equivalent thereof. Credits and clock hours may vary depending upon the type of course.

Credit Load: The total number of credits taken in a given term.

CUESTE: (pronounced “quest”) Curriculum of Undergraduate Elementary and Secondary Teacher Education. CUESTE is a highly prescriptive teacher-education program at Eastern Oregon University (EOU) provided to students within their local community college districts in collaboration with the community college.

Curriculum: An organized program of study.

CWE: Cooperative work experience, a program of study in a work environment for which students, instructors, and participating businesses develop written training and evaluation plans to guide student development within specific programs. Students receive course credit for their work experience, whether or not they are paid a wage.

Designated Degree: A set of courses required for a specific degree in a professional/technical area. The A.A.S. degree is the only designated degree offered at BMCC.

Distance Education: The delivery of instruction to students located throughout the district, state, nation, and the world using a variety of technologies and telecommunications networks. Delivery systems include interactive television (ITV), video recorded instruction, online instruction, independent study, and hybrid courses.

Drop: The process of removing one’s name from the class roster by the deadline listed on the academic calendar. This procedure results in a full refund. There is no record of the student’s having ever registered for the class, and no grade is reflected on the transcript.

Electives: Courses that students may choose to take, as contrasted with courses that are required for an academic program.
Terms that denote students or a program for terms from a student standpoint. From an institutional standpoint, registration is the process of enrollment and enrollment is a status.

Enrollment Management (EM): The college’s administrative unit consisting of the following functions: admissions, records and testing; advising; financial aid and veterans’ benefits; student employment; services for students with disabilities; recruitment and marketing; and TRiO Student Support Services. In addition, the Associated Student Government reports to the senior director for enrollment management. The EM offices provide services to students in such areas as: official grades and transcripts; degree, credit, and transfer-transcript audits; international student services; academic achievement recognition; issuance of diplomas; satisfactory academic progress; student safety; student dispute resolution; student orientation; student success strategies; and emergency loans and other forms of financial assistance.

Ethnic/Racial Group: An ethnic or racial category with which a person most closely identifies. Federal and state regulations require BMCC to report aggregated ethnic/racial information and other demographic statistics for its employees and students. The categories listed on federal reports are: American Indian/Alaskan Native, Asian/Pacific Islander, Black, Hispanic, and White. BMCC ethnic/racial reports also include “unknown” and “not reported” categories for students who may be of mixed race or heritage and do not identify with or select any of the categories as listed, who choose not to respond to the query, or who check “unknown” or “not reported” on the data collection form. These ethnic categories do not include international students, who are reported separately.

Faculty: The group of employees whose primary assignment is instructional support of the academic mission.

FAFSA: The federal form entitled “Free Application for Federal Student Aid.” A completed FAFSA is required for students to be considered for federal financial aid. It is available in hardcopy from BMCC or at a local high school. It is also available online.

Financial Aid Package: A combination of financial student-support mechanisms (such as a scholarships, grants, loans, and work-study) determined by the BMCC Office of Financial Aid and Veterans’ Benefits.

First-Generation College Student: Defined at BMCC as a student whose parents have not earned an associate’s degree or higher.

First-Time Freshman: A student with fewer than 45 credits who has enrolled for the first time in college.

Full-time Student: A student enrolled in 12 or more credits in any one term as of the FTE (full-time equivalent) reporting date established by the Oregon Community College Unified Reporting System (OCCURS). The Financial Aid and Veterans definitions may vary.

General Education (Gen. Ed.) Requirements: Courses in the conventional divisions of arts and humanities, social sciences, and math and science that provide students with a broad educational experience. General education courses are typically introductory in nature and provide students with fundamental skills and knowledge. Students seeking an A.A.O.T. or an A.A.S. degree from BMCC and/or planning to transfer to a four-year academic institution often take these required courses while attending a community college in preparation for successful transition as a junior in pursuit of their baccalaureate degree.

Grade: A mark indicating a degree of academic accomplishment.

