

Reflection Assignment #1

Name: _____

Answer the following questions to bring to the next class period. To receive full credit, your answer should be prepared prior to coming to class. You should answer in paragraph format and your answer should be thoughtful and thorough. I expect at least a paragraph for each answer, not just a few sentences.

1. How would you define race? What does it mean to you?
2. How many races do you think there are? What are they? How do you decide which race someone belongs to?
3. Where do your ideas about race come from? What are the sources of your information?

4. How do you think your life would be different if you looked like someone of a different race? Give this some thought, think about how you would be treated differently at work, school, at the store, when renting a house, etc. Do you think your perception of the world would change?