Grade Point Average (GPA): A computation of work done at BMCC and at other academic institutions. Grade points are computed on the basis of: 4 points for each credit of A, 3 points for each credit of B, 2 points for each credit of C, 1 point for each credit of D, and 0 points for each credit of F. All assigned courses, regardless of curriculum, are included in the BMCC cumulative grade point average. To compute your GPA, take the number of points for your grade, multiply them by the number of credits for that class (for example, if you received an A for a four-credit class, you would have a total of 16 points), and divide the total points by total credits. All marks except A, B, C, D, and F are disregarded in the computation of grade point averages; however, some of these disregarded marks will affect financial aid and athletic eligibility. Honors GPA and graduation are calculated differently (see below).
Grant: An award of student financial support that does not require repayment and is based on financial need.

Honors: An official recognition of students with exceptional academic qualifications; such students may graduate with honors or high honors. For honors designation, students must have a cumulative GPA of 3.40 to 3.84 in all courses that meet degree requirements. The high honors designation requires a cumulative GPA of 3.85 or higher in all courses that meet degree requirements. The cumulative GPA calculation will include all courses taken at BMCC and other institutions as long as they apply to the degree requirements.

Hybrid Course: A class that uses multiple presentation options, such as a combination of interactive television (ITV) and videotapes.

Individual Strategic Action Plan (ISAP): The collection of assessment information and data for an individual degree-seeking student that drives the decisions involved in declaring a program of study and defining educational goals. The ISAP is used in conjunction with the expertise and advice of the student’s assigned academic advisor.

In-State Resident: As defined for tuition purposes, a U.S. citizen or national whose primary residence is in Oregon, Washington, Idaho, Wyoming, Nevada, Montana, or California.

Interlibrary Loan Service (ILL): A service provided by the Library and Media Services Center through which BMCC’s centers and students, as well as the general public, may obtain materials on temporary loan from other libraries nationwide.

International Student: As defined for tuition purposes, a person who is not a citizen or a national of the United States and who is in this country temporarily and specifically to obtain a postsecondary educational degree. BMCC assesses an international student the same rate of tuition as a student who is classified as a nonresident alien; an international student pays the same amount for fees and books as any other student.

Junior: Usually defined by four-year institutions as a student with 90 quarter credits of 100-level or higher course work.

Kiosk: A computer work station made available by BMCC to students for accessing the WolfWeb and all online resources.

Major: An extensive program of study in a designated subject area offered at four-year institutions; students seeking a bachelor’s degree must declare a major and complete all of its requirements. There are no majors offered at BMCC.

Matriculation: Advancing through the educational process toward a goal, particularly related to enrolling in a college or university (for example, upon completing the A.A.O.T. degree at BMCC, a student may to matriculate to Eastern Oregon University).

Minor: A field of specialized study secondary to a major that may be offered by an academic unit at a four-year institution. There are no minors offered at BMCC.

Non-Credit Enrollment: Course offerings in which no credit is awarded for completion; non-credit courses often serve to upgrade skills, maintain licensure, or gain personal enrichment.

Non-Designated Degree: A set of courses fulfilling general education requirements for a transfer degree leading to a baccalaureate degree or for the associate of general science degree, which offers a broad education as opposed to a focused or career study program.

Nonresident Alien: A term used for tuition purposes to define a person who is not a citizen or a national of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. The tuition rate for a nonresident alien is different from the resident tuition rate, but a resident alien student pays the same amount for fees and books.

Non-Traditional Student: A student in credit classes or developmental education classes not fitting the traditional student definition.

Online Supplemental Instruction: Additional teaching and learning opportunities in English and Spanish that are offered through the Internet in support of the basic instructional activities of a particular course.

Oregon Transfer Module: A one-year program of study through which a student can complete most, but not all, general education requirements before transferring to a public four-year institution in Oregon.

Orientation: An activity for students that is intended to acquaint them with campus resources and thereby better prepare them for successful learning and navigation within the educational system.
Out-of-State Resident: A term used to assess tuition for a student who is a U.S. citizen or national whose primary residence lies outside Oregon, Idaho, Washington, Nevada, Montana, or California.

Outcome: A term used at BMCC and other institutions that defines institutional expectations and academic standards. Student-learning outcomes are specific statements defining the expected understanding, knowledge, and/or skill-set that a successful student will have obtained upon completing a course. All course syllabi at BMCC list expected student-learning outcomes.

Part-Time Student: For most purposes at BMCC, and consistent with national definitions, a degree-seeking student who is enrolled in fewer than 12 credit hours in a term as of the FTE (full-time equivalent) reporting date established by the Oregon Community College Unified Reporting System (OCCURS). The financial aid and veterans definition may vary.

Peer Tutor: A trained student who works with fellow students to provide, at no additional cost to the recipients, additional instruction in course work that he or she has completed with a grade of B or better.

Placement Test: An assessment of academic preparedness that helps place a student into a specific course addressing the particular skill level identified by the test. BMCC uses placement tests in math, reading, and writing to help ensure a student’s success in college.

Preregistration: Allows students to register before the beginning of classes each term. Students should be in good academic standing and have no outstanding financial balance due from a previous term; otherwise they may be prevented from enrolling in classes or be removed from classes until such obligations are met.

Prerequisite: A course or instructional program that students are expected to complete successfully as a necessary requirement before they are permitted to enroll in another course or instructional program that is more advanced.

Quarter: Synonymous with the academic period often called a term at BMCC. There are four quarters in an academic year, beginning with the summer quarter and ending with the following spring quarter.

Registration: The placement of a student within a credit or non credit course. Enrollment and registration are interchangeable from a student standpoint. From an institutional standpoint, registration is the process of enrollment and enrollment is a status.

Resident: For tuition purposes, a student whose primary residence is in Oregon; residents are charged in-state tuition. At BMCC, students who reside in Idaho, Washington, Nevada, Montana, and California are also considered residents.

Resident Alien: A person who is not a citizen or national of the United States and who has been lawfully admitted for permanent residence (and who holds alien registration receipt cards Form I-551/155). A resident alien is assessed tuition at the same rate as a citizen or national of the United States.

Scholarships: Financial support mechanisms awarded to students based on merit or merit plus need. Scholarships do not have to be repaid.

Sequence Courses: Two or more closely related courses in a discipline or subject area, taken in a specified order using chronological numbering.

Sophomore: A student who has completed 45 or more credit hours.

Staff: The category of employees whose primary assignment is administrative support of the academic mission.

Student Identification Number (SID): A unique, official identification number randomly issued by the college for each BMCC student that is used to record, access, and store academic records.

Subject Code: An alphabetical abbreviation used with a course number to indicate an academic subject area, such as MTH for math courses.

Supplemental Instruction: Face-to-face or online teaching and learning opportunities offered by instructors in addition to and in support of the classroom experience.

Syllabus: An outline of a particular course offering that communicates the course’s content, learning objectives, and expected performance criteria for student grades.

Term: An academic quarter.
Traditional Student: A student who is between the ages of 18 and 22 years old taking credit-bearing courses and who has received a high school diploma.

Transcripts: The official record of courses and grades attempted or completed by a student. Official transcripts must be ordered by the student from an academic institution’s enrollment management office. Transfer transcripts are records from another school that BMCC uses for admission purposes or for evaluating a student’s earned credits that may be accepted toward a program of study at BMCC. Students requesting transfer transcripts from another institution must arrange to have those transcripts sent directly to BMCC’s Office of Enrollment Management in order for those transcripts to be considered official and to be used in assessing credits already earned. Unofficial transcripts from BMCC are available online through the student’s account.

Transition: The process of a student’s successful fulfillment of declared educational goals and subsequent advancement to another endeavor as a result of completing those goals. Transitions may occur, for example, from one academic level to the next, from a study program to a job, or from one institution of higher education to another.

TRiO Student Support Services: A federally funded student-support program that provides services to help eligible students succeed in college. The project serves first-generation, low-income, or disabled students who are seeking a college degree and who hold U. S. citizenship.

Tuition and Fees: The total mandatory charges assessed students for enrolling in the institution each term.

Tutor: A person with expertise in specific subject areas to assist students in understanding concepts taught in the classroom. Tutors are available free to the students at most BMCC locations, though they may be available to help only in specific academic areas.

Withdraw: The process of filing the required paperwork when a student abandons an attempt to earn the credits associated with a given course. Both the course and a grade of W appear on the student’s transcript. The grade of W is not calculated for GPA; however, a W may affect a student’s financial aid. Students withdrawing from classes do not receive a refund of tuition or fees.

WolfTrax: BMCC’s software system that manages the college’s academic activities, records, procedures, and processes.

WolfWeb: The Internet-based resource that provides BMCC students online access to all of their BMCC information.
